Biochemical Studies on the Degradation of Aldonic Acids in Fungi

By

Osama Mohamed Abdel-Fatah

M.Sc. (Microbiology)

Qena-Assiut University

(1993)

A Thesis

Submitted to Department of Microbiology

Faculty of Science

Ain-Shams University

For the Degree of Doctor

of Philosophy

(Microbiology)

Under Supervision

of

Prof. Dr. Mohammed R. Abu-Shady

Prof. and Head of Microbiology

Department

Faculty of Science

Ain-Shams University

Prof. Dr. Ali Mohamed Elshafei

Prof. of Microbiology

Department of Microbial

Chemistry

National Research Centre

Faculty of Science

Ain-Shams University

1999

002

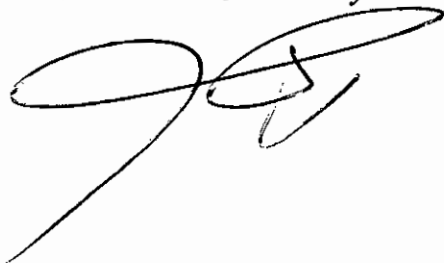

Ain-Shams University
Faculty of Science
Microbiology Department

Ph.D. Thesis

Name : Osama Mohamed Abdel-Fatah
Title : Biochemical Studies on the Degradation of Aldonic Acids in Fungi.
Degree : Ph.D. in Microbiology.

Thesis Supervisors:

Prof. Dr. Mohammed R. Abu-Shady
Prof. and Head of Microbiology
Department
Faculty of Science
Ain-Shams University

Prof. Dr. Ali Mohamed Elshafei
Prof. of Microbiology
Department of Microbial
Chemistry
National Research Centre

Acknowledgments

Acknowledgements

*The author would like to express his thanks and gratitude to **Dr. Mohammed R. Abu-Shady**, Professor and Head of Microbiology Department, Faculty of Science, Ain-Shams University for his kindly supervision and support.*

*The author sincerely presents his appreciation, gratefulness and deepest feeling to **Dr. Ali Mohamed Elshafei**, Professor of Microbiology, Department of Microbial Chemistry, National Research Centre, Cairo, Egypt for suggesting the point and for his instructive discussions, continuous guidance, supervision, sincere encouragement and valuable advice throughout this work.*

The Co-operation and help of my colleagues and all members of Microbial Chemistry Department are gratefully acknowledged.

The thanks are due to the National Research Centre for the facilities that enabled the author to accomplish this work.
