"SCREENINIG OF SOME MICROBIAL STRAINS CAPABLE OF REMOVING URANIUM FROM POLLUTED AREAS"

Thesis
Submitted for partial fulfillment of

M.Sc.
In Microbiology

By

Haytham Mohamed Mamdouh Ibrahim

Microbiology Department
National Center For Radiation Research and Technology
(NCRRT)

Under the supervision of

Prof. Dr. Mohamed R. Abu-shady
Head of Microbiology Department
Faculty of Science
Ain Shams University

Prof. Dr. Zahira S. Tawfik
Prof.of Microbiology and
Vice Dean of Biotechnolog
Division, **NCRRT**

1999

APPROVAL SHEET

"Screening of Some Microbial Strains Capable of Removing Uranium from Polluted Areas"

By

Haytham Mohamed Mamdouh Ebrahim,

B. Sc. of Microbiology and Chemistry

Faculty of Science

Ain Shams University

This thesis for M. Sc. Degree has been approved by:

Prof. Dr/ Mohamed R. Abu-Shady

Professor and Head of Microbiology Department

Faculty of Science

Ain Shams University

Prof. Dr./ Zahira Said Tawfik

Professor of Microbiology and

Vice Dean of Biotechnology Division

National Center for Radiation Research and Technology

Atomic Energy Authority

This

THESIS has not been submitted for a degree at this or at any other university. The literature cited here shown how I have availed myself of the work of the others

Haytham Mohamed M. Ebrahim

ACKNOWLEDGEMENT

Scenically, I can heartily express my deepest thanks and great appreciation to Prof. Dr. Mohamed R. Abu-shady, Professor and head of Microbiology Department, Faculty Science, Ain Shams University. For his keen supervision guidance constructive criticism and unlimited help during the prepartion of this study.

Also, I want to introduce my great thanks to Prof. Dr. Zahira S. Tawfik., Professor of Microbiology and Vice-Dean of Biotechnology Division, National Center for Radiation Research and Technology (NCRRT), Atomic Energy Authority, for suggestion the point of research, active supervision, continuous discussion and encouragement during this work, and her great effort to make all the requirements of work be available

Also, my thanks to the stuff of irradiation facility, NCRRT, and the members of Electron Microscope central laboratory for their technical assistance and unlimited help, At last but not least thanks are also extended to all members of Microbiology Department especially my colleagues for their support, help, and encouragement.
