# **RENAL INVOLVEMENT IN SYSTEMIC VASCULITIS**

*Essay*

**Submitted for Partial Fulfillment of  
the Master Degree in (Nephrology)**

*By*

***Sherif Ali Reda Mohamed***

M.B.BCh., M.Sc. (Internal Medicine)

*Supervisors*

***Prof. Dr. Badawi Labib Mahmmoud***

Professor of Internal Medicine & Nephrology and  
Head of Nephrology Department  
Faculty of Medicine, Ain-Shams University

***Prof. Dr. Khaled Hussein Abu-Seif***

Professor of Internal Medicine & Nephrology  
Faculty of Medicine, Ain-Shams University

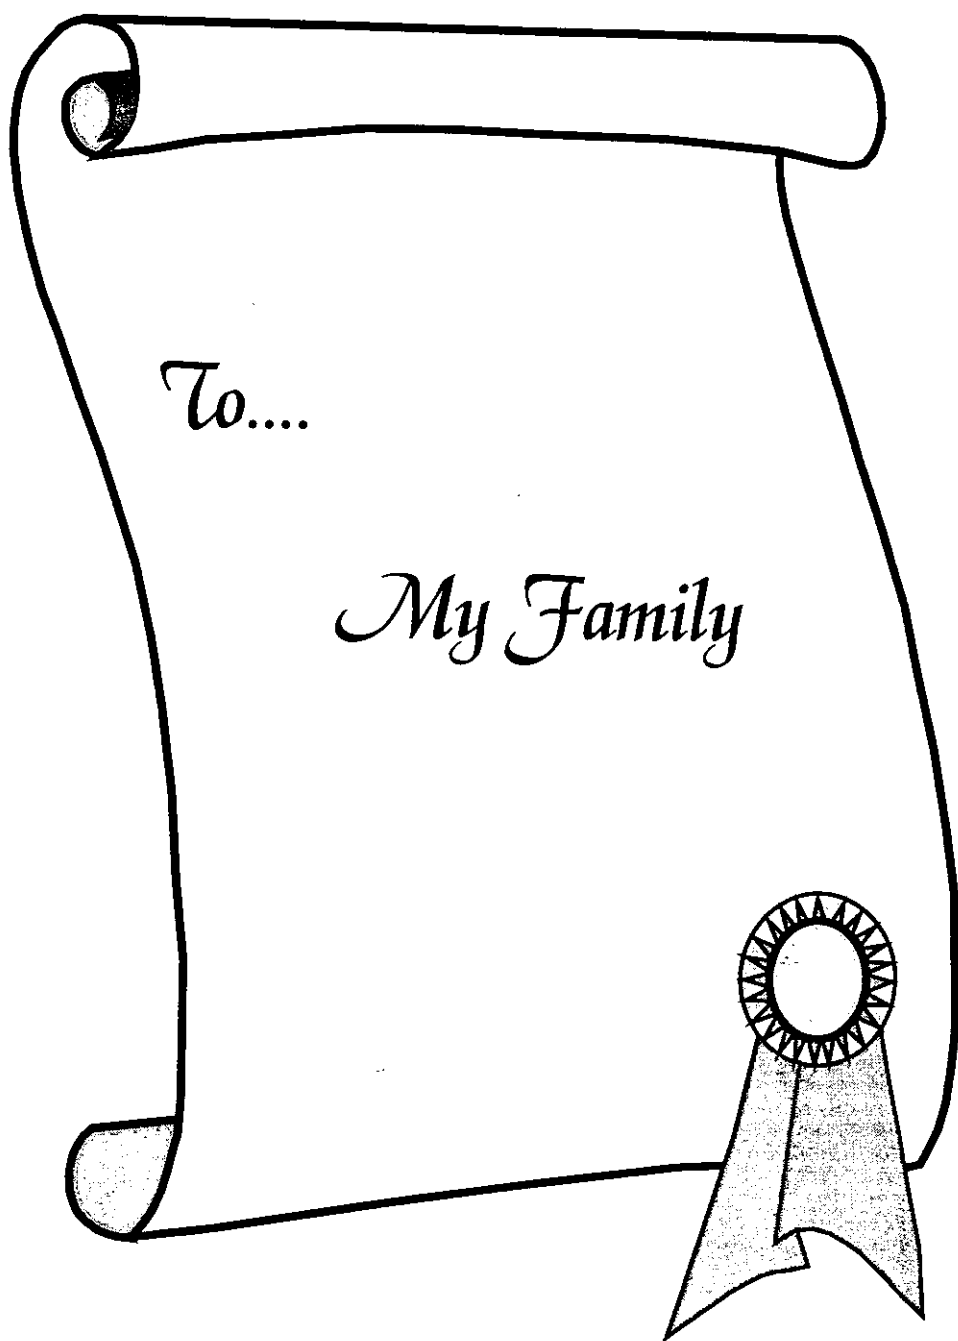

***Prof. Dr. Mohamed Mahmmoud Abdul Ghani***

Professor of Internal Medicine & Nephrology  
Faculty of Medicine, Ain-Shams University

