“Study in Agricultural Mechanization”

**EFFECT OF LASER AND TRADITIONAL LEVELLING
METHODS UTILIZATION ON PRODUCTIVITY OF
RICE CROP UNDER LOCAL CONDITIONS**

BY

ISMAIL FOUAD SAYEDAHMED ALI

*B. Sc. in Agric., Mech., Faculty of Agricultural, Kafr El-Sheikh
Tanta University, 1991.*

Thesis

**Submitted in Partial Fulfillment of the
Requirements for the Degree of
MASTER OF SCIENCE**

In

AGRICULTURAL MECHANIZATION

**Agricultural Mechanization Department,
Faculty of Agricultural,
Kafr El-Sheikh,
Tanta University,
1998**

**EFFECT OF LASER AND TRADITIONAL LEVELLING
METHODS UTILIZATION ON PRODUCTIVITY OF RICE
CROP UNDER LOCAL CONDITIONS**

BY

Ismail Fouad Sayed Ahmed Ali

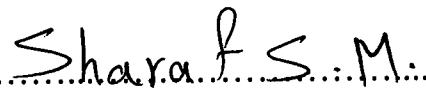

**This Thesis for the M.Sc. Degree in
Agricultural Sciences (Agricultural Mechanization)
has been approved by:**

PROF. DR. METWALLI M. MOHAMED.....

Professor of Agric. Eng., and
Head of Agric. Mech. Dept.,
Faculty of Agric., Kafr El-Sheikh,
Tanta University

PROF. DR. MAMDOUH A. HELMY.....

Professor of Agric. Eng.,
Agric. Mech. Dept.,
Faculty of Agric., Kafr El-Sheikh,
Tanta University.

PROF. DR. SAYED M. SHARAF.....

Professor of Agric. Eng., and
Head of Agric. Eng. Dept.,
Faculty of Agric.,
Menoufiya University.

DR. ISMAIL A. ABD EL-MOTALEB.....

Associate Prof. of Agric. Eng.,
Faculty of Agric., Kafr El-Sheikh,
Tanta University.

Date: 9 / 11 / 1998

SUPERVISION COMMITTEE

Prof. Dr.

Metwalli Metwalli Mohamed

Professor of Agric., Eng., and
Head of Agric, Mech., Dept.,
Faculty of Agricultural, Kafr El-Sheikh,
Tanta University
.....

Dr.

Ismail Ahmed Abd El-Motaleb

Associate Professor of Agric., Eng.,
Agric., Mech., Dept.,
Faculty of Agricultural, Kafr El-Sheikh,
Tanta University
.....

Prof. Dr.

Ahmed Mohamed El-Serafy

Head of Research,
Rice Research and Training Center, Sakha,
Field Crop Research Institute,
Agricultural Research Center
.....

ACKNOWLEDGMENT

First and foremost, I would thank the Almighty ALLAH for giving me the strength and determination to carry out this study.

*The author wishes to express his deep and sincere thanks and appreciation to **Prof. Dr. Metwalli Metwalli Mohamed**, Professor and head of Agricultural Mechanization Department, Faculty of Agricultural, Kafr El- Sheikh, Tanta University, for his continuous encouragement, valuable consultation, constant interest shown, supervision, scientific help, kind guidance, and revising the manuscript.*

*The author also wishes to express his deep and sincere thanks to **Dr. Ismail Ahmed Abd El-Motalb**, Associate Professor of Agric., Mech., Fac., of Agric., Kafr El- Sheikh, Tanta Univ., for his supervision, guidance, the encouragement and continuous scientific help.*

*Special thanks and great indebtedness to **Prof. Dr. Ahmed Mohamed El-Serafy**, head of Research, Rice Research and Training Center, Sakha, Kafer El-Sheikh, for Valuable advice, constant help, encouragement, and revising the manuscript.*

*Sincere thanks also to **Dr. Hamdy El-Mowafi**, Researcher, Rice Research and Training center for his continuous cooperation and help in data analysis.*

*I would like to express my sincere and deep thanks to **all the staff members of Agric., Mech., Dep., Fac., of Agric., Kafer El-Sheikh Tanta Univ.**, for their helpful comments and encouragement.*

*I would like to express my sincere and deep thanks to **all the staff members of Moubarak Center for Agric., Eng., Sakha and Rice Mech., Center Meet El-Deepa**, for continuous encouragement and help.*

*I would also like to acknowledge the dedicated support and sacrifice of **my mother, my sister, my wife, and my family.***

