Faculty of Engineering  
Urban Planning Department

## Central Station Hubs Design and Principles Case of Ramses Station Cairo, Egypt

A thesis submitted in partial fulfillment of the requirement of  
the M. Sc in Urban Planning Engineering

By Fatma Ibrahim Mohamed  
B. Sc. Urban Planning,  
Ain Shams University

Supervised by:  
Prof. Dr. Mohamed Tamer Zakaria El khorazaty  
Prof. of Urban Planning Department of Urban Planning  
Faculty of Engineering- Ain Shams University

Dr. Abeer Mohamed Reda Elshater  
Assistant Prof. of Urban Planning Department of Urban Planning  
Faculty of Engineering- Ain Shams University

2015

Ain Shams University  
Faculty of Engineering  
Urban Planning Department

## Approval sheet

### **M. Sc. Research**

Name: Fatma Ibrahim Mohamed Ibrahim  
Title: Central Station Hubs Design and Principles  
(Case of Ramses Station Cairo, Egypt)

### **Supervisors Commmittee**

Signature:

Prof. Dr. Mohamed Tamer Zakaria El khorazaty  
Prof. of Urban Planning Department of Urban Planning  
Faculty of Engineering- Ain Shams University

Dr. Abeer Mohamed Reda Elshater  
Assistant Prof. of Urban Planning Department of Urban Planning  
Faculty of Engineering- Ain Shams University

### **Jurors Committee**

Signature:

Prof. Dr. Omar El Hosseiny  
Prof. of Urban Planning Department of Urban Planning  
Faculty of Engineering- Ain Shams University

Prof. Dr. Zeinab Shafik  
Professor of Architecture Department of Architecture  
Faculty of Engineering- Cairo University

### **Post Graduate Studies**

Approval Stamp

The Reseaarch was approved on:

/ /

### **Faculty Council Approval**

/ /

### **Universitty Council Approval**

/ /

Ain Shams University  
Faculty of Engineering  
Urban Planning Department

## **Title sheet**

Name : Fatma Ibrahim Mohamed Ibrahim  
Degree : B. Sc. Degree in Urban Planning  
Department : Department of Urban Planning  
Faculty : Faculty of Engineering  
University : Ain Shams University  
Graduation Year : 2007  
Degree Achievemeent Year : 2015

## **Author's declaration**

**I the undersigned, hereby declare that this dissertation submitted to Ain Shams University, Faculty of Engineering for the degree of M. SC in Urban Planning. The work included in this thesis was carried out by the author in the department of Urban Planning.**

**No part of this thesis has been submitted for a degree or qualification at any other university or institution or to achieve any degree and that all the references to the work of other authors have been duly acknowledged.**

-----  
**Fatma Ibrahim Mohamed**

## Acknowledgments

It is an honor that ALLAH had seen that I deserve to achieve this success; for that and all other countless gifts I shall always remain grateful and thankful.

I would like to express my gratitude to Prof. Dr. Mohamed Tamer Zakaria El khorazaty, Prof. Dr. Omar El Hosseiny, and Prof. Dr. Zeinab Shafik for giving me the chance to experience professionally and academically the concepts of urban planning and providing continuous support and encouragement. A deep appreciation to Dr. Abeer Mohamed Reda Elshater for setting an example of creativity and peruse; providing me with her valuable analytical thoughts, experience, and constant support.

I would also like to extend my respect and indebtedness to all professors whom have a great role along my education and professional years.

Finally, I would also like to extend my respect and indebtedness to all of my family whom have a great role and support along my education and professional years.