Faculty of Medicine  
Ain-Shams University  
2002

BN 552

## *Acknowledgement*

*First and foremost, I feel always indebted to GOD, the most kind and the most merciful.*

*I wish to express my deep gratitude to Prof. Dr. Badawi Labib Mahmmoud, Professor of Internal Medicine & Nephrology and Head of Nephrology Department, Faculty of Medicine, Ain Shams University, for his valuable help and sincere guidance.*

*I am also extremely indebted to Prof. Dr. Khaled Hussein Abu-Seif, Professor of Internal Medicine & Nephrology, Faculty of Medicine, Ain Shams University, for his cooperation and great help.*

*I am particularly indebted to Prof. Dr. Mohamed Mahmmoud Abdul Ghani, Professor of Internal Medicine & Nephrology, Faculty of Medicine, Ain Shams University, for his guidance, help and encouragement.*

# CONTENTS

| Subjects                                                                       | Page |
|--------------------------------------------------------------------------------|------|
| * Introduction .....                                                           | 1    |
| * Review of Literature .....                                                   | 2    |
| <i>Chapter 1: Classifications</i> .....                                        | 2    |
| 1. History and progression of various classification .                         | 2    |
| 2. Most recent classification of vasculitis .....                              | 8    |
| 3. 1990 ACR criteria for classification of vasculitis .                        | 13   |
| <i>Chapter 2: Pathogenesis and Immunological Features of Vasculitis</i> .....  | 30   |
| Pathogenesis of human disease .....                                            | 33   |
| <i>Chapter 3: Immunological aspects related to vasculitis</i> .....            | 41   |
| <i>Chapter 4: Renal Involvement in Systemic Lupus Erythematosis</i> .....      | 50   |
| <i>Chapter 5: Renal Involvement in Large Vessels Vasculitides</i> .....        | 94   |
| 1. Takayasu's arteritis .....                                                  | 94   |
| 2. Giant cell arteritis .....                                                  | 102  |
| <i>Chapter 6: Renal Involvement in Medium Sized Vessels Vasculitides</i> ..... | 108  |
| 1. Polyarteritis nodosa .....                                                  | 108  |
| 2. Kawasaki's disease (MCL syndrome) .....                                     | 118  |
| <i>Chapter 7: Renal Involvement in Small Vessel Vasculitides</i> .....         | 121  |
| 1. Churg-straucss syndrome .....                                               | 121  |
| 2. Wegener's granulomatosis .....                                              | 126  |
| 3. Schonlein-henoch purpura .....                                              | 134  |
| 4. Mixed cryoglobulinemia .....                                                | 141  |
| * References .....                                                             | 145  |
| * Arabic Summary.                                                              |      |

# LIST OF TABLES

| Table No. | Title                                                                                                                  | Page |
|-----------|------------------------------------------------------------------------------------------------------------------------|------|
| 1-1       | Classification of vasculitis and its modification.....                                                                 | 6    |
| 1-2       | Pseudo-vasculitis syndrome .....                                                                                       | 7    |
| 1-3       | Most recent classification of vasculitis .....                                                                         | 8    |
| 1-4       | ACR criteria for the classification of hypersensitivity vasculitis .....                                               | 13   |
| 1-5       | Differentiation between chronic urticaria and urticarial vasculitis .....                                              | 14   |
| 1-6       | The ACR criteria for classification of HSP ....                                                                        | 15   |
| 1-7       | The ACR criteria for classification of PAN ....                                                                        | 16   |
| 1-8       | The ACK criteria for classification of chung-strauss syndrome .....                                                    | 17   |
| 1-9       | The ACR criteria for classification of wegeners granulomatosis .....                                                   | 18   |
| 1-10      | The ACR criteria for classification of giant cell arteritis .....                                                      | 21   |
| 1-11      | The ACR criteria for the classification of Takayasu arteritis .....                                                    | 22   |
| 1-12      | Epidemiology of the major vasculitides .....                                                                           | 25   |
| 1-13      | Pathologic parameters of the major vasculitides .....                                                                  | 26   |
| 4-1       | The american rheumatism association 1982 revised criteria for the classification of systemic lupus erythematosus ..... | 53   |

## **LIST OF TABLES (Cont.)**

| <b>Table No.</b> | <b>Title</b>                                                                   | <b>Page</b> |
|------------------|--------------------------------------------------------------------------------|-------------|
| 4-2              | Modified WHO classification of lupus nephritis .....                           | 59          |
| 4-3              | Typical clinicopathological features and correlations in lupus nephritis ..... | 61          |
| 4-4              | Activity index (sensitivity index) .....                                       | 68          |
| 4-5              | Summary of clinical and lab findings in different classes of SLE .....         | 71          |
