

Structural, Magnetic, and Transport Properties of Polymer-Nanoferrite Composites

Thesis Submitted for

Ph. D. Degree in Science,

Solis State Physics (Materials Science)

By

Neama Gomaa Imam

(*N.G.Imam*)

M. Sc. in Solid state Physics
Assistant Lecturer
Atomic Energy Authority- Nuclear Research CenterBasic Nuclear Science Division - Experimental Nuclear Physics Dept.

Supervised by

Prof. D.Sc. Mohamed Ali Ahmed
(M.A. Ahmed)
Prof. of Materials Science &Nanotechnology
Physics Dept., Material Science lab1, Science
Faculty- Cairo University.

Prof. Dr. Usama Seddik
(U. Seddik)
Prof. of Nuclear Physics
Atomic Energy Authority- Nuclear Research
Center, Experimental Nuclear Physics Dept.
"Head of Cyclotron Project".

Prof. Dr. Amera Zaky Dakrory
Prof. of Experimental Physics
Physics Dept.
Girls College -Ain Shams University

Prof. Dr. Nagwa Okasha Mourad
(N. Okasha)
Prof. of Materials Science
Physics Dept.
Girls College- Ain Shams University

(2013)

Approval Sheet

Thesis Submitted for

Ph. D. Degree in Science,

Solis State Physics (Materials Science)
By

Neama Gomaa Imam

Title of thesis:
"Structural, Magnetic, and Transport Properties
of Polymer-Nanoferrite Composites"

Thesis Supervisors:

Signature:

Prof. D.Sc. Mohamed Ali Ahmed
Prof. of Materials Science &Nanotechnology
Science Faculty - Cairo University.

Prof. Dr. Usama Seddik Prof. of Nuclear Physics Atomic Energy Authority- Nuclear Research Center.

Prof. Dr. Amera Zaky Dakrory
Prof. of Experimental Physics
Physics Dept. Girls College -Ain Shams University

Prof. Dr. Nagwa Okasha Mourad Prof. of Materials Science Physics Dept. Girls College- Ain Shams University

Post graduation administration:

Date of research: / /2013 Date of Approval: / /2013

Approval Stamp:

Approval of Faculty Council: / /2013

Approval of University Council: / /2013

Student name: Neama Gomaa Imam

Scientific degree: Ph. D. in Solid State Physics (Materials Science)

Faculty: Faculty of Girls, Arts, Science, and Education

Department: Physics department

University: Ain Shams university

Degree awarded: M. Sc. in Solid State Physics (Materials science)

(2007)

Dedication

To My Great God

Then

To Every One Who Helped Me:

To

My Supervisors...,

My Friends ...,

And

My Family...
