***Nanostructure Carbon Based Materials from  
Agriculture Wastes for Separation of Hydrogen  
from Syn-Gas***

*Presented by*

**Mohamed Elsaied Abd-Elsalam Mohamed**

Assistant researcher

Egyptian Petroleum Research Institute

For

**The Degree of Doctor philosophy in Chemistry  
(PhD)**

*Supervised by*

Prof.Dr.Fouad I.Elhosiny

*Professor of Physical Chemistry*

*Faculty of Science*

*Ain Shams University*

Prof. Dr. Fathy Y. El Kady

*Professor of Catalysis*

*Refining Department*

*Egyptian Petroleum Research Institute*

Dr. Ahmed M. A. El Naggar

Assistant Professor of Physical Chemistry

Egyptian Petroleum Research Institute

**2017**

# **Nanostructure Carbon Based Materials from Agriculture Wastes for Separation of Hydrogen from Syn-Gas**

*By*

**Mohamed Elsaied Abd-Elsalam Mohamed**

## **THESIS ADVISORES**

### **1. Prof. Dr. Fouad I. Elhosiny**

Professor of Physical Chemistry

Faculty of Science, Ain Shams University

### **2. Prof. Dr. Fathy Y. El Kady**

Professor of Catalysis,

Egyptian Petroleum Research Institute

### **3. Dr. Ahmed M. A. El Naggar**

Assistant Professor of Physical Chemistry,

Egyptian Petroleum Research Institute

Head of Chemistry Department

Prof. Dr. Ibrahim H.A. Badr

# **Nanostructure Carbon Based Materials from Agriculture Wastes for Separation of Hydrogen from Syn-Gas**

*By*

**Mohamed Elsaied Abd-Elsalam Mohamed**

**Prof. Dr. Fouad I. Elhosiny**

Professor of Physical Chemistry Faculty of  
Science, Ain Shams University

**Prof. Dr. Fathy Y. El Kady**

Professor of Catalysis, Egyptian  
Petroleum Research Institute

**Prof. Dr. Mohamed M. Wasel**

Professor of Physical Chemistry Faculty of  
Science, Al- Azhar University

**Prof. Dr. Esam A. Keshar**

Professor of In Organic Chemistry College  
of Women's for Arts, Science and Education  
Ain Shams University

Head of Chemistry Department

**Prof. Dr. Ibrahim H.A. Badr**

### ACKNOWLEDGEMENT

I am in a greatest thankful to ALLAH, The Most Merciful, The Most Gracious, by the grace of whom the progress and success of the present work. I would like to express my gratitude to my supervisor ***professor Fouad Ibrahim El-Hosiny***, professor of physical chemistry, Ain Shams University, Egypt, for his kind supervision and valuable advices throughout all the steps of the work. His valuable knowledge is hardly printed in my mind also, for his guidance throughout my thesis. I am deeply indebted to ***Professor Fathy Yossif El-Kady***, professor of catalysis chemistry, Egyptian petroleum research institute (EPRI) for suggesting the point of research, discussions critical to the progress of the research, for the help he gives to tackle all scientific challenges, for support and encouragement. Words are not enough to thank ***Assistant Professor Ahmed metwally Ali El-naggar***, associate professor of petroleum chemistry, Egyptian petroleum research institute (EPRI) for suggesting the point of research, for his close and continuous supervision, his valuable advices, guidance make this research fruitful and applicable. I am particularly grateful to ***Professor Ahmed Mohamed El-Sabagh***, director of the Egyptian petroleum research institute for facilitating all the difficulties that I encountered through my research. I would like also to thank colleagues in Egyptian petroleum research institute especially ***doctor Ahmed Mohamed Osama*** for their endless help and complete support. Word are not enough to thank my beloved family for their deep love, patience and their continuous support, especially ***My Father, My Mother, My brother, My sisters, My Wife and my sons.***

*Mohamed El Saied Abdel Salam*

## *TABLE OF CONTENTS*

List of Tables.....	I
List of figures.....	III
List of abbreviations.....	X
Abstract.....	XII

