"ظَهَرَ الْفَسَادُ فِي الْبَرِّ وَالْبَحْرِ بِمَا كَسَبَتْ أَيْدِي النَّاسِ
لِيُذِيقَهُمْ بَعْضَ الَّذِي عَمِلُوا لَعَلَّهُمْ يَرْجِعُونَ" (الروم - ٤١)

صَدَقَ اللَّهُ الْعَظِيمُ

Approval Sheet

Thesis Title: RESPONSE OF FISH TO METAL POLLUTION ALONG
THE EGYPTIAN COAST

Submitted by: Khalid Mohamed Ibrahim El-Moselhy

This thesis has been approved by the supervisors:

**Prof. Dr. Mohamed Ibrahim
El Samra**

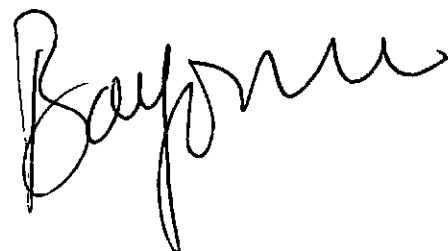

*Prof of Marine Pollution and
Director of the National Institute
of Oceanography and Fisheries,
NIOF, Suez and Aqaba Gulfs
Branch, Suez.*

**Prof. Dr. Merveet Anour Ahmed
Mansour**

*Prof. of Physiology, Zoology
Department, Faculty of Science,
Tanta University.*

**Prof. Dr. Mahmoud Ahmed
Abdelmoneim**

*Prof. of Marine Pollution, National
Institute of Oceanography and
Fisheries, NIOF, Alexandria.*

Student Curriculum Vitae

Name: Khalid Mohamed Ibrahim El-Moselhy

Date of birth: 28 / 1 / 1967

Place of birth: El-Mehala El-Koubra, Gharbia, Egypt

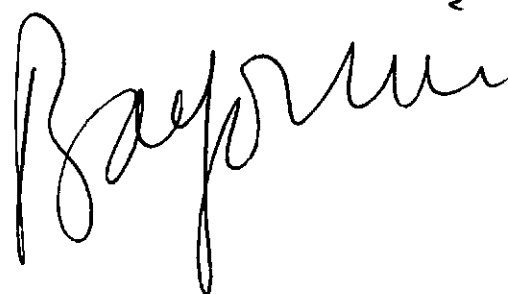

Nationality: Egyptian

Social Status: Married

Qualification: B. Sc. Degree in zoology, with grade "very good with honor", in Department of Zoology, Faculty of Science, El-Mansoura University, El-Mansoura, 1988.

M. Sc. degree in zoology, Department of Zoology, Faculty of Science, El-Mansoura University, 1993.

Position: Assistant Lecturer of Marine pollution in the National Institute of Oceanography and Fisheries, NIOF Suez and Aqaba Gulfs branch, Suez, Since 1993 till now.

Acknowledgements

*Praise be to **ALLAH**, the Lord of the world, by whose grace this work has been completed.*

*I would like to express my cordial thanks and gratitude to my supervisor **Prof. Dr. M. I. El Samra**, professor of Chemical Oceanography and Director of the National institute of Oceanography and Fisheries, NIOF, Suez and Aqaba Gulfs branch, Suez, for suggesting the problem, his guidance and continuous help throughout the present work and critical reading of the manuscript .*

*I am very grateful to **Prof. Dr. M. A. Mansour**, professor of Physiology, Department of Zoology, Faculty of Science, Tanta University, Tanta, for her excellent supervision during the progress of this work and efforts in revising the manuscript.*

*I am greatly indebted to **Prof. Dr. M. A. Abdelmoneim**, professor of Marine Pollution, NIOF, Alexandria, for supervising this thesis, as well as the valuable guidance and constant encouragement during all stages of this work.*

Finally, sincere appreciation is attributed to all my colleagues in the NIOF at Suez who were never reluctant to offer their valuable support at any time.

To

My parents

My wife

my daughter

my son

	Page
<u>Chapter I: Introduction</u>	1
<u>Chapter II: Literature cited</u>	7
I- Metal levels in fish	8
II- Toxicity of metals	18
III- Accumulation and depuration of metals	21
Aim of the work	27
<u>Chapter III: Material and Methods</u>	28
I- Level of metals in fish	28
II- Toxicity tests (Cadmium and Copper)	33
III- Accumulation and depuration of Cd and Cu	35
<u>Chapter IV: Results and Discussion</u>	
I- Field Research	39
1- Level of metals in fish organs	39
Muscle	40
Liver	45
Gills	49
2- Response of fish to metals in different areas	56
<u>Part I:</u> The availability of metals to fish in the	
different sites	58
<u>Part II:</u> Feeding and habitat mechanisms	60
<u>Part III:</u> The lipid contents in the tissues of different	
fish species	65

	Page
<u>Part IV: Uptake and retention mechanisms for the</u>	
metal at different sites (<i>A case study</i>) -----	68
1- Metal - length relationships -----	68
2- Copper - length relationships -----	79
3- Metals interrelationships -----	83
4- Level of metals in <i>Saurida sp.</i> and its concentration factors -----	95
5- One Way Anova analysis -----	99
3- Sea food safety in Egypt -----	103
II- Bioassay -----	109
1- Toxicity tests of metals (cadmium and copper) -----	109
2- Accumulation and depuration of metals -----	114
A- Cadmium -----	115
B- Copper -----	128
<u>Chapter V: Summary</u> -----	142
<u>Chapter VI: References</u> -----	150
Arabic Summary	

List of Tables

	Page
<u>Table 1:</u> Number of specimens, and range of total length and total weight of the different fish species from different sites along the Egyptian coast -----	29
<u>Table 2:</u> Wave length, cathode lamp current and slit width for determination of heavy metals -----	33
<u>Table 3:</u> Replicate measurements for cadmium and copper in fish muscle -----	40
<u>Table 4:</u> Mean and standard deviation of metals level in the muscle of the fish collected from different sites along the Egyptian coast ----	41
<u>Table 5:</u> Mean and standard deviation of metals level in the liver of the fish collected from different sites along the Egyptian coast ----	45
<u>Table 6:</u> Mean and standard deviation of metals level in the gills of the fish collected from different sites along the Egyptian coast ----	50
<u>Table 7:</u> Range, and mean of length and weight and their correlation coefficient (r) of <i>Saurida sp.</i> collected from different sites ----	69
<u>Table 8:</u> Correlation matrix: total length vs. metal; metal vs. metal in the muscle of <i>Saurida sp.</i> collected from Alexandria -----	84
<u>Table 9:</u> Correlation matrix: total length vs. metal; metal vs. metal in the muscle of <i>Saurida sp.</i> collected from Port Said -----	85
<u>Table 10:</u> Correlation matrix: total length vs. metal; metal vs. metal in the muscle of <i>Saurida sp.</i> collected from the Gulf of Suez --	86
<u>Table 11:</u> Range, mean and standard error (S.E.) of metals level (ppm) in muscle of <i>Saurida sp.</i> collected from different sites (Egypt) ---	96
