ALEXANDRIA UNIVERSITY

Faculty of Agriculture

(Saba Basha)

Animal and Fish

Production Department

**Productive performance of Barki sheep and their
crosses with Awassi sheep**

**A Thesis Submitted in Partial Fulfillment of the Requirements Governing
the Award of the Degree of**

MASTER OF AGRICULTURAL SCIENCES

In

Animal Production

By

ABDUL MAJID ALFITOURI EL - AMEEN EL - AMEEN

2011

ALEXANDRIA UNIVERSITY
Faculty of Agriculture
(Saba Basha)
Animal and Fish Production
Department

Productive performance of Barki sheep and their crosses with Awassi sheep

Presented by

ABDUL MAJID ALFITOURI LAMEEN LAMEEN

For the degree of

MASTER OF AGRICULTURAL SCIENCES

(Animal Production)

Examiners committee:

Prof. Dr. Atef Youssef Salem
Prof. of Animal Husbandry
Fac. of Agric., Kafr El Sheikh, University.

Prof. Dr. Adel Salah Khattab
Prof. of Animal Breeding
Fac. of Agric., Tanta, University.

Prof. Dr. Mohamed Hassan Ahmed
Prof. of Animal Nutrition
Fac. of Agric., Saba -Basha, Alexandria, University.

Prof. Dr. Soliman Mohamed Zahran
Prof. of Animal Nutrition
Fac. of Agric., Saba -Basha, Alexandria, University.

Prof. Dr. Nabeil Mohamed Abd Elaziz
Prof. of Animal Husbandry
Fac. of Agric., El-Shatby, Alexandria, University.

Approved

A. Salem

A. S. Khattab

M. H. Ahmed

S. M. Zahran

N. M. Abd Elaziz

2011

Advisors Committee:

Prof. Dr. Mohamed Hassan Ahmed
Professor of Animal Nutrition,
Animal and Fish Production Department,
Faculty of Agriculture (Saba Basha),
Alexandria, University.

M.H.Ahmed

Prof. Dr. Soliman Mohamed Zahran
Professor of Animal Nutrition and Head of
Animal and Fish Production Department,
Faculty of Agriculture (Saba Basha),
Alexandria, University.

S.M.Zahran

Prof. Dr. Nabeel Mohamed Abd elaziz
Professor of Animal Husbandry,
Animal Production Department,
Faculty of Agriculture (El-Shatby),
Alexandria, University.

Nab.m.Aziz

ACKNOWLEDGMENT

First of all, prayerful thanks to our merciful God who give me every thing I have.

I would like to thank **Prof. Dr. Mohamed Hassan Ahmed**, Professor of Animal Nutrition, Animal and Fish Production Department, Faculty of Agriculture (Saba Basha), Alexandria University, for his supervising, helping, designing the work plan, advising, preparing, reading of the manuscripts and guiding me through this study that, without his effort this thesis will never be done.

On the other hand, I would like to thank **Prof. Dr. Soliman Mohamed Zahran** Professor of Animal Nutrition, Animal and Fish Production Department, Faculty of Agriculture (Saba Basha), Alexandria University, for his supervision, helping, designing the work plan and encouragement.

Also, I would like to thank **Prof. Dr. Nabeel Mohamed Abdelaziz** Professor of Animal Husbandry, Animal Production Department, Faculty of Agriculture (El-Shatby), Alexandria University, for his supervision, encouragement, support, patience, help and advice through all phases of this work.

I also greatly appreciate **Dr. Mohamed Eissa Mohamed, Dr. Abdelaziz El Rewany and Dr. El Saeed Hamad El Wakeel**, Animal Production Research Institute, Ministry of Agriculture, Cairo, Egypt, for his scientific comments, help in statistical analysis, encouragement and active help throughout all phases of this work.

Also I would like to thank **Dr. Waleed Mostafa Dosoky** Lecturer of Poultry Production, Animal and Fish Production Department, Faculty of Agriculture (Saba Basha), Alexandria University, for his encouragement and active help throughout all phases of this work.

I appreciate all the help which, made by the **staff members and colleagues** at the Animal and Fish Production Department, Faculty of Agriculture (Saba Basha), Alexandria University, and their love and support.

