THE ROLE OF BCL-2 EXPRESSION IN THE PROGRESSION OF CERVICAL NEOPLASIA

**A Thesis Submitted for Partial Fulfillment of
The M.D. Degree in Obstetrics and Gynecology**

Presented By

Wael Ibrahim Agur

M.B., B.Ch., M.Sc.

**Assistant Lecturer of Obstetrics & Gynecology
Faculty of Medicine - Ain Shams University**

Wael Ibrahim Agur

Under Supervision of

Prof. Dr. Mahmoud Medhat Abdel-Hady

*Professor of Obstetrics & Gynecology
Faculty of Medicine - Ain Shams University*

Mahmoud Medhat Abdel-Hady

Ass. Prof. Dr. Sherif Abdel-Khalek Akl

*Assistant Professor of Obstetrics & Gynecology
Faculty of Medicine - Ain Shams University*

Sherif Abdel-Khalek Akl

Ass. Prof. Dr. Mohamed Ahmed Ibrahim Laban

*Assistant Professor of Obstetrics & Gynecology
Faculty of Medicine - Ain Shams University*

Prof. Dr. Magda Hassan Nasr-El-Din

*Professor of Pathology - Early Detection of Cancer Unit
Faculty of Medicine - Ain Shams University*

THE UNIVERSITY OF CHICAGO

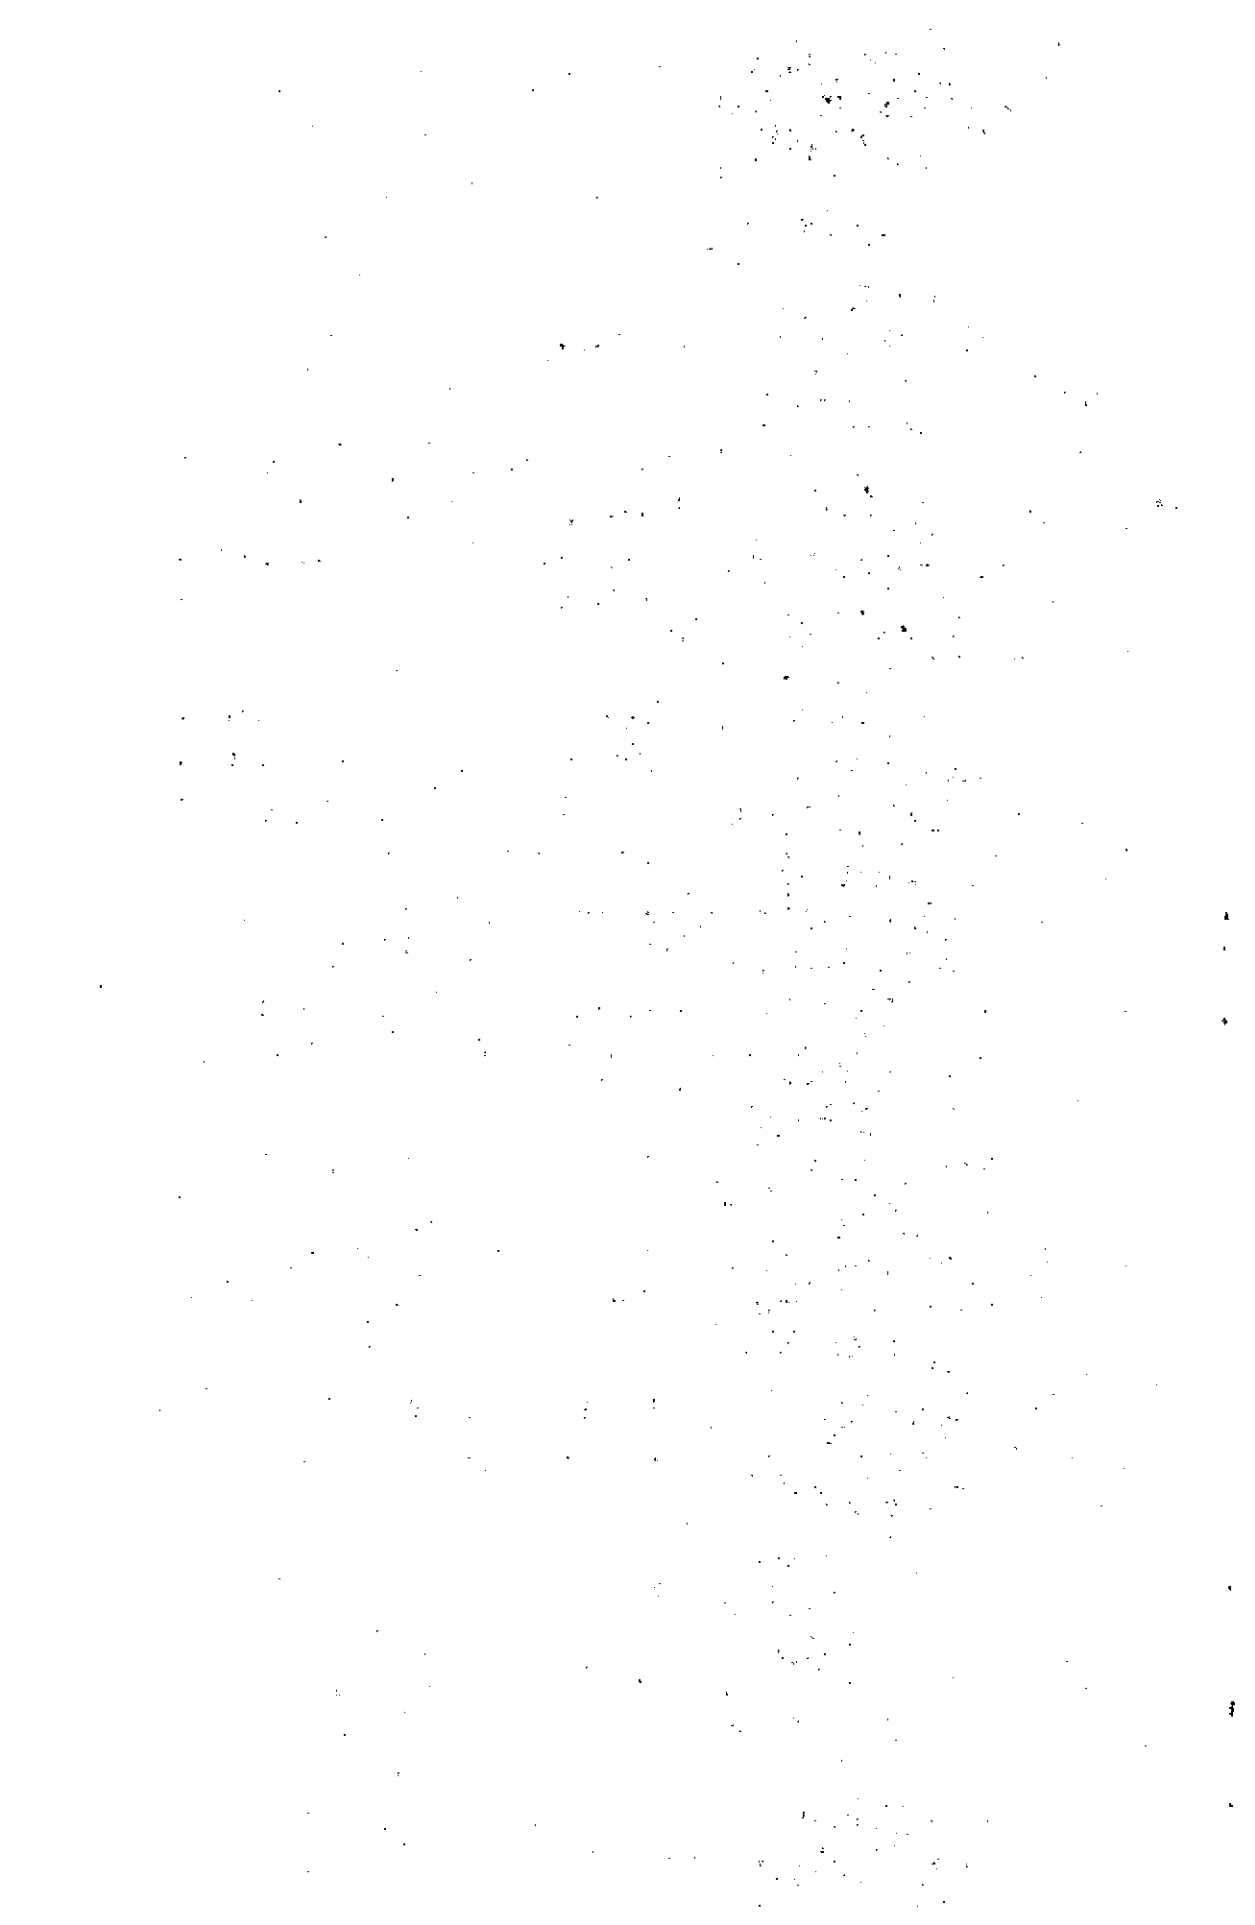

Dedication

This work is dedicated to the late Professor Doctor

Ibrahim Yasseen Abou Senna,

Professor of Obstetrics and Gynecology, Faculty of medicine, Ain Shams University. He was the first supervisor to hear about the subject of this thesis and he persistently encouraged me to do my very best. A year and a half now after his departure and he still lives in the minds of people who had the chance to deal with him one day.

