ACKNOWLEDGEMENT

*"First and Foremost, Thanks Are Due To God,
The most beneficent and Merciful Of All"*

My cordial thanks are due to Prof. Dr. Abdalla M. Ibrahim, Professor of Invertebrates and head of Zoology Department, Faculty of Science, Ain Shams University, for his very effective supervision, continuous encouragement and reading the final version of the manuscript.

I wish to express my profound gratitude and sincere appreciation to Prof. Dr. Hussein M. El-Nahal, Professor of Parasitology and head of Parasitology Department, Theodor Bilharz Research Institute, for his instructive guidance, invaluable assistance and meticulous revision of all details of this thesis. I am deeply indebted to him for providing the necessary facilities required for achieving this work.

I feel deeply thankful to Prof. Dr. Reda M. Ramzy, Professor of Immunology and Head of Immunology Department, Nutrition Institute, for his supervision, generous help and cooperation during this study.

I am really grateful to Prof. Dr. Moustafa A. Kaddah, Associate Professor of Immunology, Immunology Department, Theodor Bilharz Research Institute. His brilliant scientific ideas, tremendous concern and unfailing support helped to bring this work to light.

I wish to express my sincere appreciation and profound gratitude to Prof. Dr. Afkar Abdel Gany, Professor of Pathology, Pathology Department, Theodor Bilharz Research Institute and Prof. Dr. Soad I. Hassan, Associate Professor of Parasitology, Parasitology Department, Theodor Bilharz Research Institute, for their continuous supervision and unlimited help in performing the histopathological and parasitological parts of this study.

No words would be sufficient to express my deepest, heartfelt thanks towards my colleagues in Parasitology Department and to all the people in Schistosome Biology Supply Program, who provided all the animals and cercariae used in this study. Their care and encouragement gave me the power to complete this work.