## **Table of contents**

### Chapter 1

1 INTRODUCTION.....	1
1.1 Activated carbon.....	1
1.1.1 Definition.....	1
1.1.2 Production of activated carbon.....	3
1.1.3 Raw Materials.....	3
1.1.4 Carbonization.....	3
1.1.5 Activation.....	4
1.1.5.1 Chemical activation.....	5
1.1.6 Physical Structure of Activated Carbon.....	8
1.1.6.1 Porosity.....	10
1.2 Cellulose hydrolysis into glucose.....	14
1.3 Importance of Hydrogen.....	18
1.4 Membrane Technology.....	19
1.4.1 Definition and Classification of Membranes..	19
1.4.2 Transportation of Substances through.....	20

### Membranes

## TABLE OF CONTENTS

---

1.4.2.1 Solution-Diffusion Model.....	21
1.4.2.2 Hydrodynamic Model.....	22
1.4.2.3 Flow Geometries through.....	22
Membranes	
1.4.2.4 Membrane Modules.....	24
1.4.3 Materials for Membrane Fabrication.....	26
1.4.4 Membranes for Separation Processes.....	27
1.4.4.1 Effective Separation Parameters.....	30
1.4.4.2 Membrane Performance.....	31
1.4.4.3 Advantages of the Membrane.....	33
Separation Process	
1.5 Gases Separation by Membranes.....	35
1.5.1 Membranes Candidate Materials.....	37
1.5.2 Hydrogen Separation.....	39
1.6 Membranes for Hydrogen Separation and.....	40
Purification	
1.6.1 Hydrogen Separation Mechanism by.....	41
Membrane	
1.7 Desulfurization Process.....	43
1.7.1 Hydrodesulfurization Process (HDS).....	45
1.7.2 Adsorptive Desulfurization (ADS).....	46
1.7.2.1 Advantages of $\pi$ -complexation.....	48
adsorption	
1.8 Aim of the Work.....	50

## *TABLE OF CONTENTS*

### CHAPTER 2

2. EXPERIMENTAL TECHNIQUES.....	52
2.1 Preparation of Activated Carbon Practically.....	52
2.2 Materials.....	53
2.3 Preparations Procedures.....	53
2.4 Implemented Application Using the Prepared.....	56
Activated Carbon	
2.4.1 Catalytic Conversion of Cellulose.....	56
2.4.2 Hydrogen Separation from Gases Mixtures...	57
2.4.2.1 Hydrogen Separation Procedures.....	60
2.4.3 Sulfur Removal.....	62
2.5 Characterizations.....	63
2.5.1 Analytical Techniques.....	64
2.5.1.1 BET Surface Area Analysis.....	64
2.5.1.2 X-Ray Diffraction (XRD).....	64
2.5.1.3 High Resolution Transmission.....	64
Electron Microscopy (HRTEM)	
2.5.1.4 Fourier Transform Infra-Red.....	65
(FT-IR	
2.5.1.5 Thermal Gravimetric Analysis.....	65
(TGA)	
2.5.1.6 Scanning Electron Microscopy (SEM)....	65

### CHAPTER 3

3. RESULTS and DESCUSION.....	65
3.1 Characterization of the Produced Carbon Based.....	72
Materials	
3.1.1 XRD Analysis.....	73
3.1.2 FT-IR Spectroscopy.....	78
3.1.3 TEM & SEM Imaging .....	84
3.1.4 TGA-DSC Analysis.....	97
3.2 Catalytic Hydrolysis of Cellulose.....	101
3.2.1. Catalyst Comparability.....	104
3.3 Hydrogen energy.....	106
3.3.1 Hydrogen membrane.....	108
3.3.2 Hydrogen separation by membrane.....	111
3.3.2.1 Effect of Gas Composition on H <sub>2</sub> ..	121
Separation.	
3.4 Adsorptive desulfurization.....	125
3.4.1 Effect of Variable Parameters on the.....	127
3.4.1.1. Effect of Contact Time on the .....	127
Adsorption Process	
3.4.1.2. Effect of Temperature on.....	129
the Adsorption process	
3.4.1.3. Effect of Adsorbent Dosage on... 131	
the Adsorption Process	
3.4.1.4. Effect of BT Initial Concentration on.....	132
