البقرة (٣٢)

Acknowledgements

Before I even attempt to acknowledge the people who have helped and supported me during this work, I have to express my utmost gratitude for the blessings that ALLAH has bestowed on me.

I believe that acknowledgments should be heart felt, and I am expressing what I feel towards every single person who has helped me. The completion of this thesis takes more than just a candidate and a lab. It is more of learning experience that involves the experience, dedication and guidance of several people involved. I have been so fortunate with my committee members who have shared with me their wisdom and insight throughout the study years.

I wish to express my sincere appreciation and feeling of gratitude to Dr. Sanaa Abdel-Bakey Kenawy, Professor of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University, for her instructive supervision, sincere encouragement, constructive criticism and continuous guidance that she kindly offered throughout the development of this work,

I would like also to express my deepest gratitude and sincere thanks to Dr. Nesrine Salah El Dine El Sayed, Lecturer of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University, for her valuable advice, constant support and ideal motivation.

I am deeply indebted to my Parents, sisters and husband. No words can express my feeling of gratitude for

their continuous help, support that enabled this work to be completed. Nevertheless, I'm profoundly appreciative for their continuous encouragement and everlasting patience.

Finally, my gratitude is also extended to all my colleagues and all staff members of the Pharmacology and Toxicology Department, Faculty of Pharmacy, Cairo University for their consideration, encouragement and support.

Enas Ahmed Abd El-Haleim