Wael I. Agur

Acknowledgement

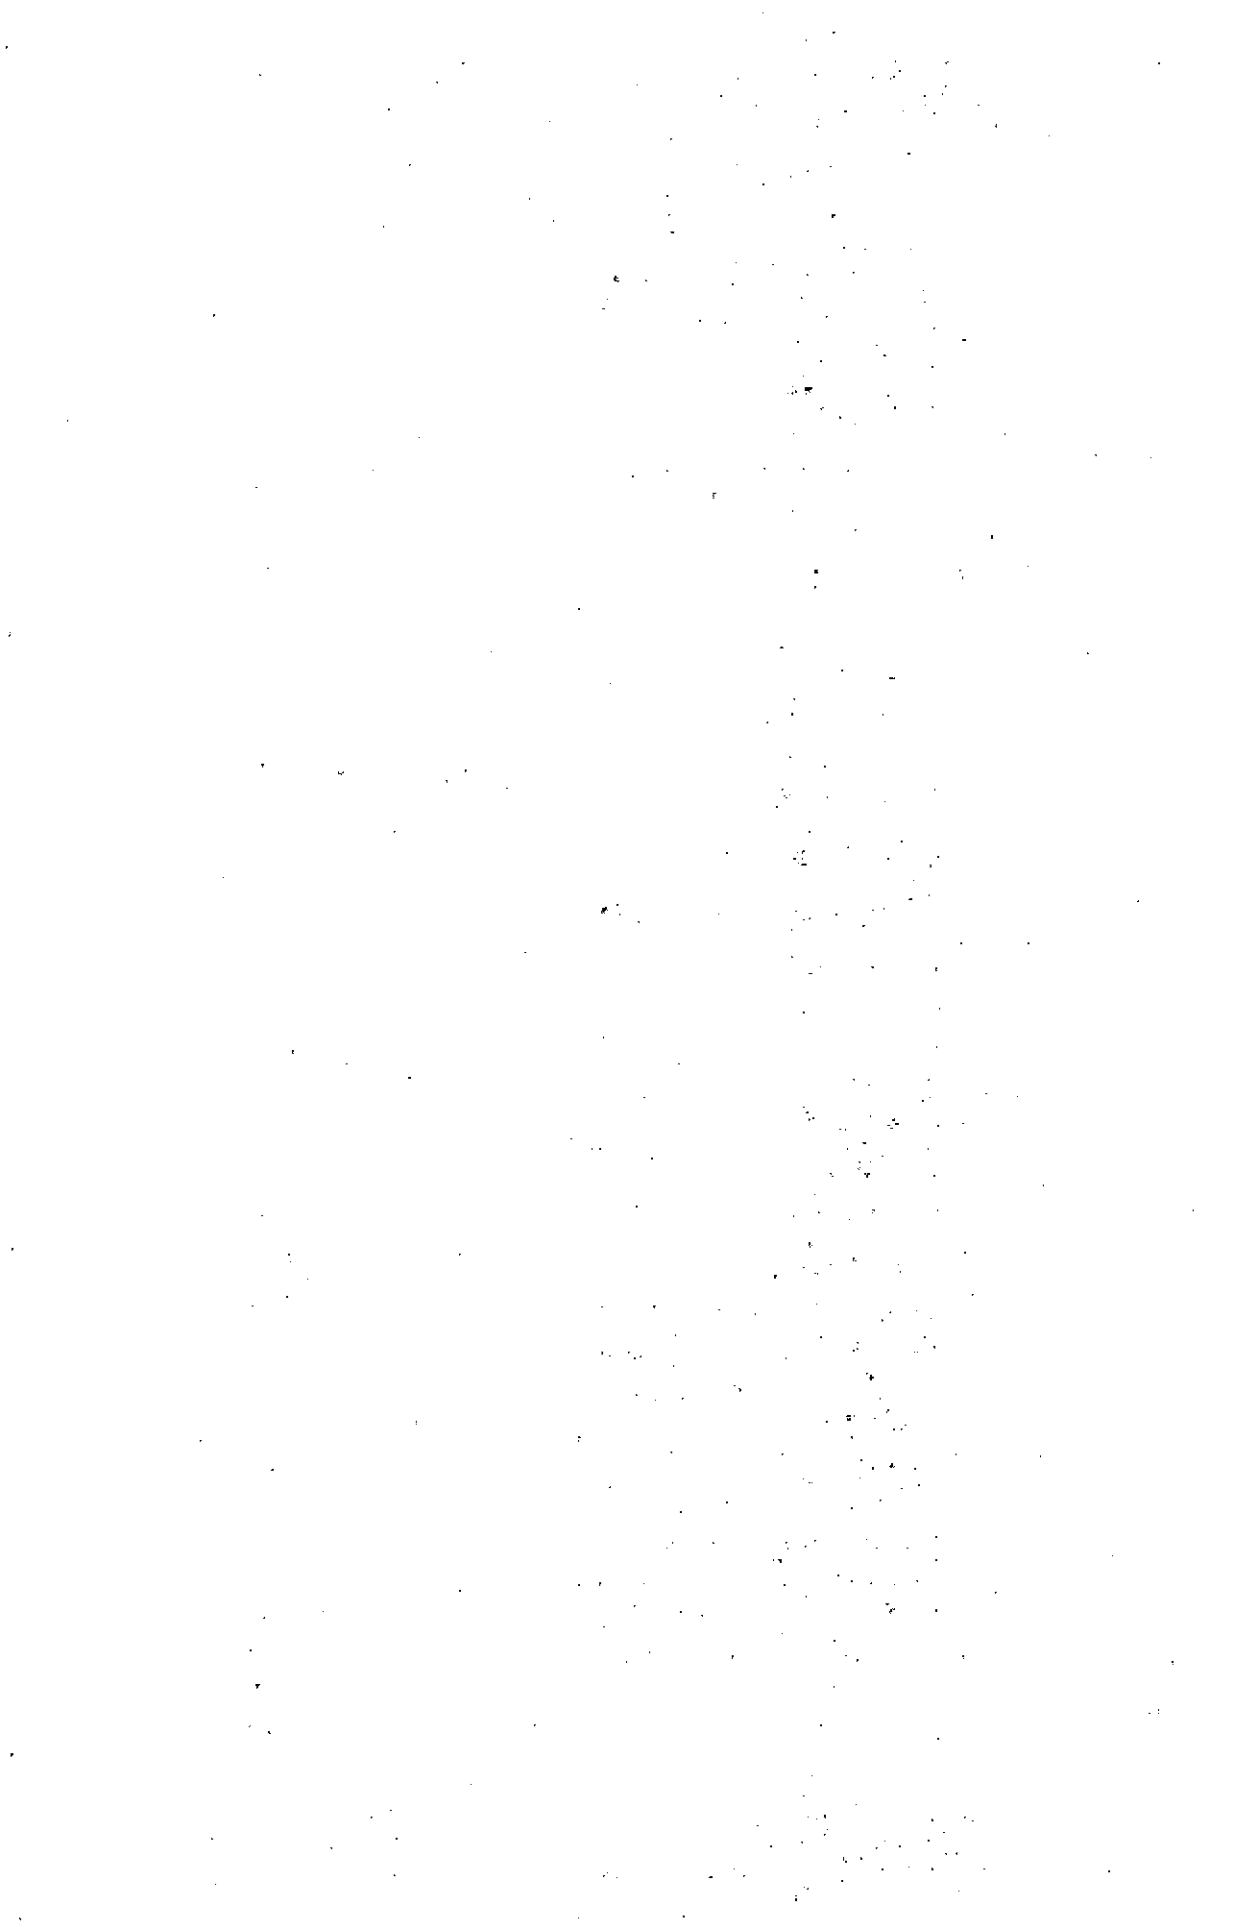

No words can ever express my gratitude and appreciation to ***Prof. Dr. Mahmoud Medhat Abdel-Hady***, Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, who saved no effort in helping and guiding me. Without his support, this work could not have been completed.

