I would like to express my deepest gratitude and appreciation to **Dr. Mokhtar Nagy Ibraheim**, Professor of Operative Dentistry, Faculty of Dentistry, Ain Shams University, for his valuable help, insistence on reaching the most perfect form and continuous guidance through the whole course of this work.

I also sincerely thank **Dr. Fadel Sobhy Mahmoud**, Professor of Operative Dentistry, Head of Conservative Dentistry Department, Faculty of Dentistry, Ain Shams University, for his kind, valuable guidance and encouragement.

I could not forget to appreciate the efforts of my colleague **Dr. Fareid Sabry El-Askary**, Lecturer of Operative Dentistry, Faculty of Dentistry, Ain Shams University, for his valuable assistance in clinical part of this study.

I am also greatly appreciating the efforts of **Mr. Ahmed Abo El-Hares**, Microbiology and Clinical Pathology Technician, Blood Bank, New Kasr Al-Aini Specialized Hospital, Cairo University, for his great assistance in the bacterial study of this work.

Deep appreciation and gratitude are due to **the Staff Members of Conservative Dentistry department**, Faculty of Dentistry, Ain Shams University, for their great assistance, encouragement and continuous help.

I would like to dedicate this work to:

The soul of my father, ***Sheikh / Ali Al-Mortada Al-Wasifi***, I missed him so much.

Also, ***my mother, my wife and my young kids; Zeina and Mahmoud***. All of them provides me endless love and support and suffered too much during the course of this study.
