ACKNOWLEDGEMENT

I would like to express my special appreciation and thanks to my supervisors, *Prof. Dr. Adel El Etriby and Dr/Mohamed Abd El Rahman,* you have been a tremendous mentor for me. I would like to thank you for encouraging my research and for allowing me to grow as a doctor. Your advice on both research as well as career have been priceless. I would especially like to thank physicians, nurses and nurse aids in both **Ain Shams University hospital** and in **Dar El Shefa hospital.** All of you have been there to support me when I recruited patients and collected data for my study.

A special thanks to my family. Words cannot express how grateful I am to my father, mother, and sister, for all of the sacrifices you've made on my behalf. Your prayer for me was what sustained me thus far. I would also like to thank all my friends who supported me in writing, and incented me to strive towards my goal. At the end, I would like to express appreciation to my beloved wife and my two lovely daughters who spent sleepless nights with and were always my support in the moments when there was no one to answer my queries.
