SUMMARY

Acknowledgement

All thanks to God for the great care, support and guidance in every step in our life. Thanks to God most graceful and merciful, asking for his acceptance, forgiveness and rewards for the effort done in this work.

I would like to express my profound gratitude and cordial appreciation to Prof. Dr. Ikram Safe, Head of Plastic & Reconstructive Surgery Department, Ain Shams University for his support and guidance to me throughout my work.

I would like to thank Prof. Dr. Ayman Shaker for his time and great effort supervising this thesis.

I wish to express my debt to Prof. Dr. Kareem Massoud for his keen advice, valuable comments and sincere supervision.

I wish to express thanks to Prof. Dr. Nadia Galal for her active participation in this work. She provided me with her valuable time and experience in studying the electron microscopic specimens as well as the light microscopic specimens in this study with thorough revision of the results.

I would also like to express my sincere appreciation to Prof. Dr. Itchag Hussein for her help and giving

me the chance to use the Image Analyzer System at the Histology Department, Ain Shams University.

Lastly my greatest appreciation to all members of my family who were generous in supporting me throughout my life.
