

**ION INTERACTIONS AND THEIR IMPACT ON
BOTH MECHANICS AND DYNAMICS OF
UPTAKE BY PLANT WITH SPECIAL
REFERENCE TO HEAVY ELEMENTS**

BY

SUZAN ALI EL-SAYED AHMED

B.Sc. Agric. Sci. (Soil Science), Ain Shams University, 2003

A thesis submitted in partial fulfillment

of

the requirements for the degree of

MASTER OF SCIENCE

in

**Agricultural Science
(Soils)**

Department of Soil Science

Faculty of Agriculture

Ain Shams University

2009

Approval Sheet

**ION INTERACTIONS AND THEIR IMPACT ON
BOTH MECHANICS AND DYNAMICS OF
UPTAKE BY PLANT WITH SPECIAL
REFERENCE TO HEAVY ELEMENTS**

BY

SUZAN ALI EL-SAYED AHMED

B.Sc. Agric. Sci. (Soil Science), Ain Shams University, 2003

This thesis for M.Sc. degree has been approved by:

Prof. Dr. Mohammed Kamal Sadik

Professor of Soil Science, Faculty of Agriculture, Moshtohor,
Benha University

Prof. Dr . Saad Mahmoud EL-Sherif

Professor Emeritus of Soil Science, Faculty of Agriculture, Ain
Shams University

Prof. Dr. Adel. El-Sayed EL-Leboudi

Professor Emeritus of Soil Science, Faculty of Agriculture, Ain
Shams University

Date of Examination: 3 / 12 / 2008

**ION INTERACTIONS AND THEIR IMPACT ON
BOTH MECHANICS AND DYNAMICS OF
UPTAKE BY PLANT WITH SPECIAL
REFERENCE TO HEAVY ELEMENTS**

BY

SUZAN ALI EL-SAYED AHMED

B.Sc. Agric. Sci. (Soil Science), Ain Shams University, 2003

Under the supervision of

Prof. Dr. Adel. El-Sayed EL-Leboudi

Prof. Emeritus of Soil Science, Department of Soils , Faculty of
Agriculture, Ain Shams University (Principal Supervisor)

Prof. Dr. Essam Mohammed Abd-Elmoniem

Professor of Soil Science, Department of Soils, Faculty of
Agriculture, Ain Shams University

Prof. Dr. Wafaa Mohammed Taha El- Etr

Head of Research, Soils, Water and Environment Res. Institute, ARC.

ACKNOWLEDGEMENT

The authoress wishes to express her deep appreciations and gratitude to **Dr. Adel. El-Sayed EL-Leboudi**, Professor of Soil Science, Soils Department, Faculty of Agriculture, Ain Shams University, **Dr. Essam Mohammed Abd-Elmoniem**, Professor of Soil Science, Soils Department, Faculty of Agriculture, Ain Shams University and **Dr. Wafaa Mohammed Taha El- Etr**, Head of Research, Soils, Water and Environment Res. Institute, ARC. for their supervision, valuable suggestions, progressive criticisms, deep interest and effective guidance throughout the investigation and preparation of the manuscript as well as for their helpful personal advice.

Finally, the authoress extends her deep thanks to her parents, brothers, sister and husband for their special patience during the performance of the whole work.
