*Professor of Milk Hygiene,
Faculty of Vet. Med., Moshtohor,
Zagazig University, Benha Branch*

Dr. Mohamed Ahmed El-Shater
*Senior Researcher of Food Hygiene,
Animal Health Research*

2004

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999). The prevalence of mental health problems has increased in the general population, and the incidence of mental health problems has increased in the prison population.

There is a growing awareness of the need to address the mental health needs of prisoners. The Department of Health (2000) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (2000) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners.
