#### **ACKNOWLEDGMENT**

All greatest gratefulness and deepest appreciation to **ALLAH** for all the gifts given to me.

I would like to express my deep thanks and gratitude to Dr. Farag Mohamed Moftah, assistant professor of community medicine, Faculty of medicine, Assiut university, for suggesting the protocol of this work and his supervision and valuable advice throughout the period of the study.

am greatly honored to express my deep gratitude and extreme thanks to *Dr.Sarhan Abd El-Ghany Abd El-Aziz*, assistant professor of chest diseases Faculty of medicine, South valley university, who initiated and assigned the subject of this thesis, his planning, constant guidance, meticulous help in each step of revising the text and encouragement together with his valuable guidance made the accomplishment of this work possible.

I am profoundly thankful to *Dr. Soumaya El-Sayed Hadhood*, assistant professor of pediatrics, Faculty of medicine, South Valley university, for her enthusiastic guidance and honest help.

Finally, I wish to express my thanks to the staff members and all workers in chest disease department, Sohag university hospital, who have participated actively in this work.
