Acknowledgments

ALL PRAISE AND THANKS BE TO ALLAH, THE LORD OF ALL BEINGS.

I wish to record thanks to those who have assisted in the preparation of this work.

First and foremost, I would like to express my deep gratitude to the main supervisor of this thesis prof. Amr Mostafa El-Halafawy, for the helpful guidance and support provided during the course of this thesis. I also want to express my deep thanks to prof. Ahmed Mohamed Amin for the high quality of his academic advice and direction, and for continuing encouragement and support.

Second, I would like to thank my Ph.D. examining committee members, prof. Rawya Ezz El-Din Hammouda and prof. Sawsan Yaakoub Bakr, for their useful suggestions.

My sincere appreciation also goes to those who assisted and supported me during the practical research of this thesis, especially Dr. Seif Eldin Farag for his support. I also want to thank Mr. Ahmed Mohsen the general manager of Beverly Hills Property Management.

I am also very grateful to my family members who have provided valuable support and reassurance throughout my studies. My thoughts go especially to my parents, my dear husband Dr. Mohamed Amin, who encouraged and supported me all the time, and my lovely daughters, Yasmin, Nadin and Darin.

Finally, I wish to record my deep thanks to close personal friends for their companionship, and their continuous encouragement.

THANK YOU ALL.

Table of Contents.....	II
List of Tables	VIII
List of Figures.....	IX
Abstract	XIII
Chapter 1: Introduction.....	1
1.1 Brief.....	1
1.2 Problem Definition.....	5
1.3 Research Goals and Objectives:.....	7
1.4 Research Hypothesis:.....	9
1.5 Research Questions:	9
1.6 Research Constrains:	10
1.7 Methodology and Structure:	10
1.8 Research Components	13
1.9 Expected Research Contribution	14
Chapter 2: Urban Management and Development.....	16
2.1 Urban Development	16
2.1.1 Urban Development definition.....	16
2.1.2 Goals of Urban Development	17
2.1.3 The Urban Development Process	18
2.1.3.1 Land Planning Stage.....	19
2.1.3.2 Design Controls.....	19
2.1.3.3 Finance.....	19
2.1.4 Problems of Urban Development Process.....	19
2.1.4.1 Management	20
2.1.4.2 Financing.....	20

2.1.4.3 Population Growth	21
2.1.4.4 Inter-relation with other processes	21
2.1.4.5 Diffusion of views	22
2.1.4.6 Ways of Treatment:	22
2.1.4.7 Various dimensions of urban development process:	22
2.2 Urban Management.....	23
2.2.1 Urban management Definition	23
2.2.2 Urban Management Processes.....	24
2.2.2.1 Planning	25
2.2.2.2 Coordinating	25
2.2.2.3 Resourcing	26
2.2.2.4 Developing	28
2.2.2.5 Operating	28
2.2.2.6 Maintaining.....	28
2.2.3 Tasks of Urban Management.....	29
2.2.3.1 Possible Management Tasks for Local Government and their Performance	30
2.2.3.2 Management Tasks beyond the Scope of Local Government	32
2.2.4 Responsibility for Urban Management action	33
2.2.4.1 Higher Levels of Government	33
2.2.4.2 Local Government.....	34
2.2.4.3 Private Sector.....	34
2.2.4.4 Community Sector	35
2.2.5 Challenges of Urban Management	35
2.2.5.1 Infrastructure.....	35
2.2.5.2 Property	35
2.2.5.3 Resources.....	36
2.3 Urban Decision Making.....	37

2.3.1	Decision making Stages	38
2.3.1.1	Observe	39
2.3.1.2	Orient	39
2.3.1.3	Decide	40
2.3.1.4	Act	40
2.3.2	Decision making Steps	40
2.3.2.1	Create a constructive environment	41
2.3.2.2	Generate Good Alternatives	42
2.3.2.3	Explore the Alternatives	42
2.3.2.4	Choose the Best Alternative	43
2.3.2.5	Check the Decision	43
2.3.2.6	ommunicate the Decision, and Take Action	44
	Summary	45

Chapter 4: Generation of the Proposed Framework for Gated Communities Management using GIS	103
4.1 Introduction	103
4.2 Theoretical Research Outcomes	104
4.3 The Proposed Framework Generation	108
4.4 Description of the Framework Structure	111
4.4.1 Part I: Residential Compound GIS Data Creation and Preparation - Partial Framework	111
4.4.1.1 Residential Compound Base Map Data	113
4.4.1.2 Building GIS Operational Layers for the Residential Compound - Partial Framework	114
4.4.2 Part II: Residential Compound Information Management and Decision Support Applications Framework	117
4.4.2.1 Information Management and Editing Application Partial Framework	119

4.4.2.2 Residents Service Request Application Partial Framework	119
4.4.2.3 Work Order Management and Maintenance Support Application Partial Framework.....	120
4.4.2.4 Reporting and Decision Support Application Partial Framework	121
4.4.2.5 Other Applications Framework.....	122
Summary	123
Chapter 5: The Proposed Framework Interface Design	124
5.1 Part 1: Residential Compound GIS Data Creation and Preparation Framework.....	127
5.1.1 Residential Compound Geodatabase Building from CAD Files	128
5.1.1.1 Phase one: Preparing CAD drawings for GIS Conversion.....	129
5.1.1.2 Phase Two: Creating a GIS Geodatabase FeatureClass Data from CAD Layers	129
5.1.1.3 Phase Three: Aligning Geodatabase Featureclasses in ArcGIS	132
5.1.2 Building GIS Operational Layers for the Residential Compound	135
5.1.2.1 Building the Utilities Networks for the Residential Compound (directed flow)	135
5.1.2.2 Building Interior Spaces	141
5.1.2.3 Building the Street Network for the Residential Compound. (directed flow)	144
5.2 Part 2: Residential Compound Information Management and Decision Support Applications	150
5.2.1 Information Management and Editing Application.....	150
5.2.1.1 Place – Object – People Finder Application (POP Finder).....	150
5.2.1.2 Data Management and Editing Application.....	155
5.2.2 Residents Service Request Application (RSR Application).....	159
5.2.3 Work Order Management and Maintenance Support Application.....	164
5.2.3.1 Work order Management.....	165
5.2.3.2 Utilities Network Decision Support Application	173
5.2.4 Reporting and Decision Support Application	179
5.2.4.1 Asset Information Reports.....	181
5.2.4.2 Property Information Reports	185
Summary	188

References	189
Chapter 6: Framework and Interface Validation.....	190
6.1 Introduction	190
6.2 Structured Interviews and Surveys	191
6.2.1 Criteria for Interviewees Selection	192
6.2.2 Responses Gathering and Analysis	193
6.2.3 The Analysis Results	193
6.3 Discussion	204
Summary	205
Chapter 7: Results and Recommendations	207
7.1 Theoretical Part Results:	207
7.2 Practical Part Results.....	209
7.3 Research Recommendations	214
