

***Effect of Two Lining Procedures on the  
Marginal Integrity of Compound Posterior  
Direct Resin Composite Restoration***

***Thesis***

*Submitted to the Faculty of Oral and Dental Medicine,  
Cairo University for Partial fulfillment of the Requirements  
for the Master Degree in Operative Dentistry*

*By*

**Nehal Hamdi Mohammed Ali**

**B.D.S. (October 6<sup>th</sup> University)**

**2007**

Faculty of Oral and Dental Medicine

Cairo University

(2016)

## ***Supervisors***

### **Dr. Mohsen Hussein Abi-Elhassan**

Professor of Operative Dentistry

Faculty of Dentistry

Cairo University

### **Dr. Mohamed Fouad Haridy**

Assoc. Professor of Operative Dentistry

Faculty of Dentistry

Cairo University

**بسم الله الرحمن الرحيم**

**سورة طه الآية رقم (١١٤)**

**صدق الله العظيم**

*This research is dedicated to my great father for his advice and encouragement.*

*My mother, as always she has supported me throughout all that I have done. Thank you for your endless prayers and much needed love throughout my years.*

*My sisters, their love, and support have lightened up my spirit to finish this study.*

*My beautiful wonderful and helpful daughter Nancy for making me always happy.*

*Most of all thanks to Allah who continues to make the impossible possible. Thank Allah for making me who I am today and for giving me the abilities that I have.*

*I would like to express my deepest thanks and gratitude to **Prof. Dr. Mohsen Abi El-Hassan**, Professor of Operative Dentistry, Faculty of Dentistry, Cairo University, for his assistance, guidance, encouragement, kindness and supervision during all the steps of the present work.*

*I must thank **Dr. Mohamed Fouad Haridy**, Assoc. Prof. of Operative Dentistry, Faculty of Dentistry, Cairo University, for his great efforts and valuable advice to introduce this useful study.*

*Finally, I would like to thank everybody helped me by anyway and supported me during this study.*
