Aboel Atta

This

**Thesis has not been previously
submitted for a degree at this or
any other University.**

L.F.A. Mohammed

Acknowledgments

I wish to dedicate this work to the memory of the Late **Prof. Dr. Mohammed Nabil El Hadidi**, Professor of Flora & Plant Taxonomy, Botanical Department, Faculty of Science, Cairo University for suggesting the point, his continuous help and encouragement in supervising this work and providing me with various documents dealing with this topic.

I am also grateful to **Dr. Mohammed Hesham Abdel Hameed Loutfy**, Assistant Prof. of Flora & Plant Taxonomy, Biological Sciences and Geology Department, Faculty of Education, Ain Shams University, and **Dr. Abdel Moneim Ibrahim Aboel Atta**, Lecturer of Flora & Plant Taxonomy, Biological Sciences and Geology Department, Faculty of Education, Ain Shams University, for supervising the work, their continuous help, encouragement, helpful advice and constructive criticism during this study.

I also like to express my deepest gratitude and sincere appreciation to **Mrs. Therese Labib** (El Orman Garden) for her helpful advice and for helping me in identification of plants and **Mrs. Sawsan M. M. Gomaa** the director of El Ezbakiah Garden for providing facilities to collect plant specimens and complete this investigation.

Many thanks also to **Prof. Dr. Mohammed Shahin**, head of Biological Sciences and Geology Department, Faculty of Education, Ain Shams University for the helpful advice and continuous encouragement.

I wish also to thank **Prof. Dr. Ahmad Fouad Afifi**, Professor of Microbiology, Biological Sciences and Geology Department, Faculty of Education, Ain Shams University for revising the Thesis and his useful criticism.

Thanks are also to staff members of the Biological Sciences and Geology Department, Faculty of Education, Ain Shams University, and Cairo University Herbarium (CAI), Faculty of Science, Cairo University for their help and continuous encouragement.
