STUDIES ON SOME NATURAL ENEMIES OF SOME APHID SPECIES AT KAFR EL-SHEIKH REGION

By

Fathia Abd El-Khalek Salem

B.Sc. Agric. Sci. (Economic Entomology), Tanta University, 1981

THESIS

Submitted in Partial Fulfillment of the Requirements for the Degree of

MASTER OF SCIENCE

In

Economic Entomology

Department of Economic Entomology

Faculty of Agriculture

Kafr El-Sheikh, Tanta University

2002

APPROVAL SHEET

Name of student: Fathia Abd El-Khalek Salem
Title of thesis : STUDIES ON SOME NATURAL ENEMIES OF SOME APHID SPECIES AT KAFR EL-SHEIKH REGION
Degree : M.Sc. in Economic Entomology

Supervisor Committee:

1. **Prof. Dr. Hessien A. Boraei**
   Prof. of Economic Entomology, Faculty of Agriculture, Kafr El-Sheikh, Tanta Univ.

2. **Prof. Dr. Fouad El-Agamy**
   Prof. of Economic Entomology and Vice Dean for Society Service affairs and Environmental Development, Fac. of Agric., Kafr El-Sheikh, Tanta Univ.

3. **Dr. Fayez Aly Attia**
   Assist. Prof. of Economic Entomology, Fac. of Agric., Kafr El-Sheikh, Tanta Univ.

Approved by:

Prof. Dr. .....Mohsen Shalaby.....

Prof. Dr. .....M. Abd El-Ghaffar.....

Prof. Dr. .....

Prof. Dr. .....F. A. Abou-Attia.....

Date: / /2002

ACKNOWLEDGEMENT

The author would like to express her grateful thanks to the Faculty of Agriculture, Tanta University for forwarding her the opportunity to carry out the present work. Great thanks are also directed to the staff members of the Economic Entomology Department for the help, facilities and encouragement they offered. Thanks are also due to taxonomists of Biological Control Department, Plant Protection Research Institute, Giza, Egypt for the identification of the parasitoids.

The author is gratefully indebted to **Prof. Dr. Hessien A. Boraei, Prof. Dr. Fouad M. El-Agamy and Dr. Fayez A. Abou Attia**, Department of Economic Entomology, Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for their sincere guidance, valuable advice, encouragement for carrying the present work. Sincere thanks are due to them for suggesting the problem and continuous directions. I am extremely grateful and indebted **to Dr. Fayez A. Abou Attia** for his valuable supervision during the field work and preparing, reviewing the manuscript.

The author is also indebted to **Dr. Mahmoud R. Sherif** Head of Entomology Program at Rice Res. & Training Center (RRTC), Sakha for helping in the statistical analysis for the obtained data. Sincere thanks are also directed to **Dr. E.M. Khalafalla** Head of Research, Sucking Insect Research Department. Plant Protection Research Institute for the identification of the aphid species included in this study and **Dr. Ahmed S. Hendawy** Biological Control Res. Dept., Plant Protection Res. Institute for identification of the parasitoid species.

CONTENTS

Page

1. **INTRODUCTION** 1

2. **REVIEW OF LITERATURE** 3
   - 2.1. Survey of aphid species, associated predators and parasitoids 3
     - 2.1.1. Survey of aphid species 3
     - 2.1.2. Survey of aphidiophagous predators 4
     - 2.1.3. Survey of parasitoids 5
   - 2.2. Population fluctuation of aphids and associated predators 7
     - 2.2.1. Population fluctuation on wheat 7
     - 2.2.2. Population fluctuation on faba bean 12
     - 2.2.3. Population fluctuation on cotton 17
     - 2.2.4. Population fluctuation on maize 24
   - 2.3. Population fluctuation of aphid parasitoids 30
   - 2.4. Biology of the predator 33
     - 2.4.1. The coccinellid predator, *Coccinella undecimpunctata* 33
     - 2.4.2. Parasitoid on the coccinellid predator 36

3. **MATERIALS AND METHODS** 40
   - 3.1. Seasonal abundance of aphids and their associated predators 40
     - 3.1.1. On wheat 40
     - 3.1.2. On faba bean 41
     - 3.1.3. On cotton 41
     - 3.1.4. On maize 41
   - 3.2. Survey and population fluctuation of aphid parasitoids 42
   - 3.3. Biological studies of the predator *Coccinella undecimpunctata* L. 42
     - 3.3.1. Larval stage 43
     - 3.3.2. Adult stage 43
   - 3.4. Parasitism status on the predator, *C. undecimpunctata* *44*

