EFFECT OF AN EDUCATIONAL PROGRAM ON THE PERFORMANCE OF NURSES WORKING WITH CARDIAC PATIENTS

610,73591

Thesis

**Submitted for partial fulfillment of the requirements
of the Doctorate Degree in Nursing Science
(in Fundamental of Nursing)**

By

Hala Abd El-Salam Mohammed Kamel Sheta

Assistant Lecturer

Fundamental of Nursing Department

Faculty of Nursing – Benha University

Under supervision

Prof . Dr . Abd El-Shafy Tabl

Prof . of Internal Medicine ,
Faculty of Medicine ,
Benha University

Prof . Dr . Abd El-Rahim Saad Shoulah

prof . of Community , Environmental
& Occupational Medicine , Faculty of
Medicine , And Dean of the Faculty of
Nursing , Benha University

Prof . Dr . Ahmed Abd El-Moncim

Prof . of Cardiology ,
Faculty of Medicine ,
Benha University

Prof . Dr . Magda Abd El-Aziz Mohammed

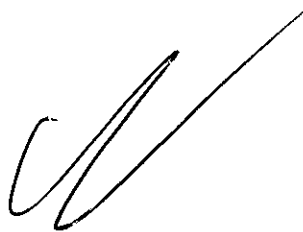

Professor and Chairman of Medical-Surgical
Nursing Department
Faculty of Nursing-Ain Shams University

Faculty of Nursing

Benha University

"آية ٣١ سورة البقرة"

Acknowledgement

First and foremost , I would like to kneel thanking Allah , and I feel always indebted to God , the most kind and the most merciful .

I am deeply grateful to prof. Dr. Abd El- shafy Tabl , prof. Of Internal Medicine , Faculty of Medicine , Benha University , for his generous advise , constant encouragement and unlimited help .

I am deeply grateful to prof. Dr. Abd El- Rahim Saad Shoulah , prof. of Community , Environmental & occupational Medicine , Faculty of Medicine , Benha University and Dean of the Faculty of Nursing , Benha University , for his endless support , close supervision, encouragement , constructive criticism , expertise , and giving me the privilege to work under his supervision . I would like to thank him for the bright illuminating remarks that guided me to complete this work in this specific form . Really any attempt to define my deepest gratitude to him would be incomplete. .

I would like to express my deep appreciation and profound respect to prof. Dr. Ahamed Abd El-Moneim , prof. of Cardiology , Faculty of Medicine , Benha University , for meticulous supervision , continous help and fruitful guidance throughout this work . I am really unlimited indebted to him .

With grateful and cordial gratitude , I wish to express my appreciation for the expert assistance of prof. Dr. Magda Abd El-Aziz Mohammed , prof. and chairman of Medical – Surgical Nursing Department , Faculty of Nursing , Ain Shams University , for her valuable advice and sincere help throughout this work . I wish to express to her my unlimited greatfulness .

My deep heartfelt thanks to my great family , for their love , understanding , caring , and encouragement to complete this work . Last but not least , I am grateful for the tremendous encouragement and support from all those who helped me and provided so many helpful suggestions to the fulfillment of this work . I am so thankful for them .

Contents

Subjects	Page
- Introduction	1
- Aim of the study	3
- Review of literature	
• Anatomy and physiology of the heart	4
• Coronary artery disease	9
• Myocardial infarction	23
• Angina pectoris	34
• Atherosclerosis	40
• Cardiomyopathy	43
• Congestive heart failure	50
• Arrhythmia	55
• Valve disease	62
• Stroke	74
• Nursing care for cardiac patients	81
• Cardiac rehabilitatuion	91
- Subjects and methods	94
- Results	103
- Discussion	141
- Conclusion	153
- Recommendations	154
- Summary	156
- References	160
- Appendices	186
- Arabic summary	

List of Tables

Results :

Table No.	Title	page
1	Number and percentage distribution of the studied nurses according to their characteristics.....	104
2	Mean score of the nurse's knowledge about nursing care for CAD patients pre/post program implementation.....	108
3	Mean score of the nurse's knowledge about care of patients on ventilator pre / post program implementation.....	109
4	Mean score of the nurse's knowledge related to care of patients with central venous pressure pre / post program implementation	110
5	Mean score of the studied nurse's knowledge related to care of patients with pacemaker pre/ post program implementation.....	111
6	Mean score of the nurse's knowledge about nursing care during cardio – pulmonary resuscitation pre / post program implementation	112
7	Mean score of the nurse's knowledge related to care of patients undergoing cardiac catheterization pre / post program implementation	113
8	Mean score of the nurse's knowledge related to care of patients with oxygen therapy pre / post program implementation	114
9	Number and percentage distribution of the nurses with satisfactory knowledge regarding pre and post program implementation	115
10	Common nurses unsatisfactory knowledge pre / post program implementation.....	116

List of Table (cont.)

