ACKNOWLEDGMENT

الحمد لله و الشكر لله على فائض كرمه و زائد نعمه

The author wishes to place on record his sincere gratitude to Prof. Dr. Salah Hassan El Emam, for his great support and supervision of this thesis.

The author also expresses his sincere gratitude and indebtedness to Dr. Ahmed M. Hamed, for his guidance and continuous encouragement at every stage of this research work, which made the completion of this work possible.

The author would like to express his thanks to the staff of the Combustion Engineering Laboratory, Faculty of Engineering Mansoura University, for their help during the experimental work.

The author also, would like to express his thanks to the many people in El Delta Company for Fertilizers and Chemical Industries in Talkha, for their help during the design and built the experimental system.