Finally, it is giving me a great pleasure to have the opportunity acknowledge goes to every member of my family for their encouragement and support during my study.

CONTENTS	iii
LIST OF ABBREVIATIONS	iv
LIST OF TABLES	v
LIST OF FIGURES	1
Chapter 1: INTRODUCTION.....	2
Chapter 2: REVIEW OF LITERATURE.....	2
2.1. The Reproductive Performance of the Ewe	2
2.1.1. Reproductive Cycle of the Ewe.....	2
2.2. Factors affecting fertility and prolificacy.....	2
2.2.1. Genetic effect on Reproduction	2
2.2.2. The effect of Breed of ram.....	3
2.2.3. Environmental and physiological factors.....	7
2.2.3.1. Age of ewe at breeding.....	7
2.2.3.2. Effect of Body Weight of Ewe.....	8
2.2.3.3. Effect of supplementation to nutritional on reproductive performance.....	9
2.3. Body weight of the lamb.....	11
2.3.1. Birth Weight.....	11
2.3.2. Breed of ram.....	11
2.3.3. Effect of sex.....	14
2.3.4. Effect of type of birth.....	14
2.4. Effect of age and body weight of the ewe.....	15
2.4.1. Weaning weight.....	16
2.4.2. Breed of ram.....	16
2.4.3. Type of birth	18
2.4.4. Birth weight	18
2.4.5. Birth weight.....	19
2.5. Age and weight of dam.....	19
2.6. Effect of supplementation to nutritional on body weight.....	21
2.7. Milk yield and composition	23
2.8. Effect of yeast culture on milk yield and composition	25
2.8.1. Milk yield.....	25
2.8.2. Milk fat.....	28
2.8.3. Milk protein.....	29
2.8.4. Lactose.....	29
Chapter 3: MATERIALS AND METHODS.....	30
3.1. Barki Sheep.....	30
3.2. Awassi sheep.....	30
3.3. Flock Management.....	31
3.4. Data collection	31
3.4.1. The Reproductive Performance of the Ewe.....	31
3.4.2. Determination of milk production.....	32
3.4.3. Milk chemical analysis.....	32
3.5. Statistical analysis.....	32

Chapter4: RESULTS and DISCUSSION.....	33
4.1. Effect of ram breed on reproductive performance of Barki ewes.....	33
4.1.1. Fertility Measurements	33
4.1.1.1. Breed of Ram.....	33
4.1.1.2. Weight of Ewe at Mating	33
4.1.1.3. Age of ewe at Mating.....	33
4.2. Effect of live yeast culture supplemented	33
4.3. Prolificacy Measurements.....	36
4.3.1. Breed of Ram.....	36
4.3.2. Weight of Ewe.....	38
4.3.3. Age of Ewe at Mating.....	38
4.4. Effect of live yeast culture supplemented.....	38
4.5. The Productive Performance of lambs F1.....	40
4.5.1. Lambs body weight.....	40
4.5.1.1. Breed of lamb.....	40
4.5.1.2. Sex of lamb	40
4.5.1.3. Type of Birth of lambs.....	42
4.5.1.4. Age of ewe at mating.....	42
4.5.1.5. Weight of ewe at mating.....	42
4.5.2. Daily gain of lambs.....	43
4.5.2.1. Breed of lamb.....	43
4.5.2.2. Effect of sex.....	45
4.5.2.3. Effect of dam weight at mating	45
4.5.2.4. Effect of dam age at mating	46
4.6. Effect of supplementation to nutritional on body weight.....	46
4.7. Milk yield and composition.....	51
4.7.1. Effect of ram breed (genotype) and live yeast culture supplementation on ewes milk yield	51
4.8. Effect of genotype and live yeast culture supplementation on milk composition.....	53
4.8. 1. Milk Fat (%).....	53
4.8. 2. Milk protein (%).....	55
4.8. 3. Milk lactose (%).....	57
4.8. 4. Milk total solids (%).....	59
Chapter 5: SUMMARY.....	62
Chapter 6: REFERENCES.....	64
Chapter 7: ARABIC SUMMARY.....