Table No.	Title	page
11	Mean score of the nurse's level of knowledge regarding pre / post program implementation	117
12	Mean score of the studied nurse's attitude toward the patients pre / post program implementation in medical cardiac units	118
13	Mean score of the studied nurses actual practice pre / post program implementation	120
14	Number and percentage distribution of the studied nurse's practice in relation to care of patient under going cardiac catheterization pre / post program implementation	121
15	Number and percentage distribution of the studied nurse's practice in relation to care of patient on ventilator pre / post program implementation	124
16	Common nurses neglected practice pre / post program implementation.....	128
17	Mean score of nurse's knowledge , attitude and practice in relation to their ages pre / post program implementation	129
18	Mean score of the nurse's knowledge , attitude and practice in relation to their level of education pre / post program implementation	131
19	Mean score of the nurse's knowledge , attitude and practice in relation to their years of experience pre / post program implementation!	133
20	Mean score of the nurse's knowledge , attitude and practice in relation to attending previous training program pre / post program implementation	135

List of Table (cont.)

Table No.	Title	page
21	Correlation between knowledge scores , attitude scores and practice scores of nurses and their ages pre / post program implementation	137
22	Correlation between knowledge scores , attitude scores and practice scores of nurses and their level of education pre / post program implementation	138
23	Correlation between knowledge scores , attitude scores and practice scores of nurses and their years of experience pre / post program implementation	139
24	Correlation between knowledge scores , attitude scores and practice scores of nurses and attending previous training program pre / post program implementation	140

List of Figures

Results :

Figure No.	Title	Page
1	The percentage distribution of the studied nurses according to their ages.....	105
2	The percentage distribution of the studied nurses according to their level of education.....	105
3	The percentage distribution of the studied nurses according to their Marital status.....	106
4	The percentage distribution of the studied nurses according to their years of experience.....	106
5	The percentage distribution of the studied nurses according to their attending to previous training program.....	107
6	The relation between the studied nurses knowledge , attitude and practice in relation to their ages pre / post program implementation.....	130
7	The relation between the studied nurses knowledge , attitude and practice in relation to their level of education pre / post program implementation.....	132
8	The relation between the studied nurses knowledge , attitude and practice in relation to their years of experience pre / post program implementation.....	134
9	The relation between the studied nurses knowledge , attitude and practice in relation to their attending previous training program pre / post program implementation.....	136

List of Abbreviations

ACE	Angiotensin Converting Enzyme
AMI	Acute Myocardial Infarction
AV block	Atrio – Ventricular block
AVM	Arterio Venous Malformation
AV node	Atrio Ventricular Node
BMI	Body Mass Index
BP	Blood Pressure
CAD	Coronary Artery Disease
CCU	Coronary Care Unit
CHD	Coronary Heart Disease
CHF	Congestive Heart Failure
CK or CK-MB test	Creatine Kinase Myoglobin blood test
CPR	Cardio-Pulmonary Resuscitation
CRP	C- Reactive Protein
CT scan	Computed Tomography Scan
CVCU	Cardio Vascular Care Unit
CVP	Central Venous Pressure
DCM	Dilated Cardio Myopathy
ECG or EKG	Electro Cardio Gram
EEG	Electro Encephalo Gram
EPS	Electro Physiology Study
ESR	Erythrocyte Sedimentation Rate
HCM	Hypertrophic Cardio Myopathy
HDL	High Density Lipoprotein
HR	Heart Rate
IABP	Intra – Aortic Balloon Pump
ICH	Intra Cerebral Hemorrhage
ICM	Idiopathic Cardio Myopathy
IV	Intra Venous
LAD	Left Anterior Descending Coronary Artery
LDL	Low Density Lipoprotein
MICU	Medical Intensive Care Unit
MRI	Magnetic Resonance Imaging
MVP	Mitral Valve Prolapse
O ₂	Oxygen Therapy
PAC	Premature Atrial Contractions

PAP	Pulmonary Artery Pressure
PAT	Paroxysmal Atrial Tachycardia
PCWP	Pulmonary Capillary Wedge Pressure
PT.	Patient
PVC	Premature Ventricular Complexes
RCA	Right Coronary Artery
SAH	Sub Arachnoid Hemorrhage
SA node	Sino Atrial node
SICU	Surgical Intensive Care Unit
SVR	Systemic Vascular Resistance
SVT	Supra Ventricular Tachycardia
TIA	Transient Ischemic Attack
TPA	Tissue Plasminogen Activat
US	Ultra – Sensitive
