RHEUMATIC MANIFESTATIONS OF THYROID DYSFUNCTION

Thesis
Sumbitted in partial fulfilment
of the Master Degree in
Rheumatology and Rehabilitation

Presented by

Mona Hamdy Mahmoud El-Said
M.B.B.Ch.

Supervised by

Dr. Ahmed Hamdy Ahmed
Assistant Professor of Rheumatology and Rehabilitation,
Faculty of Medicine, El-Minia University

Dr. Abdou Saad Ellabban
Lecturer of Rheumatology and Rehabilitation,
Faculty of Medicine, El-Minia University

Dr. Yasser Makram El-Sherbini
Lecturer of Clinical Pathology,
Faculty of Medicine, El-Minia University

**Faculty of Medicine
El-Minia University**

2003

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

وَقُلْ اَعْمَلُوا فَسَيَرَى اللَّهُ عَمَلَكُمْ
وَرَسُولُهُ وَالْمُؤْمِنُونَ وَسَتُرَدُّونَ
إِلَى عَالَمِ الْغَيْبِ وَالشَّهَادَةِ
فَيُنَبِّئُكُمْ بِمَا كُنْتُمْ تَعْمَلُونَ

صَلَّى
الْعَظِيمِ

الآية ١٠٥

سورة التوبة

To My Parents

To My Kids, Hossam & Ahmed

To My Husband

ACKNOWLEDGMENT

Thank **God**, who guide me throughout my whole life.

I would like to express my thanks to **Dr. Ahmed Hamdy Ahmed** Assistant Professor of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University for supervising this work.

I feel grateful to **Dr. Abdou Saad Ellabban**, Lecturer of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University, for his support and fruitful guidance.

I owe a heavy debt of gratitude to **Dr. Yasser Makram El-Sherbini** Lecturer of Clinical Pathology, Faculty of Medicine, El-Minia University, for his sincere efforts in supervising this work, and for his patience and non-failing help.

I want to express my thanks to **Dr. Abd El-Raof Omar**, Assistant Professor of Neurology, Faculty of Medicine, El-Minia University, for his support in the neurophysiological part of this work.

A word of thanks is presented to **Dr. Jahan Abdel-Wahab**, Assistant Professor of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University, and **Dr. Ahmed Abdel Nasser**, Assistant Professor of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University, for their continuous support, encouragement and confidence.

No words can express my gratitude to **Dr. Tarek Magdy**, Assistant Lecturer of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University, for his endless help in all the steps of this work.

I want to express my deep thanks to **Dr. Shereen Refaat, Dr. Hanaa Ahmed** and **Dr. Rawhia Rabie** Assistant Lecturers of Rheumatology and Rehabilitation, Faculty of Medicine, El-Minia University, for their fruitful advice and guidance.

My deep thanks to **Dr. Dina Fathi**, Assistant Lecturer of Neurology, Faculty of Medicine, El-Minia University, for her efforts in performing the neurophysiological part of this study.

Thanks to all my colleagues in the Rheumatology and Rehabilitation and clinical Pathology department Faculty of Medicine, El-Minia University, for their continuous support and encouragement.

Words are not enough to express my gratitude towards all the members of **my family: my father, my mother, my brother; Dr. Hatem, my sister; Dr. Maha, my father and mother in-law** for their generous help and patience.

Finally, I would like to thank **my husband, Khalid Heikal**, for his patience, great support and encouragement.

The Candidate

CONTENTS

Subjects	Page No.
* Introduction and Aim of the work	1
* Review of Literature	3
Chapter I (Basic knowledge):	3
- Anatomy of thyroid gland	3
- Histology of thyroid gland	4
- Formation and secretion of thyroid hormones	5
• Iodine metabolism	6
• Iodine transport.....	6
• Synthesis of thyroid hormones.....	7
• Storage of thyroid hormones.....	9
• Hydrolysis of Tg and release of T ₃ and T ₄	9
- Regulation of thyroid cell function	10
• Thyroid Stimulating Hormone	10
• Thyroid Releasing Hormone	11
• Iodine availability	12
• Factors affecting thyroid cell function	13
- Thyroid function disorders	21
• Hypothyroidism	21
• Hyperthyroidism	35
• Autoimmune thyroid disorders	53

Subjects	Page No.
Chapter II (Rheumatic Manifestations of thyroid dysfunction):	65
- Articular manifestations	65
- Periarticular manifestations	72
- Neuromuscular manifestations	74
- Others	86
* Patients and Methods	102
* Results	123
* Discussion	150
* Summary	159
* Conclusions and Recommendations	163
* References	164
* Arabic Summary	

List of Tables

Table No.	Subjects	Page No.
1	Laboratory evaluation of patients with suspected hypothyroidism.	33
2	Classification of autoimmune thyroiditis.	55
3	Age of patients and controls.	123
4	Sex distribution in patients and controls.	124
5	Disease duration in studied groups.	124
6	Rheumatic manifestations of thyroid dysfunction in studied groups.	124
7	Clinical characters of arthritis in patients with thyroid dysfunction.	128
8	Synovial fluid findings in patients with thyroid dysfunction.	129
9	Radiological changes in studied groups.	130
10	Rheumatoid factor and ANA in studied groups.	136
11	DNA, TPO and Tg in studied groups.	137
12	Creatine phosphokinase the five groups.	140
13	Bone formation markers in studied groups.	140
14	Bone mineral density in studied groups.	141
15	Prevalence of osteopenia, osteoporosis in studied groups.	142
16	Prevalence of electromyographic changes in hypothyroid and hyperthyroid.	148
17	Nerve conduction study findings in the two studied groups in median and common peroneal nerves.	149

List of Figures

Figure No.	Subjects	Page No.
1	Iodine metabolism in a state of iodine balance.	7
2	The major steps in thyroid hormone biosynthesis.	8
3	The spectrum of thyroid hormone concentrations in ill individuals.	20
4	Thyroid acropachy.	70
5	Osseous changes in hyperthyroidism.	71
6	Trabecular bone remodeling cycle.	89
7	Biochemical changes associated with hyperthyroid bone disease.	91
8	Calcaneal fixed point transmission systems.	119
9	Rheumatic manifestations of hypothyroid groups.	126
10	Rheumatic manifestations of hyperthyroid groups.	127
11	Radiological changes in hypothyroid groups.	131
12	Radiological changes in hyperthyroid groups.	132
13	Juxtaarticular osteoporosis.	133
14	Diffuse osteopenia and subperiosteal resorption.	133
15	Aseptic necrosis of femoral heads.	134
16	Osteopenia of pelvic bones.	134
17	Enthesiopathy at inferior pubic ramus.	135
18	Enthesiopathy at inferior pubic ramus.	135
19	TPO in the five groups.	138

Figure No.	Subjects	Page No.
20	Tg in the five groups.	139
21	Correlation between T ₃ and TPO in active hypothyroid group.	144
22	Correlation between T ₄ and TPO in active hypothyroid group.	144
23	Correlation between ALP and T-score in active hypothyroid group.	145
24	Correlation between T ₃ and Tg in active hypothyroid group.	145
25	Correlation between osteocalcin and ALP in active hypothyroid group.	146
26	Correlation between osteocalcin and ALP in active hyperthyroid group.	146
27	Correlation between osteocalcin and ALP in controlled hyperthyroid group.	147
