التوثيق الالكتروني والميكرو فيلم

## قسم

نقسم بالله العظيم أن المادة التي تم توثيقها وتسجيلها  
على هذه الأفلام قد أعدت دون أية تغيرات

## يجب أن

تحفظ هذه الأفلام بعيداً عن الغبار

في درجة حرارة من 15 – 20 مئوية ورطوبة نسبية من 20-40 %

To be kept away from dust in dry cool place of  
15 – 25c and relative humidity 20-40 %

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا  
إِلَّا مَا عَلَّمْتَنَا إِنَّكَ أَنْتَ  
الْعَلِيمُ الْحَكِيمُ﴾

صدق الله العظيم

سورة البقرة / الآية { ٣٢ }

## ACKNOWLEDGEMENT

**F**irst and Foremost I thank **GOD**, the most merciful.

I would like to express my deepest gratitude and appreciation to **Prof. Dr. Hany Sobhy Rufail**, Professor of Clinical and Chemical Pathology, Ain Shams University, for giving me the opportunity to work under his supervision and for his valuable remarks throughout the work.

My deepest thanks and special regards are due to **Prof. Dr. Nasser Sadek Rizk**, Professor of Clinical and Chemical Pathology, Ain Shams University, for his precious and valuable guidance throughout the whole work.

My sincer gratitude goes to **Dr. Mona Mohamed Zaki**, Assistant Professor of Clinical and Chemical Pathology, Ain Shams University, for her great help, constant unlimited guidance and for offering me much of her time and effort. Her extreme patience, careful supervision and precise advice are more than I can express.

Lastly but not least, I would like to thank my family for their great help, support and understanding.

**Nahed A.A (2001)**

# LIST OF CONTENTS

	Page
• Introduction and Aim of Work.....	1
• Review of Literature.....	3
- <i>Function of the Kidney</i> .....	3
- <i>Anatomy of the Kidney</i> .....	4
- <i>Assessment of renal glomerular function</i> .....	12
I. Clearance studies.....	13
a) Inulin clearance.....	14
b) Iohexol clearance.....	16
c) Creatinine clearance.....	16
d) Radioisotope clearance.....	22
- Clinical utility of measurement of GFR.....	24
II. Substances assay as a marker of GFR.....	25
A) Urea.....	25
B) Creatinine.....	26
C) Low molecular weight proteins.....	34
- <i>Cystatin C</i> .....	43
1. <i>Structure of cystatin C</i> .....	43
2. <i>Catabolism of cystatin C</i> .....	44
3. <i>Function of cystatin C</i> .....	44
4. <i>Cystatin C in normal human biological fluids</i> .....	47
5. <i>Role of cystatin C in diagnosis</i> .....	49
6. <i>Factors affecting cystatin C assay</i> .....	53

	<b>Page</b>
<i>7. Stability in human biological fluids</i> .....	54
<i>8. Methods of Assay of Cystatin C</i> .....	55
a) Sandwich enzyme immunoassay.....	57
b) Particle enhanced immunonephelometry.....	58
c) Particle enhanced turbidimetric.....	60
d) Other methods of cystatin C assay.....	62
• <b>Subjects and Methods</b> .....	64
• <b>Results</b> .....	73
• <b>Discussion</b> .....	82
• <b>Summary</b> .....	91
• <b>Conclusion and Recommendation</b> .....	93
• <b>References</b> .....	94
• <b>Arabic Summary</b> .....	

# LIST OF TABLES

Tables No.		Page
1	Important component of renal function.....	3
2	Creatinine clearance reference values.....	19
3	Markers of GFR.....	42
4	Cystatin C superfamily.....	45
5	Concentration of cystein proteinas inhibitors.....	47
6	Comparison of immunoassay for determining cystatin C in serum.....	56
7	Descriptive statistics of the studied groups.....	77
8	Comparison between patients with renal disease group A, B and C using Kruskal Wallis test.....	79
9	Comparison between different group of renal disease patients and each other using Willcoxon Rank sum test.....	79
10	Comparison between different groups of renal disease patients and healthy control using Willcoxon Rank sum test.....	79
11	Different correlation coefficient and P values of different correlation.....	80
