Recent Advances In the Role of Chemotherapy in High Grade Astrocytoma

Thesis

Submitted for Partial Fulfillment Of The M.D Degree
In Radiation Oncology And Nuclear Medicine

Submitted By

Hesham Ahmed El Ghazaly
M.B., B.Ch., Msc.

Supervised By

Prof. Dr. Laila Faris Matta

Professor Of Radiation Oncology And Nuclear Medicine
Faculty Of Medicine, Ain Shams University

Prof. Dr. Mamdouh Mohamed Salama

Professor Of Neurosurgery
Faculty Of Medicine, Ain Shams University

Prof. Dr. Adel Hussein El Hakim

Professor Of Neurosurgery
Faculty Of Medicine, Ain Shams University

Prof. Dr. Soheir Sayed Ismael

Professor Of Radiation Oncology And Nuclear Medicine
Faculty Of Medicine, Ain Shams University

B 04-7

قال رب اشرح لي صدري ويسر لي أمري
واحلل عقدة من لساني يفقهوا قولي

صدق الله العظيم
سورة طه

آية ٢٥-٢٨

Acknowledgment

First and foremost, thanks to Allah to whom I relate any success in achieving any work in my life.

I am greatly honored to express my sincere gratitude to Prof. Dr. Laila Faris, Professor of Radiation Oncology and Nuclear Medicine Department, Ain Shams University, for giving me the chance to work under her supervision and for her kind guidance, generous help and valuable directions that made this work possible. Words of thanks are little to express my gratefulness for her.

I am deeply grateful to Prof. Dr. Mamdouh Salama, Professor of Neurosurgery, Ain Shams University, for his sincere help, continuous support and his kind guidance during this work.

I would like to thank Prof. Dr. Adel Elhakeem, Professor of Neurosurgery, Ain Shams University, for his continuous help and grateful advise.

Also, I wish to express my deep gratitude to Prof. Dr. Sohair Ismael, Professor of Radiation Oncology and Nuclear Medicine, Ain Shams University, for her generous help, valuable advise and continuous supervision.

Lastly, I would like to thank all senior staff and my colleagues of Radiation Oncology and Nuclear Medicine Department, Ain Shams University for their sincere help and cooperation during the accomplishment of this work.

Hesham Elghazaly

List of Tables

	Page
• Table (1): Classification of primary intracranial tumors by cell of origin.	37
• Table (2): Frequency of primary intracranial tumors.	39
• Table (3) Frequency of intracranial tumors by the function of age range.	40
• Table (4) Kernohan's grading system.	47
• Table (5):The Ringetz classification.	48
• Table (6):Temporal lobe tentorial herniation.	73
• Table (7):Cerebellar foramen magnum herniation	74
• Table (8): CT scan versus MRI.	81
• Table (9): comparison between thallium and sestamibi.	87
• Table (10): Principle physical properties of isotopes used in brachytherapy	117
• Table (11): Prognostic factors in patients with gliomas.	165
• Table (12): Karnofsky performance status scale.	169
• Table (13): Grades of myelosupression	176
• Table (14): Grades of nausea.	176
• Table (15): Grades of vomiting	177
• Table (16): Grades of alopecia	177
• Table (17): Grades of radiation dermatitis.	178
• Table (18): Age distribution among both groups	189
• Table (19): sex distribution among both groups	190
• Table (20):Distribution of performance status among both groups	190
• Table (21): Clinical picture in both groups.	192
• Table (22): Duration of symptoms among both groups	193
• Table (23): Base line radiological study in both groups.	194
• Table (24): Histopathological subtypes in both groups.	195
• Table (25):Involved sites in both groups.	196
• Table (26): Extent of surgery in both groups.	197
• Table (27): Extent of surgery among the 70 patients.	198
• Table (28): Response rate to treatment.	199
• Table (29): duration of response.	200
• Table (30): Subjective response in both groups.	201
• Table (31): Median survival in both groups.	202
• Table (32): Overall survival at 1 year in both groups.	203
• Table (33):Skin & hair toxicity in both groups.	204
• Table (34)a,b: Haematological toxicity in both groups.	205.206
• Table (35): Non haematological toxicity in both groups.