## Table of Contents

Introduction.....	1
Problem Definition.....	2
Problem Identification.....	3
Research Scope .....	5
Research Structure .....	5
Part (1) Theoretical Background and Design Principles .....	5
Part (2) Application Study .....	6
Part 1: Theoretical Background and Design Principles.....	8
Chapter 1: Approach to Design Sustainable Transportation Hub.....	8
Introduction.....	8
1.1 About Central Station Hub.....	9
1.1.1 Central Station Hub as an alternative solution .....	10
1.2. Central Station Hub toward the future.....	12
1.2.1. The hubs of tomorrow: sustainably intermodal .....	13
1.2.2. The hubs of tomorrow: Urban Integration.....	14
1.3. Station Hub Guidelines Overview.....	14
1.3.1. Literature Review .....	15
1.3.2. Station Design Parameters.....	17
1.4. Station Hub Typology and Hierarchy.....	26
1.4.1. Station Hub types and Groups.....	26
1.4.2. Typical Components of Station Areas.....	43
1.4.3. Central Station hubs user priorities . .....	55
1.4.4. Central Station hubs Maintenance Guidelines.....	56
1.5. Conclusion .....	60
Chapter 2: Principles of Central Station Design.....	61
Introduction.....	61
2.1. Design Principles. ....	62
2.1.1. Design Framework and Themes.....	62
2.2. Station Usability.....	68
2.2.1. Station Movement .....	69
2.2.2. Station Accessible and Inclusive. ....	73
2.2.3. Wayfinding and Passenger Information .....	76
2.2.4. Comfort and Attractiveness.....	81
2.3. Station Operability. ....	84
2.3.1. Station Operations.....	85
2.3.2. Management and Maintenance.....	90
2.3.3. Safety. ....	93
2.3.4. Be Secure by Design .....	95
2.4. Quality.....	98
2.4.1. Integration with context .....	98
2.4.2. Promote good design.....	102

2.4.3. Sense of Place .....	104
2.5. Conclusion. ....	107
Chapter 3: Analysis of International Central Station Hubs .....	109
Introduction.....	109
3.1. King-Victoria Station Hub. ....	111
3.1.1. Study Background.....	111
3.1.2. Site Context.....	113
3.2. Stuttgart 21 Central Station Hub. ....	127
3.2.1. Study Background.....	128
3.2.2 The Station Hub Urban Development Proposal .....	132
3.3. Squamish Transportation Hub.....	137
3.3.1. Study Background.....	137
3.3.2. Planning Vision.....	138
3.3.3. Key Design Features .....	139
3.4. Examples Summery .....	145
Part 2: Application Study (Case of Ramses Station).....	152
Chapter 4: Ramses Station Theoretical Background.....	152
Introduction .....	152
4.1. Ramses Square Area, Cairo, Egypt .....	156
4.1.1 Ramses Square Location and urban context.....	158
4.1.2 Ramses area Historical Background.....	159
4.1.3 General Traffic Flow at Ramses square .....	166
4.1.4 SWOT Analysis of Ramses area and its surroundings .....	171
Chapter 5: Testing Central Hub Principles on Ramses Station .....	175
Introduction.....	175
5.1 Ramses Station Analysis: Design and Evaluation .....	175
5.1.1. Ramses Square Area Study Background .....	176
5.2. Ramses Station Analysis: Station Operation .....	181
5.2.1. Safety Requirements for Traffic and Pedestrian Circulation ...	182
5.2.2. Providing circulation needs within intermodal station areas using environmentally benign technologies.....	185
5.2.3 Separation of movement at different grades. (Vertical separation .....	185
5.2.4 Public amenities at passenger activity spaces at station sites ...	189
5.3. Station Management and Maintenance .....	190
5.3.1. Station Management.....	191
5.3.2. Station Maintenance.....	193
5.3.3. Intelligent Transportation System (ITS) .....	194
5.5. Design Recommendation & Conclusion .....	195
References.....	203
Appendix: Field Survey Study.....	207
1- Studies of the C.B.D .....	
2- Survey Traffic Volumes of Ramses Square.....	

3- The International Competition for urban design and harmony of Ramses square, Cairo, Egypt .....	
---	--

## Table of Figures

Figure 1: What make Good Station Design? .....	1
Figure 2: Research Structure .....	7
Figure 1-2: the New Mobility HUB Concept .....	9
Figure 1-1: Life Hubs: A New Concept for Urban Planning and Transport .....	9
Figure 1-3: The Concept of Transportation Hub .....	13
Figure 1-4: Methodology of Transportation, Activity Systems and Land Use .....	18
