(Arts, Science, and Education)  
Physics Department

**Name of Student:** Shimaa Ahmed Aly Ahmed Hassan  
Assistant Researcher –National Research Center  
**Graduate:** M.Sc. in physics 2010, Department of Physics,  
University College for Women, Ain Shams  
University.  
**Title of Thesis:** Solar Spectrum Modulation by Chromogenic Thin  
Film Material to Save Consumed Energy  
**Scientific Degree:** Ph.D. Degree in Science "Solid State  
Physics"  
**Department:** Physics.

**Under supervision of:**

**1- Prof. Dr. Hamdia A. Zayed**

Physics Department, University College for Women  
(Arts, Science and Education)-Ain Shams University

**2- Prof. Dr. Hassan H. Afify**

Solid State Physics Department  
National Research Center

**3- Prof. Dr. Salama E. Demian**

Solid State Physics Department  
National Research Center

Post graduate administration

Date of research:     /     / 2015

Date of approval:     /     / 2015                      Approval stamp:

Approval of Faculty Council:     /     /2015

Approval of University Council:     /     /2015

# *Acknowledgements*

*Praise be to ALLAH, the Ever-Glorious*

*The author would like to express her deepest gratitude to **Prof. Dr. Hassan H. Afify**, Solid State Physics Department, National Research Center, Cairo, Egypt, for suggesting the point of research, technical advice, direct continuous supervision, and constructive comments during analysis of the data, fruitful discussion and help to write the final form.*

*Deep appreciation is felt to **Prof. Dr. Hamdia Abd El-Hamied Zayed**, Physics Department, University College for Women, Ain Shams University for her kind interest and supervision.*

*The author is grateful to **Prof. Dr. Salama Demian**, Solid State Physics Department, National Research Center, Cairo, Egypt, for able supervision, valuable advice and great help during the status of writing the thesis.*

*The author is grateful to **Dr. Ahmed Sobhy**, Spectroscopic physics Department, National Research Center, for great help during the status of writing the thesis.*