*Finally, I would like to dedicate this thesis to the memory of **my father.***

CONTENTS

	Page
1. Introduction -----	1
2. Review of literature -----	3
2.1. Land levelling method -----	3
2.2. Effect of land levelling on: -----	5
2.2.1. Soil physical properties -----	5
2.2.1.1. Soil bulk density and total porosity -----	5
2.2.1.2. Soil compaction -----	6
2.2.2. Farm machinery performance -----	7
2.2.3. Crop yield -----	8
2.3. Power requirement -----	9
2.4. Cost of sequential farm operations -----	12
2.4.1. Tillage system costs -----	12
2.4.2. Levelling costs -----	14
2.4.3. Present annual costs -----	15
3. Materials and methods. -----	17
3.1. Materials -----	17
3.1.1. Tractors -----	17
3.1.2. Ploughs -----	20
3.1.3. Laser controller device components -----	21
3.1.3.1. Transmitter unit -----	21
3.1.3.2. Receiver unit -----	23
3.1.3.3. Control box -----	25
3.1.3.4. Electric mast -----	25
3.1.3.5. Telescoping grade rod -----	28
3.1.3.6. Laser eye receiver -----	28
3.1.4. Conventional hydraulic land levelling -----	28
3.1.5. Planting machine (seed drill) -----	29
3.1.6. Harvesting machine -----	32
3.1.7. Measuring instruments -----	33
3.1.7.1. Penetrometer -----	33
3.1.7.2. Stop Watch -----	36
3.1.7.3. Balances -----	36
3.1.7.4. Calibrated flask -----	36
3.1.7.5. Electrical oven -----	36
3.1.7.6. Fuel consumption apparatus -----	36
3.1.7.7. Surveying instruments -----	36
3.1.9. Rice variety GIZA 177 -----	36
3.2. Method s-----	37
3.2.1. Laboratory experiments -----	37
3.2.1.1. Soil physical properties -----	37
3.2.1.1.1. Soil structure -----	37
3.2.1.1.2. Moisture content -----	37
3.2.1.1.3. Bulk density -----	38
3.2.2. Field experiments -----	38
3.2.2.1. Measurements carried out during field test -----	39
3.2.2.1.1. Slip ratio -----	39
3.2.2.1.2. Determination of the speeds -----	39
3.2.2.1.3. Rate of fuel consumption -----	39

3.2.2.1.4. Soil penetration resistance -----	40
3.2.2.1.5. Soil porosity and void ratio -----	40
3.2.3. Determination of the field efficiency -----	41
3.2.3.1. Theoretical field capacity-----	41
3.2.4. Cost analysis-----	41
3.2.5. Statistical analysis-----	42
3.2.6. Total yield -----	42
4. Results and discussion -----	43
4.1. Soil physical properties: -----	43
4.1.1. Effect of land levelling method, ploughing depth, and leveller forward speed on some soil physical properties after levelling operation -----	43
4.1.1.1. Bulk density -----	43
4.1.1.2. Total porosity -----	47
4.1.1.3. Soil penetration resistance -----	50
4.1.2. Effect of land levelling method, ploughing depth, and leveller forward speed on some soil physical properties after harvesting operation ---	55
4.1.2.1. Bulk density -----	55
4.1.2.2. Total porosity -----	58
4.1.2.3. Soil penetration resistance -----	61
4.2. Field performance characteristics -----	64
4.2.1. Effect of land levelling method, ploughing depth, and leveller forward speed on the field performance characteristics of levelling operation --	64
4.2.1.1. Fuel consumption -----	64
4.2.1.2. Slip ratio -----	68
4.2.1.3. Actual field capacity -----	70
4.2.2. Effect of land levelling method, planting method, and leveller forward speed on the Field performance characteristics harvesting operation -	74
4.2.2.1. Fuel consumption -----	74
4.2.2.2. Slip ratio -----	77
4.2.2.3. Actual field capacity -----	81
4.3. Effect of land levelling method, ploughing depth, and leveller forward speed on the yield components -----	84
4.3.1. Plant height -----	84
4.3.2. Panicle length -----	87
4.3.3. Number of tillers per square meter-----	87
4.3.4. Number of panicles per square meter-----	90
4.3.5. 1000- Grain mass-----	94
4.3.6. Total yield-----	96
4.4 Effect of land levelling method, planting method, and leveller forward speed on the total cost-----	98
5.Summary and conclusions-----	102
6.References-----	109
7.Appendix-----	114
8.Arabic summary-----	

LIST OF FIGURES
