## **Acknowledgment**

My grateful thanks to Prof. Dr. Abdalla Ibrahim, Professor of Invertebrates faculty of science Ain Shams University who provided his guidance and assistance in all aspects of this research.

Sincere gratitude to Prof. Dr. Mohamed El-Khafif, Professor of biochemistry. Institute of the environmental research, Ain Shamas University for his loyal guidance and help in every aspect whether the analytical or histopathological and he also provided me with the most up to date papers in the field.

Great indebtedness and gratitude to Dr. Abd El Basit Halim, Assistant Professor of biochemistry. Faculty of Pharmacy. El-Azahr University and to his assistant. Who offered me a helping hand in finishing this work and provided me with the methods of analysis in his private lab.

High appreciation and sincere thanks are to Prof. Dr. Omar El Ahmady, Professor of Biochemistry faculty of pharmacy, Ain Shams University. Who explained to me the facilities available at his specialized center and helped me with everything in order to complete this work.

Great thanks to Prof. Dr. Talaat M. El Deib, Professor of histopathology faculty of medicine Ain Shams University who helped me in the Histopathology and provided me with his loyal guidance.

My thanks are extended to Prof. Dr. Amin Afify, Professor of Hematology. Medical Military Academy. Who assisted me

explaining and discussing the hematology part. Also my great thanks to Prof. Dr. Sohair A. Abdu El latife, Professor of clinical pathology in the NCI. Cairo University. Who helped me in describing the bone marrow results and to Dr. Magda Ibrahim, Assistant Professor of clinical pathology Girls Dept. faculty of Medicine. El Azhar University who assisted me in reading the differential slides.

Deep gratefuls are to Prof. Dr. Ali Khalifa, Professor of biochemistry faculty of medicine and to Prof. Dr. Sanaa Eissa, Professor of biochemistry faculty of medicine, Ain Shams University Who allowed me to perform analysis in their specialized center.

Deep appreciations are due to my colleagues in the center and supervisors who gave me a hand in the analysis of the research and all others who helped me.

# Contents

	Page
<b>Chapter (I ) Introduction</b> .....	i
Aim of the work .....	3
 <b>Chapter (II ) Review of literature</b> .....	4
Motor Fuel Production .....	4
The reforming process .....	7
<b>Benzene</b> .....	8
Exposure .....	9
Uses .....	11
Benzene Metabolism .....	11
Toxicity of benzene .....	23
Oxidation .....	25
<b>Vitamin C</b>	
Chemistry .....	27
Mechanism of action .....	28
Biochemical Role of vitamin C .....	29
Mixed function oxygenase system .....	33
<b>Vitamin E</b>	
Chemistry .....	34
Biological activity .....	34
Absorption, transport, storage and metabolism .....	46
<b>Selenium</b>	
Importance .....	42
Metabolism, absorption, transport and excretion .....	43
<b>Antioxidants and peroxidation stress</b> .....	48
<b>Peripheral and bone marrow cells</b> .....	55
<b>The process of leukemogenesis</b> .....	57
<b>The regulation of Hematopoiesis</b> .....	57
 The relation of leukemia, preleukemia and myelodysplastic syndromes .....	58

### **Chapter (III) Materials and Methods**

Design of experiment .....	64
Chemicals .....	65
Sample collection .....	67
Methods .....	68
Determination of AST .....	68
Determination of ALT .....	70
Determination urea .....	71
Determination of Malondialdehyde in plasma .....	72
Determination of Malondialdehyde in tissues .....	74
Blood analysis .....	75
Preparation and staining method for blood and bone marrow films .....	76
Material and methods for histopathological preparation .....	77
Statistical analysis .....	78

### **Chapter (IV ) Results**

Survival rate .....	79
Determination of ALT and AST in plasma .....	80
Determination of Urea .....	83
Determination of MDA in plasma .....	85
Determination of MDA in tissues .....	87
Blood indices :	
Complete blood picture and differential count .....	90
Bone marrow examination .....	102
Development of neck ulcer and swelling .....	118
Histological examination of liver tissues .....	122
<b>Chapter (V ) Discussion</b> .....	126
<b>Chapter (VI ) Summary and Recommendation</b> .....	135
<b>Chapter (VII ) References</b> .....	137
<b>Chapter (IIX ) Arabic Summary</b>
