Diagnostic Value of Serum Leptin and Insulin Levels in Polycystic Ovarian Disease

Thesis

Submitted for Partial fulfillment of
Master Degree

In

Obstetrics and Gynecology

By

Iman Mohamed Atteia
M.B.B.Ch., Ain Shams University

Supervised by

Dr. Ahmed Ezzat Mohamed Mohrrem
Assistant Professor of Obstetrics and Gynecology
Ain Shams University

Dr. Abd- El- Mejeed Ismail Abd-El- Mejeed
Lecturer of Obstetrics and Gynecology
Ain Shams University

Faculty of Medicine
Ain Shams University
2001

Acknowledgment

*First, of all, thanks are all due to **ALL MIGHTY ALLAH** for blessing me with everyone who supported, encouraged and helped me to present this work and to overcome every obstacle I faced, as a part of his ever generous and continuous help throughout my whole life.*

*I would like to express my sincere gratitude to **Dr. Ahmed Ezzat Mohamed Mohrram**, Assistant professor of **Obstetrics and Gynecology**, **Ain Shams University**, for his faithful supervision, valuable suggestion, continuous advice and guidance throughout the whole work. It is him offered me a chance to perform this work in a proper manner.*

*It is a great pleasure to direct my thanks and appreciation to **Dr. Abd- El- Mejeed Ismail Abd-El-Mejeed**, **Lecturer of Obstetrics and Gynecology**, **Ain Shams University**, for his constant support, invaluable time and kind care, he has done tremendous effort in the meticulous revision of this work word by word.*

Last, but not least, words stand short when coming to express my deepest thanks and gratitude to my ever-giving family for their encouragement, support and tender guidance.

Contents

	Pages
◀ Introduction and aim of the work	1- 3
◀ Review of literature	
• Polycystic Ovary Disease.....	4 - 40
• Leptin Physio-Chemistry.....	41-63
• Leptin : A Multi Functions Hormone.....	64-88
◀ Subjects and methods.....	89-94
◀ Results.....	95-126
◀ Discussion.....	127-144
◀ Summary and conclusion.....	145-149
◀ References.....	150-189
◀ Arabic summary	

List of Figures of Review

<i>No of Figure</i>	<i>Title</i>	<i>Page</i>
2-1	Leptin structure	44
2-2	Leptin receptor	47
3-1	Role of leptin in the regulation of body weight.	65
3-2	Possible sites of abnormal leptin action in human	71

List of Figures of Results

<i>No. of Figure</i>	<i>Title</i>	<i>Page</i>
(1)	Comparison between group I (lean PCO) and group III (lean control) as regard the clinically detected data.	96
(2)	Comparison between group II and group IV as regard the clinically detected data	98
(3)	Fasting serum levels of leptin in the studied groups	100
(4)	Curve showing fasting serum leptin level in group of patients and group of control	101
(5)	Fasting serum levels of insulin in the studied groups	103
(6)	Curve showing fasting serum insulin level in the group of patient and group control	104
(7)	Fasting serum levels of free testosterone in the studied groups	106
(8)	Fasting serum levels of LH level in the studied groups	108
(9)	Fasting serum hormonal concentrations; a comparison between group I (lean PCO) and group III (lean control)	110
(10)	Fasting serum hormonal concentrations; a comparison between group II and group IV.	112
(11)	Fasting hormonal concentrations; a comparison between group I (lean PCO) and group II (obese PCO).	114

(12)	Curve showing correlation between fasting serum leptin and BMI in group of patients and group of control	115
(13)	Curve showing correlation between fasting serum leptin and waist circumference in group of patients and group of control	116
(14)	Curve showing correlation between fasting serum leptin level and hip circumference in group of patients and group of control	117
(15)	Curve showing correlation between fasting serum leptin level and waist to hip ratio in group of patients and group of control	118
(16)	Curve showing correlation between fasting serum leptin level and insulin level in group of patients and group of control	119
(17)	Curve showing correlation between fasting serum leptin level and fasting serum free testosterone level in group of patients and group of control.	120
(18)	Curve showing correlation between fasting serum leptin level and fasting serum free testosterone level in group I (lean PCO) and group III (lean control)	121
(19)	Curve showing correlation between fasting serum leptin level and fasting serum free testosterone level in group II (obese PCO) and group IV (obese control)	122
(20)	Curve showing correlation between fasting serum leptin level and fasting serum LH level in group I (lean PCO) and group III (lean control)	123
(21)	Curve showing correlation between fasting serum leptin level and fasting serum LH level in group II (obese PCO) and group IV (obese control).	124
(22)	Curve showing correlation between fasting serum insulin level and fasting serum free testosterone level in group of patients and group of control.	125
(23)	Curve showing correlation between fasting serum insulin level and fasting serum free testosterone level in group II (obese PCO) and group IV (obese control).	126

List of Tables of Review

<i>No. of table</i>	<i>Title</i>	<i>Page</i>
1	Clinical features of PCOS	8
2	Estimated clinical outcome in women treated medically for ovulation induction	33

List of Tables of Results

<i>No. of table</i>	<i>Title</i>	<i>Page</i>
(1)	Comparison between group I (lean PCO) and group III (lean control) as regard clinically detected data	95
(2)	Comparison between group II (obese PCO) and group IV (obese control) as regard the clinically detected data	97
(3)	Fasting serum levels of leptin in the studied groups	99
(4)	Fasting serum levels of insulin in the studied groups	102
(5)	Fasting serum levels of free testosterone in the studied groups	105
(6)	Fasting serum levels of LH level in the studied groups	107
(7)	Fasting serum hormonal concentrations; a comparison between group I & group III.	109
(8)	Fasting serum hormonal concentrations; a comparison between group II & group IV.	111
(9)	Fasting hormonal concentration; a comparison between group I & II	113
