I am greatly indebted to Prof Dr. Sobhy El-Sayid Hassab El-nabi, Prof Dr.of Genetics and Molecular Biology, Zoology Department, Faculty of Science, Minufiya University, not only for his suggestion the point o the work but also for giving me the opportunity to work in his laboratory, for his invaluable help guidance, valuable support and for his patient revision of all details in this thesis .

My deep thanks for Dr. Hisham Abed El sadek Metwaly, Prof of Eclinical Pathology, Institute of Genetic Engineering and Biotechnology, Minufiya University, not only for his valuable sharing by diagnose the patients samples but also for helping me to collect them,for his sincere encouragement, appreciable help and helpful suggestions during the reading of the manuscript.

I also express my special thanks to prof. Dr. allaa al- nanaay, Prof Dr.of ecology and fishes, Zoology Department, Faculty of Science, Minufiya University, for his kind help by his knowledge and his afford of this manuscript.

TO MY FAMILY

Words are not enough to express my special thanks and appreciation to my Family, my father, my mother, my brother and my Uncle hishamm for their continuous support, encouragement, their patient, and for their unlimited guidance all the way.

M. Sc Courses studied by the candidate

Besides the work presented in this thesis, the candidate has attended and passed successfully the following post-graduate courses as a partial fulfillment of the requirements for the degree of Master of Science during the academic year 1999-2000.

1. Genetics
2. Cell Biology
3. Genetic Disease
4. Molecular Biology
5. Biochemistry and Enzymes
6. Statistics
7. Genetic Engineering
8. Tissue Culture
9. Immunology
10. Hematology
11. Computer
12. English
