B11074

Effect of seedbed preparation on the performance of wheat drilling

By

Refat Mohamed Ghazey El-Marhomey

B.Sc. in Ag. Mech., Faculty of Agric., Kafr El-Sheikh, Tanta
University, 1982

THESIS

Submitted to the graduate division in partial fulfilment of
the requirements for the degree of

MASTER OF SCIENCE

IN

AGRICULTURAL SCIENCES

(AGRICULTURAL MECHANIZATION)

Department of Agricultural Mechanization,
Faculty of Agriculture, Kafr El-Sheikh,
Tanta University

1999

Effect of seedbed preparation on the performance of wheat drilling

By

Rrfat Mohamed Ghazey El-Marhomey

**This Thesis for the M.SC. Degree in Agricultural Sciences (Agricultural Mechanization)
has been approved by :**

Prof. Dr. Metwalli M. Mohamed *Metwalli*
Professor of Agric. Eng., and
Head of Agric. Mech. Dept.,
Faculty of Agric., Kafr El- Sheikh,
Tanta University.

Prof. Dr. Mamdouh A. Helmy *M. Helmy*
Professor of Agric. Eng.,
Agric. Mech. Dept.,
Faculty of Agric., Kafr El- Sheikh,
Tanta University.

Prof. Dr. Sayed M. Sharaf *Sharaf S.M.*
Professor of Agric. Eng., and
Head of Agric. Eng. Dept.,
Faculty of Agric.,
Menoufiya university.

SUPERVISION COMMITTEE

Prof. Dr.

Mamdouh Abbas Helmy

*Professor of Agricultural Engineering,
Agricultural Mechanization Department,
Faculty of Agriculture, Kafr El-Shiekh,
Tanta University*

Dr.

Ismail Ahmed AbdelMotaleb

*Associate Professor of Agricultural Engineering,
Agricultural Mechanization Department,
Faculty of Agriculture, Kafr El-Shiekh,
Tanta University*

ACKNOWLEDGMENT

Thanks to *Allah (God)* for giving me the power to complete this work.

The author would like to express his deepest appreciation and sincere thanks to ***Prof. Dr. Metwalli Metwalli Mohamed***, Professor and Head of the Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University for encouragement and tremendous support.

The author gratefully acknowledges ***Prof. Dr. Mamdouh Abbas Helmy***, Professor of Ag. Eng., Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for his supervision, continuous scientific help guidance and revising manuscript.

The author also wishes to express his deep and sincere thanks to ***Dr. Ismail Ahmed Abdelmotalb*** Associate Prof., Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for his supervision, suggesting the problem and continuous scientific help.

Special thanks and great indebtedness to ***Dr. El-Said Mohamed Ahmed Khalifa*** Lecturer, Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for his continuous scientific help and guidance.

Sincere thanks also due to ***Mr. El-Sayed Mahmoud Mohammed El-Beily*** Associate lecturer of Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for his continuous scientific help.

Also deep thanks and gratitude to ***Dr. Rezk Mohamed Hassan Kholief*** and ***Dr. Refaei Refaei Abo Sheishaa El-Sherief*** Researchers in Agric. Eng. Res. Institute, Rice Mech. Center, Meet El-Deba, Kafr El-Sheikh, for their valuable assistance and helpful comments during this work.

Special gratitude to my *father*, my *mother*, my *brothers*, my *sisters*, my *wife* my daughter (*Shaimaa*), my *sons* (*Mohamed* and *Ahmed*) and my brother-in-law for their concern, encouragement, continuous support and invaluable assistance throughout my study for the M.Sc. Thesis.

I would like to express my sincere and deep thanks to all the staff members of Agriculture Mechanization Department, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for their help full comments and encouragement.

I would like to express my deep thanks and appreciation to all whom assist me in any way during carrying out the research.

