AUTHOR BIOGRAPHY

Name: Ahmed Zaher Mohamed Afifi

Occupation: Teaching Assistant at the Department of Computer Science

Occupation place: Faculty of Computers and Information, Menoufiya University

Date of Birth: 16 January 1980

Educational Degree: B.Sc. degree in computer science

Educational Institution: Math. and Computers Department, Faculty of Science,
Menoufiya University

Date of Educational Degree: July 2000

Master Registration Date: 11/10/2003

University Master Accreditation Date: 25/10/2003

ACKNOWLEDGEMENT

First of all, I thank my god for helping me in this work and all other works in my life. I also thank my god for this efficient and high qualified examiners committee.

A special thanks goes to my supervisor, Prof. Dr. Mohiy Mohamed Hadhoud, for his continuous support in the M.Sc. program. He was always there to listen and to give advice. He taught me how to ask questions and express my ideas. He showed me different ways to approach a research problem and the need to be persistent to accomplish any goal. He also taught me how to write academic papers. Without his encouragement and constant guidance, I could not have finished this thesis.

I would like also to express my great thanks to my supervisor, Prof. Dr. Nabil A. Ismail, who is most responsible for helping me to complete the writing of this thesis as well as the challenging research that lies behind it. He was always there to meet and talk about my ideas, to proofread and mark up my papers and chapters, and to ask me good questions to help me think through my problems.

Also thanks to my supervisor, Dr. Wael S. El-kelany, for interesting discussion and being fun to be with.

Last, but not least, I thank my great family: my parents, my wife, my brother and sisters, and all my colleges in the Menoufiya University. Without their love, and support I would not have been able to finish this work and finalize it in this format.