4. **RESULTS AND DISCUSSION** 45
   - 4.1. Population fluctuation of aphids, associated predators and effect of some weather factors 45
     - 4.1.1. The wheat aphid *Rhopalosiphum* spp. 45
     - 4.1.2. The faba bean aphid *Aphis craccivora* 54
     - 4.1.3. The cotton aphid *Aphis gossypii* 62
     - 4.1.4. The maize aphid *Rhopalosiphum maidis*, and *Aphis gossypii* 70
   - 4.2. Parasitoids of aphids, ... 80
     - 4.2.1. On wheat aphid, *Rhopalosiphum* spp 80
       - 4.2.1.1. Survey 80
       - 4.2.1.2. Population fluctuation 80
     - 4.2.2. On faba bean aphid, *Aphis craccivora* 86

4.2.2.1 Survey 86
4.2.2.2. Population fluctuation 88
4.2.3. On cotton aphid, *Aphis gossypii* 89
4.2.3.1. Survey 89
4.2.3.2. Population fluctuation 89
4.2.4. On maize aphids, *Rhopalosiphum maidis* 92
4.2.4.1. Survey 92
4.2.4.2. Population fluctuation 92
4.3. Biological investigation on the predator *C. undecimpunctata* 94
4.3.1. Biological aspects of *C. undecimpunctata* on *A. gossypii* 94
4.3.2. Parasitism on *Coccinella undecimpunctata* 98

ARABIC SUMMARY

LIST OF TABLES

Table (1): Survey of aphid species on wheat, faba bean, cotton and maize crops in different Governorates and cities in Egypt..... 3

Table (2): Survey of aphid parasitoids on wheat, faba bean, cotton and maize in the world..... 6

Table (3): Population fluctuation of *Rhopalosiphum* spp. and their predator insect species on wheat plant at Kafr El-Sheikh region in season 1998/1999..... 46

Table (4): Population fluctuation of *Rhopalosiphum* spp. and their predator insect species on wheat plant at Kafr El-Sheikh region in season 1999/2000..... 48

Table (5): Correlation coefficients among populations of *Rhopalosiphum* spp. and both associated predators and three weather factors, (temperature, relative humidity and wind velocity)..... 51

Table (6): Population fluctuation of *Aphis craccivora* and their predator insect species on faba bean plants at Kafr El-Sheikh region in season 1998/1999..... 55

Table (7): Population fluctuation of *Aphis craccivora* and their predator insect species on faba bean plants at Kafr El-Sheikh region in season 1999/2000..... 57

Table (8): Correlation coefficients among populations of *Aphis craccivora* and associated predators and three weather factors (temp., relative humidity and wind velocity)..... 60

Table (9): Population fluctuation of *Aphis gossypii* and their predator insect species on cotton plants at Kafr El-Sheikh region in season 1999..... 53

Table (10): Population fluctuation of *Aphis gossypii* and their predator insect species on cotton plants at Kafr El-Sheikh region in season 2000..... 65

Table (11): Correlation coefficients among populations of *A. gossypii* and associated predators and three weather factors (temperature, relative humidity and wind velocity)..... 69

Table (12): Population fluctuation of *Rhopalosiphum maidis*, *Aphis gossypii* and their predator insect species at Kafr El-Sheikh region on maize plants in season 1999..... 71

Table (13): Population fluctuation of *Rhopalosiphum maidis*, *Aphis gossypii* and their predator insect species at Kafr El-Sheikh region on maize plants in season 2000. 73
Table (14): Correlation coefficients among populations of *Rhopalosiphum maidis* and associated predators and three weather factors (temperature, relative humidity and wind velocity). 77
Table (15): Correlation coefficients among populations of *Aphis gossypii* associated predators and three weather factors (temperature, relative humidity and wind velocity). 78
Table (16): Parasitoid species attacking wheat aphids, *Rhopalosiphum* spp. and their percentages of parasitism at Kafr El-Sheikh region, 2001season. 81
Table (17): Parasitoid species attacking faba bean aphid, *Aphis craccivora* and their percentages of parasitism at Kafr El-Sheikh region, 2001 season. 87
Table (18): Parasitoid species attacking cotton aphids, *Aphis gossypii* and their percentages of parasitism at Kafr El-Sheikh region, 2001 season. 90
Table (19): Parasitoid species attacking maize aphids, *Rhopalosiphum maidis* and their percentages of parasitism at Kafr El-Sheikh region, 2001 season. 93
Table (20): Biological aspects and feeding capacity of *Coccinella undecimpunctata* larvae fed on *Aphis gossypii* during May till October (2001). 95
Table (21): Duration, feeding capacity and fecundity of *Coccinella undecimpunctata* adults stage fed on *Aphis gossypii* nymphs (2001 season). 97
Table (22): Percentage parasitism of the parasitoid *T. coccinellae* on larvae, pre-pupae and pupae of *C. undecimpunctata* during 2000-2001 on cotton plants at Kafr El-Sheikh district. 100
