# **Investigation of some phenomena on Polymer-based composite**

**A Thesis**

**Submitted to The Faculty of Science  
Cairo University**

**In Partial Fulfilment For the Degree of  
M.Sc. in Physics ( Solid State )**

**By**

**Mohammed Hamdy Mohammed Osman  
B.Sc. Cairo University**

**Supervised by**

**Prof. Dr. M.Amin**

**Professor of physics  
Faculty of Science  
Cairo University**

**Prof. Dr. G.A. Naser**

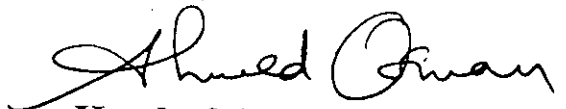

**Professor of physics  
Faculty of Science  
Cairo University**

**Dr. S. Ibrahim**

**Lecturer  
Faculty of Science  
Cairo University**

**Prof. Dr. Ahmed Osman**

**Head of the  
Physics Department  
Faculty of Science  
Cairo University**

**2000**

سورة طه الآية ١٦٠

**TO MY PARENTS**

# **CONTENTS**

## CONTENTS

	Page
ABSTRACT	I
Introduction	1
Polyamides	4
Nylon 11	5
Effect of Additives	6
Ceramic Material	10
Aim of Work	12

## Chapter One LITERATURE SURVEY

Barium Titanate	14
Ferroelectric Polymers	17
Nylon 11	18

## Chapter Two EXPERIMENTAL WORK

Materials	23
Nylon 11	23
Barium Titanate	26
Preparation of Test Samples	27
Measurements	28
D.C.Conductivity	28
Thermally Stimulated Polarization and Depolarization	29
Thermally Stimulated Currents (TSC)	29
Mechanisms Responsible for Thermally	
Stimulated Depolarization Current (TSDC)	31
Current Creep	34
Current-Voltage Characteristics	34
Dielectric Constant and Dielectric Loss	35
Differential Scanning Calorimetry	36

## Chapter Three RESULTS AND DISCUSSION

Effect of Barium Titanate on the Electrical Conductivity	38
Current Density-Electric Field Characteristics	38
Carrier Mobility	41
Electrical Conductivity of Nylon 11/BaTiO <sub>3</sub> Composites	44

Thermally Stimulated Polarization Current (TSPC)	49
Effect of Applied Field	49
Dielectric Behavior of Nylon 11/BaTiO <sub>3</sub> Composites	51
Differential Scanning Calorimetry of Nylon 11/BaTiO <sub>3</sub> Composites	53
CONCLUSIONS	54
REFERENCES	55
ARABIC SUMMARY	

## **ACKNOWLEDGEMENT**

## ACKNOWLEDGEMENT

I wish to express my grateful acknowledgement to **Prof. Dr. M. Amin Soliman**, Physics Department, Faculty of Science, Cairo University, for his supervision, valuable help and advice which have rendered many difficulties surmountable. He offered me great help, fruitful discussions and comments throughout this work.

I should like to take this opportunity to thank **Prof. Dr. G. Abd-El Naser**, Physics Department, Faculty of Science, Cairo University, for suggesting the point, invaluable supervision and helpful guidance throughout the discussion and the work.

Sincere thanks to **Dr. S. Ibrahim**, Physics Department, Faculty of Science, Cairo University, for his supervision, help and encouragements.

I wish to express my thanks to **Dr. Labiba**, Polymer lab., ENPI Petroleum company, for her help in the preparation of samples.

Finally, I am deeply indebted to the staff members of the Polymer Science Laboratory, Physics Department, Faculty of Science, Cairo University, for their support during this work.
