Value of Endothelin-1 In Rheumatoid Arthritis

Thesis

**Submitted in Partial Fulfillment of The Requirements
For The Master Degree in Physical Medicine
and Rehabilitation**

By

Howayda Farouk Zidan

M.B., Ch.B., Faculty of Medicine, Ain Shams University

Under Supervision of

Prof. Dr. Naglaa Ali Gad-Allah

**Professor of Physical Medicine and Rehabilitation
Faculty of Medicine, Ain Shams University**

Dr. Nadia Salah Kamel

**Assistant Professor of Physical Medicine and Rehabilitation
Faculty of Medicine, Ain Shams University**

Dr. Nihal Ebrahim El-Sheshtawy

**Assistant Professor of Physical Medicine and Rehabilitation
Faculty of Medicine, Ain Shams University**

**Faculty of Medicine
Ain Shams University
Year 2001**

Contents

	Page
Introduction	1
Aim of the work	3
Review of literature	4
• Chapter I : Rheumatoid arthritis	4
• Chapter II : Rheumatoid vasculitis ...	7
• Chapter III : Endothelins	20
• Chapter V : Endothelin-1 and Rheumatoid arthritis	35
Patients and Methods	38
Results	44
Discussion	61
Summary and conclusion	69
Recommendations	71
References	72
Arabic summary	92

List of Tables

	Page
Table (1) : Distribution of ET receptors in tissues	22
Table (2) : Modulators of ET production from the endothelium	26
Table (3) : Activity assesment score	41
Table (4) : Clinical data among the patient group	46
Table (5) : Clinical and laboratory data of the control group.....	49
Table (6) : Laboratory data of the patient group	49
Table (7) : Comparison between patient and control group regarding plasma ET-1 level	50
Table (8) : Plasma and synovial ET- in patients with Raynaud's phenomenon and those without	51
Table (9) : Plasma and synovial ET-1 level in patients with Extra-articular manifestations and those without...	52
Table (10) : Plasma ET-1 level in patients with skin ulcers and those without	53

Table (11)	: Plasma and synovial ET-1 in patients with purpura and those without	53
Table (12)	: Plasma and synovial ET-1 in patients with X-ray erosive changes and those without	55
Table (13)	: Plasma ET-1 in patients with proteinuria and those without	56
Table (14)	: Plasma and synovial ET-1 patients with +ve RF And those with -ve RF.	57
Table (15)	: Correlation between plasma ET-1 level and clinical data among patient group	59
Table (16)	: Correlation between plasma ET-1 level and laboratory data among patients group	59
Table (17)	: Correlation between synovial ET-1 level and clinical data among patient group	60
Table (18)	: Correlation between synovial ET-1 level and laboratory data among patients group	60

List of Figures

	Page
Fig (1) : Biosynthesis of endothelin-1	24
Fig (2) : Intracellular signal transduction pathways activated by endothelins (Ets)	30
Fig (3) : Comparison between patients and control group regarding plasma ET-1 level	50
Fig (4) : Comparison between patients with or without certain clinical manifestations as regard plasma ET-1	54
Fig (5) : Comparison between patients with or without certain clinical manifestations as regard synovial ET-1	54
Fig (6) : Comparison between patients with X- ray erosive changes and those without as regard plasma and Synovial ET-1 level	56
Fig (7) : Comparison between patients with +ve and -ve RF regarding plasma and synovial ET-1 level	58