CONTENTS

	<i>Page</i>
1- INTRODUCTION	1
2- REVIEW OF LITERATURE	4
2.1. Preparation of seedbed	4
2.1.1. Primary tillage	4
2.2. Conservation of surface irrigation	6
2.3. Tillage operation and some physical properties of soil	7
2.3.1. Soil penetration resistance	7
2.3.2. Soil moisture content	11
2.3.3. Soil bulk density	12
2.3.4. Soil volume disturbed	13
2.4. Plowing quality	13
2.4.1. Degree of soil plowing	14
2.4.2. Degree of soil pulverization	15
2.5. Fuel consumption and energy requirements for plowing operation	16
2.6. Field capacity and efficiency	18
2.7. Cost analysis and economic evaluation	20
3- MATERIALS AND METHODS	24
3.1. Materials	24
3.1.1. Seed-bed preparation	24
3.1.1.1 Chisel plough	24
3.1.1.2 Rotary plough	24
3.1.1.3 Wooden plate	26
3.1.1.4 Conventional hydraulic and levelling	26
3.1.1.5 LASER system	28
3.1.1.5.1 Transmitter unit	28
3.1.1.5.2 Receiver unit	28
3.1.1.5.3 Control box	30
3.1.1.5.4 Electric Mast	30
3.1.1.5.5 Telescoping grade rod	32
3.1.1.5.6 LASER Eye TH Receiver	32
3.4 Planting machine (seed-drill)	35
3.6 Measurements	35
3.6.1 Miscellaneous equipment	35
3.6.2 Stop watch	37
3.7 Measuring instruments	37
3.7.1 Spring dynamometer	37
3.7.2 The profile meter	37
3.7.3 The net work of wooden blocks	40
3.7.4 Fuel consumption apparatus	40

LIST OF FIGURES

Figure		Page
3 – 1	The seven shares chisel plough of 175 cm, width	25
3 – 2	The rotary plough	25
3 – 3	Conventional hydraulic	27
3 – 4	Transmitter unit	29
3 – 5	Receiver unit	29
3 – 6	Control box of LASER land levelling.....	31
3 – 7	Electric mast of LASER land levelling.....	33
3 – 8	Telescoping grade rod of LASER land levelling.....	33
3 – 9	LASER eye receiver of LASER land levelling.....	34
3 – 10	Planting machine (seed – drill).....	36
3- 11	Spring dynamometer	38
3 – 12	The relief measurement apparatus	39
3 – 13	The fuel consumption apparatus	41
3 – 14	Soil penetrometer component (SR-2DIK5500).....	43
4 – 1	Effect of ploughing forward speed, ploughing system and levelling system on total fuel consumption.....	48
4 – 2	Effect of ploughing forward speed and ploughing type on specific fuel consumption	49
4 – 3	Effect of ploughing forward speed and ploughing type on energy requirements	51
4 – 4	Effect of ploughing system, ploughing forward speed and levelling system on drawbar pull	53
4 – 5	Effect of ploughing forward speed and ploughing type on drawbar power	55
4 – 6	Effect of ploughing forward speed and ploughing type on specific draft....	57
4 – 7	Effect of ploughing forward speed ploughing type on slip ratio of tractor.....	58
4 – 8	Effect of ploughing system, ploughing forward speed and levelling system on slip ratio of seed drill	59
4 – 9	The soil profil aspects of three different of ploughing system at ploughing forward speed of 2.7 Km/h	61
4 – 10	The soilprofil aspects of three different of ploughing system at ploughing forward speed of 3.8Km/h.....	62
4 – 11	The soilprofil aspects of three different of ploughing system at ploughing forward speed of 5.8Km/h.....	63
4- 12	Effect of ploughing system, ploughing forward speed and levelling system on soil penetration resistance	65
4 – 13	Effect of ploughing forward speed , ploughing system and levelling system on soil bulk density	68
4 – 14	Effect of ploughing forward speed , ploughing type on affective field capacity	70
4 - 15	Effect of ploughing forward speed , ploughing type on field efficiency.....	72
4 – 16	Effect of ploughing forward speed, ploughing system and levelling system on emergence of wheat seedling	74

Figure		Page
4 - 17	Effect of ploughing forward speed, ploughing system and levelling system on transvers scattering	75
4 - 18	Effect of ploughing forward speed, ploughing system and levelling system on total grain yield	77
4 - 19	Effect of ploughing forward speed, ploughing system and levelling system on total income	79
4 - 20	Effect of ploughing forward speed, ploughing system and levelling system on total cost	80
4 - 21	Effect of ploughing forward speed, ploughing system and levelling system on interst of investment	82

