PROGRESSIVE STUDIES ON STRIPE AND LEAF RUSTS OF WHEAT AND THEIR CONTROL

By

Abd El-Aziz Abd El-Naser Mohamed Aly

B.Sc. Agric. (Plant Pathology), El-Azhar Univ., 1994

M.Sc. Agric. (Plant Pathology), Zagazig Univ. (Benha Branch) 1999

Σ. VI UP

Thesis
Submitted in Partial Fulfillment of the
Requirements for the Degree of
DOCTOR OF PHILOSOPHY
In
PLANT PATHOLOGY

Agricultural Botany Department
Fungus and Plant Pathology Branch
Faculty of Agriculture, Moshtohor
Zagazig University
(Benha Branch)

2004

SUPERVISION COMMITTEE

Prof. Dr. Nawal Abd El-Moneim Eisa

Professor of Plant Pathology

Agric. Botany Dept., Fac. Agric., Moshtohor

Zagazig Univ. Benha Branch,

Prof. Dr. Salah El-Deen Abu El-Naga

Professor of Plant Pathology

Sakha Agric. Res. Station, Kafr El-Sheikh

Agric. Research Centre (ARC)

Dr. Gehad Mohamed Desouky El-Habbaa

Associated Professor of Plant Pathology

Agric. Botany Dept., Fac. Agric., Moshtohor

Zagazig Univ. Benha Branch,

APPROVAL SHEET

PROGRESSIVE STUDIES ON STRIPE AND LEAF RUSTS OF WHEAT AND THEIR CONTROL

By

Abd El-Aziz Abd El-Naser Mohamed Aly

B.Sc. Agric. (Plant Pathology), El-Azhar Univ., 1994

M.Sc. Agric. (Plant Pathology), Zagazig Univ.

(Benha Branch) 1999

This Thesis for the Ph.D. Degree has been approved by:

Prof. Dr. Abdel-Hamid M. Tarabeih

Professor of Plant Pathology,
Faculty of Agriculture, Alexandria,
Alexandria University

A. M. Tarabeih

Prof. Dr. Nawal Abdel-Moneim Eisa

Professor of Plant Pathology,
Faculty of Agriculture, Moshtohor,
Zagazig University
Benha Branch

Nawal A. Eisa

Prof. Dr. Abdou Mahdy M. Mahdy

Professor of Plant Pathology,
Faculty of Agriculture, Moshtohor,
Zagazig University
Benha Branch

A. Mahdy

Dr. Gehad M. Desouky El-Habbag

Ass. Prof. of Plant Pathology,
Faculty of Agriculture, Moshtohor,
Zagazig University
Benha Branch

G. M. El-Habbag

(Committee in Charge)

Date: Wed. 31/3/2004

ACKNOWLEDGMENT

The author wishes to express his gratitude and sincere appreciation to **Prof. Dr. Nawal. A. Eisa**, Professor of Plant Pathology, Faculty of Agriculture, Moshtohor, Zagazig University, Benha Branch, for her constructive supervision, valuable advice and for her help in putting this thesis in its final form.

I would like to express my deepest thanks and gratitude to **Prof. Dr. S.A. Abu El-Naga** Professor of Plant Pathology and Head of Plant Dis. res. Lab., Sakha Agric. Res. Station, Kafr El-Sheikh, for his continuous supervision and advice.

I am also indebted to **Dr. Gehad Mohamed Desouky El-Habbaa** Associate Professor of Plant Pathology, Faculty of Agriculture, Moshtohor, Zagazig University, Benha Branch, for his faithful efforts, keeping interest and faithful suggestions through out this study.

Thanks also extended to include both of **Prof. Dr. Mohamed Khalifa, Mohamed Najeeb and Dr. Wasef Youssef**, Plant Dis. Lab., Sakha Agric. Res. Station, for their kind helps, faithful efforts during this investigation.

Thanks also due to the late **Prof. Dr. Youssef El-Daoudi**, Plant Pathology Institute (A.R.C.), Giza, for his constructive criticism and faithful efforts.

Thanks are also for all staff members of Agricultural Botany Department (Plant Pathology Branch), Faculty of Agriculture Moshtohor, Zagazig University, Benha Branch and all staff members of Plant Pathology at Sakha Agric. Res. Station, Kafr El-Sheikh.

INTRODUCTION.....	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS	23
EXPERIMENTAL RESULTS	46
1. Identification of physiologic races	46
2. Relation between growth temperature duration regime and yellow rust infection at different growth stages	49
3. Effect of stripe rust infection on some parameters of wheat plant.....	51
3.1. Response of spikes and leaves to infection.....	51
3.2. Wheat growth parameters	52
3.3. Yield components	56
4. Evaluation of some plant extracts for controlling stripe rust infection.....	57
4.1. At seedling stage before inoculation with urediospores of <i>Puccinia striiformis</i>	57
4.2. At seedling stage after inoculation with urediospores of <i>Puccinia striiformis</i>	59
4.3. At adult stage before inoculation with urediospores of <i>Puccinia striiformis</i>	60
4.4. At adult stage after inoculation with urediospores of <i>Puccinia striiformis</i>	61
5. Evaluation of 13 wheat monogenic lines against stripe rust infection at seedling and adult stages	62
6. Breeding against wheat stripe rust.....	64

6.1. Greenhouse experiments.....	64
6.2. Filed experiments: Adult stage	74
7. Detecting resistant genes in wheat crosses using molecular markers	87
8. Breeding against leaf rust	92
8.A. Evaluation of commercial wheat cvs and monogenic lines against leaf rust infection	92
8.A.1. Commercial wheat cvs.....	93
8.A.2. Monogenic lines (Lrs)	94
8.B. Evaluation of wheat crosses against leaf rust infection	96
8.B.1. At seedling stage under greenhouse conditions.....	96
8.B.2. At adult stage under field conditions	101
