(قرار لجنة الحكم والمناقشة)

قررت لجنة الحكم والمناقشة ترشيح السيدة
ط . ب / فايزة عبد العزيز التداوى - للحصول على درجة دكتوراه
الفلسفة فى العلوم الطبية البيطرية (تخصص الكيمياء الحيوية والكيمياء
الحويية الإكلينيكية)

أ.د عمر الأحمدي عيسوى

استاذ الكيمياء الحيوية بكلية الصيدلة
جامعة عين شمس - ووكيل الكلية

أ.د. مهدى عبد الحميد قرشم

أستاذ الكيمياء الحيوية بكلية الطب البيطري
جامعة الاسكندرية

أ.د عبد الوهاب على مندور

أستاذ الكيمياء الحيوية بكلية الطب البيطري
جامعة الاسكندرية - (والمشراف على الرسالة)

أ.د محمود عصمت بلبع

أستاذ الكيمياء الحيوية بكلية العلوم
جامعة الاسكندرية - (والمشراف على الرسالة)

Under Supervision

of

Prof. Dr. Nabil Mohamed Taha

Professor of Biochemistry
Faculty of Vet. Medicine
Alexandria University

Prof. Dr. Abdel Wahab Ali Mandour

Professor of Biochemistry
Faculty of Vet. Medicine
Alexandria University

Prof. Dr. Mahmoud Mohamed Esmat Balbaa

Professor of Biochemistry, Dept. of Biochemistry
Faculty of Science
Alexandria University

Prof. Dr. Rodaat Metawe

Professor of Biochemistry
Institute of Animal Health Research
Dokki, Cairo

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

اللَّهُ
TO MY FATHER'S SPIRIT

ACKNOWLEDGMENT

Thanks forever to ALLAH who is always helping me, as he help all who search for the truth, because he is the truth.

*I am deeply greatful to my supervisor **prof. Dr. Nabil Mohamed Taha** Professor of biochemistry, Faculty of Vet. Med. Alexandria University.*

*I would like to express my thanks to **Prof. Dr. Abdel Wahab Ali Mandour** Professor of biochemistry, Faculty of Vet. Med. Alexandria University for his help and encouragement.*

*I wish to express my sincere gratitude to **Mahmoud Mohamed Esmat Balbaa** Professor of Biochemistry, Dept. of Biochemistry, Faculty of Science, Alexandria University for his guidance and assistance during the study.*

*I am greatly indebted to **Prof. Dr. Rodaat Metawe** Professor of Biochemistry, Institute of Animal Health Research, Dokki, Cairo for his assistance and advice.*

3.2. Methods	36
3.2.1. Liver homogenization	36
3.2.2. Enzyme assay	36
3.2.2.1. Assay of arylsulfatase A in serum and tissues	36
3.2.2.2. Assay of arylsulfatase B in serum and tissues	37
3.2.2.3. Assay of β -D-glucuronidase	37
3.2.2.4. Assay of lipase in both serum and tissues	41
3.2.2.5. Assay of α -amylase in serum and tissues	42

3.2.2.6. Assay of leucine amino peptidase in serum and tissues	43
3.2.2.7. Assay of alkaline phosphatase	44
3.2.3. Protein determination	45
3.2.4. Standard curve of protein	45
3.2.5. Fractionation of arylsulfatases by ion exchange chromatography	46
3.2.6. Kinetic studies of ASA and ASB	47
3.2.6.1. Time courses of enzyme	47
3.2.6.2. Heat stability	48
3.2.6.3. Effect of enzyme concentration	48
3.2.6.4. Effect of different substrate concentration	48
3.2.7. Kinetic studies of β -D-glucuronidase	49
3.2.7.1. Time course	49
3.2.7.2. Heat stability	49
3.2.7.3. Effect of enzyme concentration	50
3.2.7.4. Effect of different substrate concentration	50
3.2.8. Statistical analyses	50
4. RESULTS	51
4.1. Change of some hydrolases in serum and liver tissue of sheep infested with fasciolasis	51
4.1.1. Hydrolases in serum	51
4.1.2. Hydrolases in liver tissue	52
4.2. Fractionation of arylsulfatases by ion exchange chromatography	53
4.3. Kinetic studies of ASA and ASB from liver tissue of sheep infested with fasciolasis	54
4.4. Kinetic studies of β -D-glucuronidase	55
5. DISCUSSION	114
6. SUMMARY	119
7. REFERENCES	123
8. ARABIC SUMMARY	154

List of Abbreviations:

ASA	Arylsulfatase A
ASB	Arylsulfatase B
ASC	Arylsulfatase C
LAP	Leucine Aminopeptidase
ALP	Alkaline Phosphatase
PNCS	<i>p</i> -Nitrocatechol sulfate
2A2M1P	2-amino-2-methyl-1-propanol
PNPP	<i>p</i> -nitrophenyl Phosphate

List of Tables:

Table 1: Specific activities of arylsulfatase A in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as nmol of p-nitrocatechol/h/mg protein.	56
Table 2: Specific activities of arylsulfatase B in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as nmol of p-nitrocatechol/h/mg protein.	58
Table 3: Specific activities of β -D-glucuronidase in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as μ mol of product/min/mg protein.	60
Table 4: Specific activities of lipase in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	62
Table 5: Specific activities of alkaline phosphatase in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	64
Table 6: Specific activities of amylase in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	66
Table 7: Specific activities of leucine aminopeptidase in serum of sheep infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	68
Table 8: Specific activities of arylsulfatase A in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as nmol of p-nitrocatechol/h/mg protein.	70

Table 9: Specific activities of arylsulfatase B in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as nmol of p-nitrocatechol/h/mg protein.	72
Table 10: Specific activities of β -D-glucuronidase in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as μ mol of product/min/mg protein.	74
Table 11: Specific activities of lipase in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	76
Table 12: Specific activities of alkaline phosphatase in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	78
Table 13: Specific activities of amylase in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	80
Table 14: Specific activities of leucine aminopeptidase in sheep liver infested with fascioliasis compared to control. Specific activity is expressed as mU/mg protein.	82
Table 15: Specific activities of hydrolases in the serum of control and infested sheep with fascioliasis.	84
Table 16: Specific activities of hydrolases in the liver extract from control and infested sheep with fascioliasis.	85
Table 17: Time course of the reaction of hepatic arylsulfatase A from control and infested sheep with fascioliasis.	88
Table 18: Effect of different temperature on the specific activity of hepatic arylsulfatase A from control and infested sheep.	90
Table 19: Effect of enzyme concentration on the hepatic arylsulfatase A from control and infested sheep.	92