LIST OF TABLES

Table		Page
2-1	Life and repair costs of machines	22
3-1	Technical data and specifications of chisel plough	24
3-2	Technical data and specifications of rotary plough	26
3-3	Levelling implementation design and operating parameters	26
3-4	Technical data and specifications of transmitter unit	28
3-5	Specification of the receiver	30
3-6	Specification of the control box unit	30
3-7	Specifications of the electric mast unit	32
3-8	Specifications of the LASER Eye TH Receiver unit	32
3-9	Technical and Functional data of planting machine (seed drill)	35
3-10	Specifications of the dynamometer	37
3-11	The mechanical analysis of the soil	40
3-12	Technical data and specifications of cone penetrometer	42
4-1	Effect of ploughing system, ploughing forward speed and levelling system on total fuel consumption rate (l/h)	47
4-2	Effect of interaction between ploughing system and ploughing forward speed on total fuel consumption rate (l/h)	50
4-3	Effect of ploughing system and ploughing forward speed on energy requirements (kW.h/fed.)	50
4-4	Effect of interaction between ploughing system and ploughing forward speed on energy requirements (kW.h/fed.)	52
4-5	Effect of ploughing system, ploughing forward speed and levelling system on drawbar pull (daN)	52
4-6	Effect of interaction between ploughing system and levelling system on drawbar pull (daN)	54
4-7	Effect of interaction between ploughing system and ploughing forward speed on drawbar pull (daN)	54
4-8	Effect of interaction between ploughing system and ploughing forward speed on drawbar power (kW)	56
4-9	Effect of interaction between ploughing system and ploughing forward speed on specific draught (daN/m)	56
4-10	Effect of ploughing system, ploughing forward speed and levelling system on slip ratio of seed-drill (%)	60
4-11	Effect of ploughing system, ploughing forward speed and levelling system on soil penetration resistance (kPa)	66
4-12	Effect of interaction between ploughing system and ploughing forward speed on soil penetration resistance (kPa)	66
4-13	Effect of interaction between ploughing system and levelling system on soil penetration resistance (kPa)	66
4-14	Effect of interaction between levelling system and ploughing forward speed on soil penetration resistance (kPa)	67
4-15	Effect of ploughing system, ploughing forward speed and levelling system on soil bulk density (g/cm ³)	67
4-16	Effect of interaction between ploughing system and ploughing forward speed on soil bulk density (g/cm ³)	69

Table		Page
4 – 17	Effect of interaction between ploughing system and levelling system on soil bulk density (g/cm^3)	69
4 – 18	Effect of interaction between levelling system and ploughing forward speed on soil bulk density (g/cm^3)	69
4 – 19	Effect of ploughing system and ploughing forward speed on effective field capacity (fed/h) and field efficiency (%)	71
4 – 20	Effect of interaction between ploughing system and ploughing forward speed on effective field capacity (fed/h)	71
4 – 21	Effect of interaction between ploughing system and ploughing forward speed on field efficiency (%)	73
4 – 22	Effect of ploughing system, ploughing forward speed and levelling system on emergence of wheat seedling (%)	73
4 – 23	Effect of ploughing system, ploughing forward speed and levelling system on tranverse scattering (cm).....	76
4 – 24	Effect of ploughing system, ploughing forward speed and levelling system on total grain yield (MG/fed).....	76
4 – 25	Effect of ploughing system, ploughing forward speed and levelling system on total income and cost	78
4 – 26	Effect of ploughing system, ploughing forward speed and levelling system on interest of investment	81
7 – 1	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on total fuel consumption rate	96
7 – 2	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on energy requirements	96
7 – 3	ANOVA Table indicates the effect of ploughing system, ploughing forward speed, levelling system and their interaction on drawbar pull	96
7 – 4	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on drawbar power	97
7 – 5	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on specific draught	97
7 – 6	ANOVA Table indicates the effect of ploughing system, ploughing forward speed, levelling system and their interaction on soil penetration resistance	97
7 – 7	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on actual field capacity	98
7 – 8	ANOVA Table indicates the effect of ploughing system, ploughing forward speed and their interaction on field efficiency	98
