**DIAGNOSTIC VALUE OF LAMININ IN
DIFFERENTIATION BETWEEN BENIGN AND
MALIGNANT EPITHELIAL LESIONS
OF THE BREAST**

B6926

Thesis presented by
Maryan Fayez Naguib
M.B.B.C.H. 1994

For partial fulfillment of Master degree of Pathology

Under the supervision of

Prof. Dr. KARIMA FAHMY SIDHOM
Professor of Pathology
Faculty of Medicine, Ain Shams University

Prof. Dr. RAGAA AMIN FAWZI
Professor of Pathology
Faculty of Medicine, Ain Shams University

Ass. Prof. Dr. AHMED MOHEY EL-DIN ZAKI
Assistant Professor of Pathology
Faculty of Medicine, Ain Shams University

Faculty of Medicine
Ain Shams University
2002

ACKNOWLEDGEMENT

*I would like to express my deepest thanks and gratitude to **Prof. Dr. Karima Sidhom**, Professor of Pathology, Faculty of Medicine, Ain Shams University, for her meticulous supervision, valuable advice, and generous help to complete this work.*

*I am profoundly indebted to **Prof. Dr. Ragaa Amin**, Professor of Pathology, Faculty of Medicine, Ain Shams University, for her great help, constant support, and sincere advice.*

*I owe a lot of thanks to **Ass. Prof. Dr. Ahmed Mohey El-Din**, Assistant Professor of Pathology, Faculty of Medicine, Ain Shams University, for his valuable guidance, great effort, and outstanding encouragement for the proper achievement of this work.*

LIST OF TABLES

No.	TABLE	Page
1	The mean age and size in benign and malignant cases	55
2	A correlation between number of lymph node metastases and pathologic type of invasive carcinoma	56
3	A correlation between the presence of lymph node metastases and the histologic grade of IDC ..	56
4	Patterns of laminin staining in benign breast lesions	57
5	Patterns of basement membrane laminin staining in benign lesions and in intraductal carcinomas ...	58
6	Patterns of laminin staining in cases of atypical hyperplasia and ductal carcinoma in situ	59
7	Patterns of basement membrane laminin staining in benign and malignant cases	59
8	Patterns of laminin staining in benign lesions and in invasive carcinomas	60
9	Laminin staining patterns in intraductal and invasive ductal carcinomas	60

No.	Table	Page
10	Patterns of laminin staining in different types of invasive carcinoma	61
11	A correlation between basement membrane laminin staining pattern and different grades of IDC	62
12	Patterns of laminin staining in the associated carcinoma in situ components	63
13	A correlation between laminin staining pattern and the age of the patients with invasive carcinoma	63
14	A correlation between basement membrane laminin staining pattern and the size of the invasive carcinoma	64
15	A correlation between the pattern of laminin staining and the presence of lymph node metastases	65
16	A correlation between the pattern of basement membrane laminin staining and the number of lymph node metastases	66
