

**AIN SHAMS UNIVERSITY,
FACULTY OF ENGINEERING,
ARCHITECTURAL DEPARTEMENT.**

**Fundamentals of new Technologies and their
applications to buildings.
(Smart buildings' Technologies)
Study reference to Smart Hospitals.**

**By
Architect/Mariam Nazem Nagi El-Serafi**

A Thesis submitted to
the faculty of Engineering at AIN Shams university
In partial Fulfillment of
the Requirements for the Degree of
MASTER OF SCIENCE
In
ARCHITECTURE

٢٠٠٧

Under supervision of:

- **Prof. Dr./Sayed Madbouli.**
Professor of Architecture, AIN Shams
University.
- **Dr./Khaled Dewidar.**
Professor of Architecture, AIN Shams
University.

Dedication

- To my Mother who is the reason behind all my success
- To my sweetheart lavera.....

Acknowledgment:

All Tribute goes to Dr./ Sayed Madbouly for his great support , he spend a lot of his very precious and busy time and do a lot of effort to make this paper appear in itsfinal shape.

Thank you Dr./ Sayed Madbouly, I wouldn't done this work without you.

I also acknowledge Dr./ Khaled Dewidar for his continuous directions, so special thanks for him.

Researcher's background:

- Architect/ Mariam Nazem Nagi El-Serafi
- Born on ١٧-July –١٩٧٧
- Graduated form AIN Shams University, Faculty of Engineering, Architectural department, Design section, in May ٢٠٠٠.
- Overall Graduation Grade is good

General Introduction.....	1
1. Approach.....	1
2. Aim.....	2
3. THE HISTORICAL AND CULTURAL COORDINATES OF THE SMART HOSPITAL.	3
A. The "smart" Asclepieion: a total healing environment.....	3
B. The organization of a surgery room as it is depicted in the Hippocratic.....	4
C. Organization and administration of Byzantine hospitals.....	4
D. National Hospital of Constantinople.....	5
E. Modern Asclepieion: a perceptive example for chronic diseases.....	5
F. The therapy of hope. Healing architecture.....	6
G. Light and colour – hospital design tools...	6
H. Ascliepeia and the concept of the "smart hospital".....	6
4. THE SMART HOSPITAL AS A DESIGN ISSUE.....	7
A. Application of energy conscious design principles.....	7

B.	From a model maternity hospital of the 1900s to a pioneer health centre of the 21 st century.....	7
C.	An exercise in transformation – the case of the "Blue Cross" hospital.....	8
D.	Bioclimatic design of pediatric recovery units.....	8
E.	Healthcare planning and regional development challenges.....	8
F.	"Smart" buildings and design patterns.....	9
G.	After the "smart" hospital – what?.....	9
H.	The smart hospital is the non-hospital.....	9
I.	The criteria for an open design	10
o.	THE SMART HOSPITAL AS AN INTEGRATED CONCEPT.....	11
A.	The anti-functional over-functionalism and the morphologic "amorphousness" of hospital architecture.....	11
B.	The medical genesis of modern architecture.....	12
C.	Energy Conservation in Hospitals.....	12
D.	Cultural characteristics of hospital "smartness"	12
E.	Integrated care – the patient journey through the smart hospital.....	13
F.	Qualitative aspects of the hospital environment	13
1.	THE SMART HOSPITAL AS A PROVIDER OF MEDICAL AND NURSING SERVICES.....	14
A.	Flexibility, ergonomics and safety in the operation room	14

B. Prevention of nosocomial invasive aspergillosis during hospital construction....	14
V. The smart hospital as an organizational and administrative system.....	10
A. A hospital without X-ray films.....	10
B. A simulation model for accident and emergency centers.....	10
C. Emergency situation management and its relation with the administrative system and the infrastructure.....	16
Thesis structure. (Structured diagram).....	17
<u>1. SECTION 1: DISCRIPTION OF THE NEW TECHNOLOGIES</u>	
1- Chapter 1: Introductive Chapter (Research General approach)	17
1.1 Approach.....	17
1.2 research investigations.....	19
1.3 Problem Definition.....	20
1.4 The research objectives.....	21
1.5 The research hypothesis.....	23
1.6 The research methodology.....	24
1 The theoretical approach.....	24
2 Testing of Technologies, Materials, and Infrastructure.....	20
3 Testing with People.....	20
1,6.2 The comparative analysis study of theories and applications of the national and international experiences.....	26
1 The first level.....	26
2 The second level.....	26

۲ The third level.....	۲۶
۲- Chapter ۲: Specific approach to the smart Hospitals (Research Specific approach).....	۲۷
۲,۱ Approach.....	۲۷
۲,۲ Mission statement.....	۲۸
۲,۳ Smart hospital concept.....	۳۱
۲,۴ Procedures of implementation.....	۳۳
۲,۴,۱ Planning Stage.....	۳۴
۲,۴,۲ Project Start-up.....	۳۴
۲,۴,۳ Operational Project Management -- during construction.....	۳۵
۲,۵ Post Opening.....	۳۶
<u>SECTION ۲: NEW TECHNOLOGIES APPLIED TO SMART HOSPITALS</u>	
۳- Chapter ۳: Building a Smart Hospital using RFID technologies.....	۳۹
۳,۱ Introduction to chapter ۳.....	۳۹
۳,۱,۱ Terminology and Standards.....	۴۰
۳,۱,۲ Towards Smart Hospital.....	۴۲
۳,۲ Use Cases in a Smart Hospital.....	۴۴
۳,۲,۱ Patient Identification.....	۴۴
۳,۲,۲ Blood Tracking.....	۴۶
۳,۲,۳ Smart Operating Theatres.....	۴۸
۳,۲,۴ Anti-Counterfeiting.....	۴۹
۳,۲,۵ Tracking Equipment, Patients, Staff and Documents.....	۵۰
۳,۲,۶ Avoiding Theft of Medical Equipment.....	۵۲
