**The Role of Deferoxamine in Prevention
of Aminoglycoside ototoxicity:
An EM (Electron Microscopic) Study
in Guinea Pigs.**

A Thesis submitted for the partial fulfillment of the
MD degree in OtoRhinoLaryngology

By

Mohamed Amir Hassan

M.B.B.Ch., M.S. (OtoLaryngology.)

Ain Shams University, Faculty of Medicine

Supervised by

Prof. Dr. Fouad Abbas Ismail

Professor of OtoLaryngology

Ain Shams University

Prof. Dr. Somia Tawfik Mohamed

Professor of Audiology

Ain Shams University

Prof. Dr. Badr Eldin Mostafa

Professor of OtoLaryngology

Ain Shams University

Dr. Nadia Galal El-Hefnawy

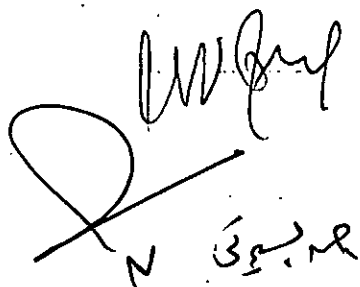

Assistant Professor of Pathology

Ain Shams University

Faculty of Medicine

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

"قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا إِنَّكَ

أَنْتَ الْعَلِيمُ الْعَظِيمُ"

صَدَقَ اللَّهُ الْعَظِيمُ

سورة البقرة - الآية ٣٢

ACKNOWLEDGEMENT

I would like to express my sincere gratitude and cordial thanks to Prof. Dr. Fouad Abbas, Professor of Otolaryngology, faculty of medicine, Ain Shams University for his great encouragement and valuable guidance since the beginning of setting the idea of this thesis and for his continuous enthusiasm and patience all through the work, to him I will be always grateful, without him this work could have never been fulfilled.

I would like to express my deep thanks and sincere appreciation to Prof. Dr. Somia Tawfik, Professor and head of the department of Audiology, faculty of medicine, Ain Shams University for her indispensable guidance, great help and kind support.

I am particularly indebted to Prof. Dr. Badr Eldin Mostafa, Professor of otolaryngology, faculty of medicine, Ain Shams University who gave me so much of his valuable time and immense knowledge to produce this work in its present form.

I am also very grateful to Dr. Nadia Galal, Assistant Professor of Pathology, Ain Shams University for her great help in the processing,

preparation and interpretation of the electron microscopy specimens.

I would like to thank Dr. Ali Hussein, ENT consultant Shebeen El-Kom Hospital for his help in conducting this experimental work.

Finally, I'm indebted to my family especially my wife, whose care, patience and sincere help have always been the pounce of light to guide me.

LIST OF CONTENTS

Page

• List of tables.....	i
• List of figures.....	ii
• List of abbreviations.....	v
• Introduction and Rationale.....	1
• Aim of the work.....	3
• Review of literature.....	4
- Functional anatomy of the cochlea	
- Anatomy of the ear in Guinea pigs	
- Aminoglycosides	
- Deferoxamine.	
- Evaluation of cochlear function in experimental animals	
• Methodology.....	50
• Audiological Results.....	60
• Histological. Results.....	82
• Discussion.....	120
• Conclusions.....	127
• Recommendation.....	128
• Summary.....	129
• References.....	132
• Arabic Summary.....	161

List of tables

Table 1	Comparing between DP amplitude pre and post-injection in control group.	61
Table 2	Comparing between S/N ratio pre and post-injection in control group.	63
Table 3	Comparing between DP amplitude pre and post-injection in gentamicin group.	66
Table 4	Comparing between S/N ratio pre and post-injection in gentamicin group.	68
Table 5	Comparing Control group with gentamicin group (Pre-injection).	70
Table 6	Comparing Control group with gentamicin group (Post-injection).	71
Table 7	Comparing between DP amplitude pre and post-injection in gentamicin and deferoxamine group.	74
Table 8	Comparing between S/N ratio pre and post-injection in gentamicin and deferoxamine group.	76
Table 9	Comparing Control group with deferoxamine + gentamicin group (Pre-injection).	78
Table 10	Comparing Control group with deferoxamine + gentamicin group (Post-injection).	79
Table 11	Comparing gentamicin group with deferoxamine + gentamicin group (Pre-injection).	80
Table 12	Comparing gentamicin group with deferoxamine + gentamicin group (Post-injection).	81
