

Postoperative Pain Following Intracanal Medications with 0.2% Cetrimide Gel Compared to Calcium Hydroxide in Patients with Symptomatic Apical Periodontitis: A Double Blind Randomized Clinical Trial

Part II

A Thesis submitted to Faculty of Oral and Dental Medicine, Cairo University,
in partial fulfillment of the requirements for the
Master Degree in Endodontics

Presented by:

Ahmed Maher Meneisy

B.D.Sc

Mansoura University

2016

Supervisors

Dr Salsabyl Mohammed Ibrahim, B.CH.D, M.S.D (Ind,USA)

Professor of Endodontics

Faculty of Oral and Dental Medicine

Cairo University

Dr Suzan Abd-elWanees Amin, BDS, MDS, DDS

Associate Professor of Endodontics

Faculty of Oral and Dental Medicine

Cairo University

Judgment committee

Dr Reem Ahmed Lutfy Abdel Rahman, BDS, MDSc, DDS

Professor of Endodontics - Faculty of Oral and Dental Medicine

Cairo University

Dr Ehab El-sayed Hasanien, BDS, MDSc, DDS

Professor and head of department of Endodontics - Faculty of Dentistry

Ain Shams University

Dr Salsabyl Mohammed Ibrahim, B.CH.D, M.S.D (Ind,USA)

Professor of Endodontics - Faculty of Oral and Dental Medicine

Cairo University

Dr Suzan Abd-elwanees Ameen, BDS, MDSc, DDS

Professor of Endodontics - Faculty of Oral and Dental Medicine

Cairo University

Acknowledgments

I thank allah , and say alhamdo lellah for this step in my educational life and hope not to be the last one, i thank allah again and again for hard times i passed through master degree education , i learned a lot from this.

Many thanks and appreciation to my supervisor prof. Dr Salsabyl Mohamed Ibrahim for her great effort during this work , i would thank her for opening my mind to search in more than one line and great preparing for work and her great knowledge.

I would express my thankful for who first teach me the meaning of Evidence based dentistry Dr. Suzan Adul Wanees Ameen. I think without her i never learn any objectives of clinical trials.

Many thanks to all my professors and staff members of Endodontic department, Faculty of oral and dental medicine, Cairo University for their cooperation.

My deepest appreciation and thanks to my mother for her support, she did a lot for me and still do , allah care her .

Last but not least, many thanks to my fiancé Salsabeel for her faithful support and encouragement in hard times and good times also.

Dedication

**To my lovely
Parents**

List of Contents

Title	Page no.
List of content	V
List of figures	Vi
List of tables	Vii
List of abbreviations	Viii
Introduction	1
Review of Literature	3
1. Postoperative pain	3
2. Preoperative situation associated with postoperative pain	4
3. Intracanal medication and postoperative pain	9
4. Effect of different instrumentation on postoperative pain	17
5. Irrigations and postoperative pain	21
6. Effect of number of visits on postoperative pain.....	26
7. Cetrinide	32
Systematic search strategy	36
Aim of the Study	39
Participants and methods	40
• Trial design	40
• Ethical consideration	40
• Participants	40
• Outcomes	43
• Endodontic treatment procedure..	44
• Randomization	48
• Blinding	49
Results	50
Discussion	71
Summary and conclusion	77

List of Figures

Figure no.		Page no.
Figure (1)	Flow diagram of the present study	50
Figure (2)	Bar chart showing the mean age values in the two groups	52
Figure (3)	Bar chart showing the incidence of gender in the two groups.....	52
Figure (4)	Bar chart showing the incidence of tooth type and number of canals.....	55
Figure (5)	Bar chart showed incidence of preoperative pain for the two groups	56
Figure (6)	Bar chart showed incidence pain on palpation and percussion in the two groups	56
Figure (7)	Line chart showed pain median of follow up time periods in the two groups.....	58
Figure (8)	Bar chart showing the pain incidence and intensity at different follow up periods for the two groups.....	63
Figure (9)	Bar chart showed difference in postoperative pain between male and females in CTR group.....	65
Figure (10)	Bar chart showed difference in postoperative pain between male and females in CH group.	67
Figure (11)	Bar chart shows the incidence of placebo, analgesic and number of tablets taken in the two groups.....	69

List of Tables

Table no.		Page no.
Table (1)	Recommended torque and speed of protaper universal system.....	45
Table (2)	Mean \pm SD of age, incidence and percentage of gender in the two groups.....	51
Table (3)	Incidence and percentage of tooth type and number of canals of gender in the two groups.....	54
Table (4)	Incidence and intensity of preoperative pain, pain on palpation, pain on percussion, mean \pm SD of pain on percussion in the two groups.....	55
Table (5)	Median (Inter Quartile Range) of follow up periods in two groups in the two groups.....	58
Table (6)	Incidence and intensity of postoperative pain at different follow up times for the two groups.....	62
Table (7)	Difference in postoperative pain between male and females in CTR group.....	64
Table (8)	Difference in postoperative pain between male and females in CH group	66
Table (9)	Incidence of placebo, analgesic and number of tablets taken in two groups.....	69
Table (10)	Incidence of swelling of the two groups.....	70
Table (11)	Number and percentage of incidence of procedural error between two groups.....	70
