قالوا

سبحانك لا علم لنا
إلا ما علمتنا إنك أنت
العليم العظيم

صدق الله العظيم

سورة البقرة الآية: ٣٢

Acknowledgement

Firstly, thanks to **ALLAH**, who gave me the power to finish this work.

Words can never express my heartily thanks to **Prof. Dr. Nawal Mahmoud Soliman** Professor of Community Health Nursing, Faculty of Nursing, Ain Shams University, for her meticulous supervision, constructive criticism, and continuous encouragement through-out the conduction of this work.

ALSO I would like to express my appreciation to **Dr. Magda Abd El Sattar Ahmed** Assist. Prof. of Community Health Nursing Faculty of Nursing, Ain Shams University for her continuous support, valuable assistance, best supervision and co-operation in all stages of this study.

And I would like to express my sincere thanks and deepest appreciation and gratitude to **Dr .Hala Mohamed Mohamed** Lecturer of Community Health Nursing, Faculty of Nursing, Ain Shams University, for the great guidance to complete his work.

@ Elham Abed Elaziz

Dedication

*This work is dedicated to the most important
Persons in my life.....*

*To My Mother, My Sister, My Friends,
My Kids and All My Family Members for
Their:*

Effort,

Encouragement,

Cooperation

&

Support

List of Contents

Title	Page
Introduction and Aim of the Work	1
Review of Literature	
Part I: The Concept of Infectious Process and Infection Control Practice	7
Part II: MCH Services with in primary health care Approach	22
Part III: Universal Precautions and Compliance	29
Subjects and Methods	64
Results	72
Discussion	95
Conclusion and Recommendations	105
Summary	107

Arabic Summary	-----

List of Tables

Table No.	Title	Page No.
Table in Review		
1	Five ways microorganisms and virus	10-11
2	Standard precautions guideline	30-31
3	Types of hand decontamination	35
4	Commonly used disinfectants	44
5	Sterilization times by autoclave	49
6	Sterilization temperatures and time by hot air oven	50
Table in Results		
1	Distribution of nurse's according to their socio demographic data.	73
2	Distribution of nurse's according to their work characteristics	74
3	Distribution of nurse's according to their knowledge about infection control.	75
4	Described the total knowledge of nurses toward infection control	76
5	Distribution of nurse's according to their knowledge about universal precautions	77
6	Described the nurse's knowledge about universal precautions	78

Table No.	Title	Page No.
7	Distribution of nurse's according to their knowledge about cleaning, disinfection and sterilization.	79
8	Described the total knowledge of nurse's toward cleaning, disinfections and sterilization	80
9	Described the total knowledge for nurses toward universal precautions of infection control	80
10	Distribution of nurse's according to their compliance regarding hand washing technique	82
11	Distribution of nurse's according to their compliance regarding using personal protective equipment (gloves, mask, gown, and eye protection)	83
12	Distribution of nurse's according to their compliance regarding cleaning , sterilization , disinfections of blood /body fluid spills and used instruments	84
13	Distribution of nurse's according to their compliance regarding to universal precautions	85
14	Described the total compliance of nurses toward universal precautions of infection control	86
15	Distribution of the study setting according to construction achieving infection control	88

Table No.	Title	Page No.
16	Nurses opinion about the barriers to compliance of nurses toward infection control	90
17	Relation between socio demographic data of nurses and compliance to infection control	92
18	Relation between structure environment and nurses compliance to infection control measures	93
19	Relation between nurses knowledge about infection control and their compliance to infection control	94

List of Figures

Fig. No.	Title	Page No.
	Figures in Review	
1	Epidemiological triad	8
2	Chain of infection	13
3	Portal of exit	14
4	Direct contact	15
5	Indirect contact	15
6	Portal of entry	16
7	Ways of infections transmission in health care settings	18
8	Causes of sharps injuries in Egypt.	19
9	Hand washing steps	33
10	Alcohol based hand rub	34
11	Missed areas during hand washing	36
12	Examples of personal protective equipments.	38
13	Decontamination steps	40
14	Manual cleaning	42
15	Steam under pressure (Autoclave)	48
16	Dry heat (Hot air oven)	49
17	Steps of medical-waste management	57
18	Safety box	60
19	The safely recap needles use "the one-hand" scooping technique	61
	Figures in Result	
20	Distribution of nurse's according to their knowledge	81
21	Distribution of nurse's according to their Compliance	87