I deeply express my utmost gratitude and deep appreciation to ***Ass. Prof. Dr. Sherif Abdel-Khalek Akl***, Assistant Professor of Obstetrics and Gynecology, Faculty of medicine, Ain Shams University, for his great help and encouragement throughout the course of the thesis.

I would like to express my deepest thanks to ***Ass. Prof. Dr. Mohamed Ahmed Laban***, Assistant Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, for his generous supervision and precious advice throughout the course of this work.

My great thanks goes to ***Prof. Dr. Magda Hassan Nasr El-Din***, Professor of Pathology, Early Detection Of Cancer Unit, Faculty of medicine, Ain Shams University, for her great patience and continuous advice which enabled me to complete the tough technical part of this work.

At last, I would like to thank everyone who gave me an unfailing support and assistance throughout the course of this work. I really appreciate what everyone did.

Contents

Introduction and aim of the study	1
Review of literature	4
Chapter 1: Apoptosis:	5
Introduction	6
History, definition, and synonyms	7
Morphology	10
Molecular mechanisms	12
Decision/Initiation	13
Execution	16
Clearing	18
Measurement of apoptosis	19
Clinical aspects of apoptosis	24
Apoptosis and AIDS	26
Apoptosis and organ transplant	27
Apoptosis and cancer	28
Chapter 2: The bcl-2 oncogene/oncoprotein:	36
Introduction	37
Mechanisms of oncogene activation	39
Classification of oncogenes	41
Characteristics of the bcl-2 family	46
Bcl-2 protein expression in different malignancy	51
Bcl-2 protein expression in cervical cancer	55
Chapter 3: Cervical neoplasia:	62
Incidence of cervical cancer	63
Etiology of cervical cancer	66
HPV and cervical cancer	67
Smoking and cervical cancer	74
The Pap test	78
The Bethesda system	79

Screening innovations	86
Pathology of cervical neoplasms	91
Clinical features and investigations	93
Staging of cervical cancer	96
Treatment strategies of cervical neoplasia	98
Treatment of cervical cancer	101
Surgical innovations	105
Management options in pregnancy	107
Prognostic factors	110
Recommended follow-up	113
 Patients and methods	 114
Results	122
Staining photographs	139
Discussion	149
Conclusions and recommendations	165
References	171
Arabic summary	203

List of Tables

<i>Table No.</i>		<i>Page No.</i>
1	The Morphological and biochemical differences between necrosis and apoptosis.....	34
2	The bcl-2 family members and their impact on ACD.....	46
3	The comparison between the different Pap smear Classification systems.....	82
4	The natural history of CIN.....	83
5	The FIGO staging of cervical cancer.....	97
6	Treatment strategies of cervical neoplasia.....	98
7	Differences between cryotherapy and LEEP.....	100
8	Summary of the different therapies currently applied for cervical neoplasia according to the stage.....	103
9	Different management options for cervical cancer in pregnancy.....	108
10	The incidence of nodal metastasis in each tumor stage	111
11	The five years' survival of patients with cervical cancer	112
12	The mean age of the three study groups.....	124
13	The mean parity of the three study groups.....	125
14	The bcl-2 expression grade in the three different tissue specimens.....	126
15	The bcl-2 expression grade in the different degrees of pre-invasive neoplasia.....	128
16	Comparison between CIN I and CIN II as regards bcl-2 expression grade.....	129
17	The difference between CIN I and CIN III as regards the bcl-2 expression grade.....	129
18	The difference between the control group and the CIN group as regards the bcl-2 expression grade.....	130

19	The bcl-2 expression grade in the different grades of cancer.....	131
20	The relation between the three cancer grades as regards the bcl-2 expression grade.....	132
21	The difference between the CIN group and the cancer group as regards the bcl-2 expression grade.....	133
22	The difference between the control group and the cancer group as regards the bcl-2 expression grade.....	133
23	The difference in bcl-2 expression grade between FIGO stage I vs. II, III, and IV.....	135
24	The difference as regards the bcl-2 grade between cancer patients with and without lymphovascular invasion.....	136
25	The change in bcl-2 expression grade among patients with different post-operative status and patient progression.....	137
26	The difference as regards the bcl-2 expression grade between alive patients and dead patients.....	138
27	Difference as regards the bcl-2 expression grade between patients who are alive with and without recurrences.....	138
