**BIOCHEMICAL STUDY ON THE DIFFERENT PORTAL
AND PERIPHERAL SERUM FRACTIONS AND THEIR
EFFECT ON THE CELL PROLIFERATION OF
S. MANSONI SCHISTOSOMULES**

THESIS

SUBMITTED BY

HOSSAM MOHAMED ALI DRAZ

(B.Sc. in Biochemistry - Chemistry, 1994)

**Assistant Researcher - Biochemistry Department
National Research Centre**

**In partial Fulfillment for the degree of
MASTER OF SCIENCE IN BIOCHEMISTRY**

SUPERVISED BY

Prof. Dr. Mohamed M. Abdel Fattah

**Professor of Biochemistry
Vice Dean for Higher Studies
Faculty of Science
Ain Shams University**

M. A. Fattah

Prof. Dr. Yehia M. Shaker

**Professor of Biochemistry
Head of Biochemistry Department
National Research Center**

Yehia Shaker

Dr. Hany M. Khattab

**Assistant Professor of Pathology
Faculty of Medicine
Cairo University**

H. B.

**AIN SHAMS UNIVERSITY
FACULTY OF SCIENCE
DEPT. OF BIOCHEMISTRY**

1999

B

94-1

Approval Sheet

Thesis entitled:

“Biochemical study on the different portal and peripheral serum fractions and their effect on the cell proliferation of *S. mansoni* schistosomules”

Thesis supervisors

1-Prof. Dr. Mohamed M. Abdel Fattah

Professor of Biochemistry

Vice Dean for Higher Studies

Faculty of Science

Ain Shams University

M. A. Fattah

2-Prof. Dr. Yehia M. Shaker

Professor of Biochemistry

Head of Biochemistry Department

National Research Center

Yehia Shaker

3- Dr. Hany M. Khattab

Assistant Professor of Pathology

Faculty of Medicine

Cairo University

Hany M. Khattab

Head of Biochemistry Department

Prof. Dr. Nadia Abdelah

AIN SHAMS UNIVERISTY

FACULTY OF SCIENCE

Student Name : Hossam Mohamed Ali Draz

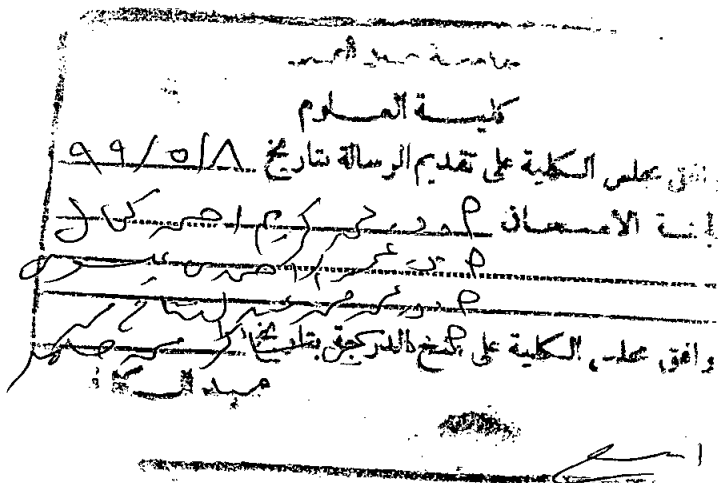

Degree : M. Sc. in biochemistry

Department : Biochemistry

Faculty : Faculty of science

University : Ain Shams Univeristy

Graduation Year : 1994

ACKNOWLEDGEMENT

I would like to express my deepest gratitude and indebtedness to those who generously devoted much effort and time in helping me to accomplish this work.

I would like to thank and to express my appreciation to **Prof. Dr. Mohamed M. Abdel Fattah**, professor of Biochemistry and Vice Dean for higher studies, Faculty of Science, Ain Shams University, for his valuable cooperation, great interest, encouragement in performing my work, fruitful discussion and profound reading of the manuscript.

I herein find no adequate words to express my cardinal considerations and my deep appreciation and to show my deepest obligation to my great teacher, **Prof.**

Dr. Yehia Shaker, Professor and Head of Biochemistry Department, National Research Centre, for his encouragement, unfailing help and unlimited support along the way, also for his constructive suggestions, comments, as well as his valuable discussions, I am very proud and fortunate to have been his student.

I would like to express my deepest gratitude and thanks to **Dr. Hany M. Khattab**, Assistant Professor of Pathology, Faculty of Medicine, Cairo university, for his help and great advice in the part of pathology

This work was supported by a grant from the schistosomiasis Reserach Project (SRP), agreement No. 06/03/57. I would like to express my deepest gratitude and thanks to our American collaborator **Prof. Dr. Geroge V. Wu** professor of gastroentrology, Department of Medicine, division of Gastroentrology-hepatology, University of Connecticut Health centre, Farmington , USA , for his constructive comments during the work.

I would like to thank **Prof. Dr. Refaat Kamel**, Professor of surgery, Department of surgery, Ain Shams University Hospital, for providing us with human portal and peripheral serum samples and for his fruitful discussion.

I would like to thank **Dr. Esmat Ashour**, Assistant Professor of Biochemistry, Department of Biochemistry, National Research Centre for her support and valuable assistance in the practical part of this work.

I would like to express my deepest gratitude and thanks to **Dr. Sam Lewis**, Researcher in Biochemistry Department, Naval American Medical Research Unit (NAMURU-3) for his help and great advice in the practical part of this work and for his fruitful discussion.
