## Acknowledgments

First, thanks are all to *God* for blessing me this work until it has reached its end, as a little part of his generous help throughout my life.

I wish to express my deep feeling to my *Professor Dr. Fatma Abdel-Moniem El-Hendawy*, Professor of Pedodontics and Vice Dean for Social and Community Matters, Faculty of Dentistry, Tanta University, to whom I am indebted for her kind help and careful guidance in every step of this work. This study would have not come into light without her remarkable thoughts and notable orientation and no words can adequately express the thanks she justly deserves.

It is a great honor for me to take this opportunity to express my deepest gratitude to *Dr. Amina Mohamed El-Nabawy El-Hosary*, Ass. Prof. of Pedodontics, Faculty of Dentistry, Tanta University, for her kind moral support and generous encouragement.

&

I would like to express my deepest gratitude and appreciation to *Dr. Maher Mohamed El-Tonsy*, Ass. Prof. of Oral Medicine, Periodontology, Oral Diagnosis and Radiology, Faculty of Dentistry, Tanta University, for his kind supervision and helpful guidance during all steps of this work.

I am kindly thankful also to *Dr. Faisal Farahat*, Assistant Lecturer of Community Medicine, Faculty of Medicine, Menoufiya University for his help in the statistical part of this work.

## List of Figures

		Page
1.	Fig. (1): 35% hydrogen peroxide gel (Opalescence Xtra) .....	38
2.	Fig. (2): 35% hydrogen peroxide (Superoxol) .....	40
3.	Fig. (3): Sodium perborate .....	41
4.	Fig. (4): Pedodontic examination chart .....	44
5.	Fig. (5): Biological and Mechanical Seal .....	48
6.	Fig. (6): Plastic bite block for film position with heavy rubber basebiteregistration .....	52
7.	Fig. 7(a): Shade guide before bleaching for group I .....	59
	Fig. 7(b): Shade guide after bleaching for group I .....	59
8.	Fig. 8(a): Shade guide before bleaching for group II .....	60
	Fig. 8(b): Shade guide after bleaching for group II .....	60
9.	Fig. (9): Correlation between age by years and the bleaching time by minutes .....	61
10.	Fig. (10): Correlation between age by years and number of trials (number of application of bleaching agent) ....	62
11.	Fig. (11): Correlation between history of complain by month and bleaching time by minutes .....	64
12.	Fig. (12): Correlation between the history of complain by month and number of trails (number of application of bleaching agent) .....	65
13.	Fig. (13): A photograph showsdiscoloured upper right central before bleaching .....	67
14.	Fig. (14): A photograph shows upper right central tooth after bleaching using Opalescence Xtra (group I) .....	67
15.	Fig. (15): A photograph shows upper right central tooth after complete treatment .....	68

## List of Tables

	Page
1. Table (1): Patient's age and teeth for group I and group II ...	58
2. Table (2): Shade guide for group I, before and immediately after bleaching .....	59
3. Table (3): Shade guide for group II before and immediately after bleaching .....	60
4. Table (4): Correlation between age by years and the bleaching time by minutes .....	61
5. Table (5): Correlation between age by years and number of trials (number of application of bleaching agent) ..	62
6. Table (6): Comparison between age by years and the recurrence of dark colour .....	63
7. Table (7): Comparison between recurrence of dark colour and age by years .....	63
8. Table (8): Correlation between history of complain by month and bleaching time by minutes .....	64
9. Table (9): Correlation between the history of complain by month and number of trails (number of application of bleaching agent) .....	65
10. Table (10): Comparison between the history of complain by month and recurrence of dark colour .....	66
11. Table (11): Comparison between history of complain by years and recurrence of dark colour .....	66

16. Fig. (16): A computer photograph shows periapical x-ray films include:-
- 1- Periapical x-ray film before treatment.
  - 2- Periapical x-ray film show obturation and bleaching.
  - 3- Periapical x-ray film after 1 month.
  - 4- Periapical x-ray film after 3 months.
  - 5- Periapical x-ray film after 6 months.
  - 6- Periapical x-ray film after 9 months.
- 68
17. Fig. (17): A photograph shows discoloured upper right central tooth before bleaching ..... 69
18. Fig. (18): A photograph shows upper right central tooth after bleaching by walking bleaching technique (group II) ..... 69
19. Fig. (19): A computer photograph shows periapical x-ray films include:-
- 1- Periapical x-ray film before treatment.
  - 2- Periapical x-ray film show obturation and bleaching.
  - 3- Periapical x-ray film after 1 month.
  - 4- Periapical x-ray film after 3 months.
  - 5- Periapical x-ray film after 6 months.
  - 6- Periapical x-ray film after 9 months.
