Acknowledgement

First and for most of feel always indebted to Allah, the most kind and the most merciful.

With grateful and cordial gratitude, I wish to express my appreciation for the expert assistance and the inexhaustible belief in the nursing, *Prof. Dr. Hussein H. Sabri* Professor of Anesthesiology and Intensive Care, Faculty of Medicine, Ain Shams University, who devoted much of his time, and scientific help to accomplish this work. Without his enthusiasm that has made the easiest out of the most difficult, I would have not been able to start and reach the perfection of this work.

I am deeply indebted to *Prof. Dr. Suzan Attia*, Professor of Medical Surgical Nursing, Faculty of Nursing, Cairo University, for her effort, meticulous supervision, sincere guidance, constructive criticism, encouragement and constant support to produce this work in its present form.

Sincere appreciation is extended to *Dr. Kamilia Fouad* Assistant Professor of Medical Surgical Nursing, Faculty of Nursing, Ain Shams

University, for her advice and guidance and for her detailed reviews, correction and suggestions provided to me with good measures of security about the study.

I am specially indebted to the physicians and nurses participated in this work who through their co-operation and interaction taught me a lot.

Last but not least, the support and understanding of my lovely family are invaluable special thanks and love to my daughter "*Rawan*", my son "*Abd El Rahman*", and Dear "*Mahmoud*" who have been the "*Wind Beneath my Wings*."
