INDUCTION OF RESISTANCE TO POWDERY MILDEW DISEASE OF SQUASH PLANTS

By

Mohamed Hamed El-Habbak

BS Agricultural Sciences (Plant Pathology),
Fac. Agric. Moshtohor, Zagazig Univ., 1997

Thesis

Submitted in partial fulfillment of
the requirements for the degree of

MASTER OF SCIENCE

in

PLANT PATHOLOGY

Agricultural Botany Department,
Faculty of Agriculture at Moshtohor,
Zagazig University (Benha Branch)

2003

SUPERVISION COMMITTEE

Induction of Resistance to Powdery Mildew Disease of Squash Plants

By

Mohamed Hamed El-Habbak

BS Agricultural Sciences (Plant Pathology),
Fac. Agric. Moshtohor, Zagazig Univ., 1997

This thesis for MS. degree in Plant Pathology under the
supervision of:

1. Prof. Dr. Nawal Abdel-Moneim Eisa

Nawal A. Eisa

Professor of Plant Pathology
Fungus and Plant Pathology Branch
Agric. Botany Dept., Fac. Agric., Moshtohor
Zagazig Univ., Benha Branch

2. Prof. Dr. Abdel-Moneim Ibrahim Ismaeil El-Fiki

Professor of Plant Pathology
Fungus and Plant Pathology Branch
Agric. Botany Dept., Fac. Agric., Moshtohor
Zagazig Univ., Benha Branch

Elfiki A.A.

3. Dr. Fathy Gad Mohamed

Mohamed, F. G

Associate Professor of Plant Pathology
Fungus and Plant Pathology Branch
Agric. Botany Dept., Fac. Agric., Moshtohor
Zagazig Univ., Benha Branch

APPROVAL SHEET

Induction of Resistance to Powdery Mildew Disease of Squash Plants

By

Mohamed Hamed El-Habbak

B.Sc., Agric. Sci., (Plant Pathology), 1997
Fac. Agric., Moshtohor, Zagazig Univ., Benha Branch

**This thesis for M.Sc. degree in Plant Pathology has been
approved by:**

Prof. Dr. Saad M. El-Gantiry

S. El-Gantiry

Head of Legume and Forage Diseases Department, Plant Pathology
Institute, Agric. Research Center, Giza

Prof. Dr. Abdou M. M. Mahdy

A. M. M. Mahdy

Prof. of Plant Pathology, Fungus and Pant Pathology Branch, Agric.
Botany Dept., Fac. Agric., Moshtohor, Zagazig Univ., Benha
Branch

Prof. Dr. Nawal A. Eisa

Nawal A. Eisa

Prof. of Plant Pathology, Fungus and Pant Pathology Branch, Agric.
Botany Dept., Fac. Agric., Moshtohor, Zagazig Univ., Benha
Branch

Prof. Dr. Abdel-Moneim I. I. El-Fiki

A. I. I. El-Fiki

Prof. of Plant Pathology, Fungus and Pant Pathology Branch, Agric.
Botany Dept., Fac. Agric., Moshtohor, Zagazig Univ., Benha
Branch

Dr. Fathy G. Mohamed

Fathy Gad Mohamed

Assoc. Prof. of Plant Pathology, Fungus and Pant Pathology Branch,
Agric. Botany Dept., Fac. Agric., Moshtohor, Zagazig Univ.,
Benha Branch

Date: 23 / 10 / 2003

ACKNOWLEDGEMENTS

*I would like to express my gratitude towards **Prof. Dr. Nawal Abdel-Moneim Eisa**, professor of Plant Pathology, Faculty of Agriculture at Moshtohor, Benha Branch, Zagazig University. She offered me a lot of here experience in my work and life. Here expert advises, bounding patience and constant support with here lovely soul were the major factors behind my work and it was an honor for me to work under here supervision.*

*A word of gratitude is not enough towards the great effort and help that **Prof. Dr. Abdel-Moneim Ibrahim Ismeil El-Fiki**, professor of Plant Pathology, Faculty of Agriculture at Moshtohor, Benha Branch, Zagazig University, did in the whole work. He has been always patient, helpful and kind hearted. His advices are my guide in work and life. He gave me his time and effort to introduce this thesis in the best form and it was a pleasure to work under his supervision.*

*A word of love and gratitude to **Dr. Fathi Gad Mohamed**, associate professor of Plant Pathology, Faculty of Agriculture at Moshtohor, Benha Branch, Zagazig University, for suggesting the subject of this study and preparing the manuscript. He has been a great support by his clinical observations and effort which were very helpful throughout the work. He was kind enough to share me my problems during this work.*

*Many thanks are also offered to **Prof. Dr. Ali Abed**, professor of Agricultural Botany, Faculty of Agriculture at Fayoum, Cairo University, for his help and experience during the microscopic examination of the leaf sections in the part of the botanical studies in this work. Through his valuable instructions and great effort, this part could be completed.*

*At last but not least, I am indebted to all **staff members** and my colleagues at Fungus and Plant Pathology Branch, Department of Botany Faculty of Agriculture at Moshtohor, Benha Branch, Zagazig University, for their help and encouragement and to everyone helped this work to arise.*

TABLE OF CONTENTS

	Page
INTRODUCTION	1
REVIEW OF LITERATURE	4
MATERIALS AND METHODS	33
EXPERIMENTAL RESULTS	46
1. Effect of chemical resistance-inducers on the conidial germination of <i>Sphaerotheca fuliginea</i> <i>in vitro</i>	47
2. Effect of the chemical resistance-inducers on the disease development on the lower leaves	50
2.1. Number of the powdery mildew colonies	50
2.2. Powdery mildew disease severity	61
3. Effect of chemical resistance-inducers on the disease development on the upper leaves.....	64
3.1. Number of the powdery mildew colonies	64
3.1.1. On the 3 rd leaf	64
3.1.2. On the 4 th leaf	66
3.1.3. On the 5 th leaf	66
3.1.4. Average on the upper 3 leaves	69
3.2. Powdery mildew disease severity	72
4. Effect of chemical resistance-inducers on the disease development on the whole plant leaves	75
4.1. Average number of the powdery mildew colonies	75
4.2. Powdery mildew disease severity	78
5. Effect of chemical resistance-inducers on the area of the upper leaves.....	78
6. Effect of chemical resistance-inducers on the biochemical changes in leaves	88
6.1. The sugars content	88
6.2. The phenols content	95
