Abstract

Unconscious patient high risk for immobility complications which affect patient prognosis, thus the nurse role is very important to him. The aim of the study was assess nurses' knowledge and performance as well as assess patient physical and psychological status and suggest protocol for care of an unconscious patient.

The present study asked one main Question Q: What are the different nursing interventions that are provided to unconscious patients at Benha university hospitals?

The sample contained 30 adult unconscious patients and their available nurses who give them care (53). The study conducted at Benha university hospital. The tools of data collection were structured questionnaire sheet and observational checklist and patient's, assessment. Results of the study showed that unsatisfactory knowledge and inadequate performance with no statistical significant difference among different nurses groups as regards cared patients.

The result of patient assessment sheets indicated that no statistical difference among different diagnosis.

This study concluded that all nurses needed to improve their knowledge and practice a bout care of unconscious patient. The study recommended exposure of the nurses to an in service training programs and orientation program.

Acknowledgement

First and foremost, I feel always indebted and thanks Allah for giving me the will and the strength for completion of this study.

I would like to express my thanks to all those who contributed by giving their time, effort and encouragement to the fulfillment of this study.

*I am greatly thanks to **PROF. DR. ABD EL-SHAFY TABL**, Professor of internal Medicine, Benha Faculty of Medicine, Zagazig University, for his supervision, assistance and more support to accomplish this study.*

*My sincere gratitude and appreciation to **PROF. DR. TAHANY EL-SENOUSY**, Professor of Medical surgical nursing for her kind supervision, continuous support, discussion and information on various points which help me to accomplish this study.*

*Words can not convey my thanks and not describe how grateful I'm deeply indepted for **DR. MANAL HAMED MHOUD** Lecturer of Medical Surgical Nursing ,Benha Faculty of Nursing, Zagazig University.*

*My deepest thanks to **D.R Hanan Gaber MOHAMED** Lecturer of Medical Surgical Nursing, Benha Faculty of Nursing, Zagazig University.*
