**THE USE OF SOLAR ENERGY FOR
DESALINATION OF SALTY WATER
FROM THE LAKES OF FAYOUM**

By

Ragab Ismail Ahmed Mourad

B.Sc. Agric. Engineering Alex. Univ., 1987

M.Sc. Agric. Engineering Alex. Univ., 1992

THESIS

**SUBMITTED IN PARTIAL FULFILLMENT OF
THE REQUIREMENTS FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY**

IN

AGRICULTURAL ENGINEERING

To

**DEPT. OF SOILS AND WATER SCI. (AGRI. ENG.)
FACULTY OF AGRICULTURE AT EL-FAYOUM
CAIRO UNIVERSITY**

2000

B 7111

THE USE OF SOLAR ENERGY FOR DESALINATION OF SALTY WATER OF THE LAKES OF FAYOUM

**Presented by
RAGAB ISMAIL AHMED MOURAD**

**For the Degree of Doctor Philosophy
In
Agricultural Engineering**

Date: 11/6/ 2000

Examiners' Committee

**Prof. Dr. Mohamed N. El-Awady
Professor of Agricultural Engineering,
Faculty of Agriculture,
Ain Shams University.**

Signature

M. N. El-Awady

**Prof. Dr. Ahmed El-Raie E. Suliman
Professor of Agricultural Engineering,
Faculty of Agriculture, Giza,
Cairo University.**

A. El-Raie

**Prof. Dr. Mohamed H. A. El-Shakweer
Professor of Soil and Water Sciences,
Faculty of Agriculture,
Cairo University, El-Fayoum Branch.**

El-Shakweer

**Prof. Dr. Samir M. Younis
Professor of Agricultural Engineering,
Faculty of Agriculture, Al-Shatby,
Alexandria University.**

Samir Younis

ACKNOWLEDGMENT

I wish to express my gratitude to all those who have assisted me throughout the duration of this study.

Particular thanks are due to: Professor Dr. Mohamed Hammad Atia El-Shakweer, Professor of soil science, Department of Soils and Water Sciences, Faculty of Agriculture at Fayoum, Cairo University, who proposed the research problem, his useful advice, instructive guidance and encouragement through supervision.

Thanks to Professor Dr. Samir Mohamed Younis, Professor of Agricultural Engineering, Department of Agricultural Engineering, Faculty of Agriculture, Al-Shatby, Alexandria University, for his encouragement, generous assistance, useful advice, and instructive guidance through supervision.

Thanks and gratitudes are also due to Dr. Mossad Mohamed Mansour, Dr. Adel Abdel-Aziz Gharieb and all colleagues staff members and assistants in the Department of soils and water sciences, Faculty of Agriculture at Fayoum, Cairo University, for their help and providing facilities throughout the duration of preparation and conducting this work.
