Relationship between bacteria isolated from uterine discharge, faeces and milk in cattle

A Thesis

Presented to the Graduate School
Faculty of Veterinary Medicine, Alexandria University
In Partial fulfillment of the
Requirements for the Degree

Of

Master of Veterinary Sciences

In

(Microbiology)

By

Horia Masry abd Elaziz

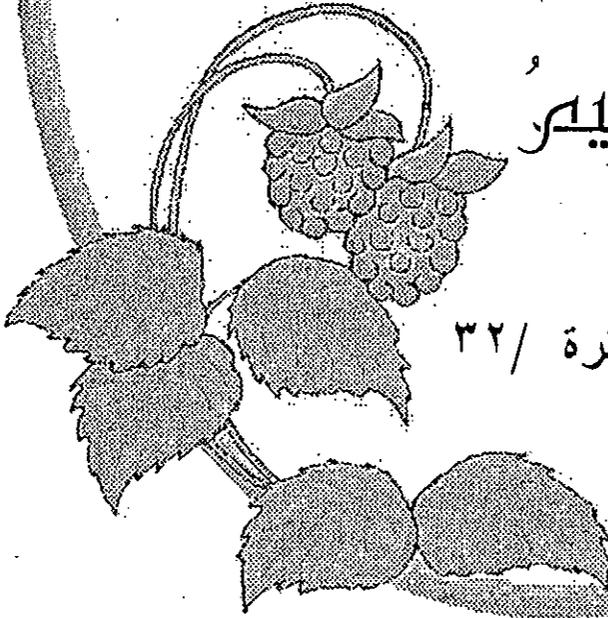

2010

B

حْسَبِ لَنَا إِلَى مَا
حَسَبْتَنَا إِنَّكَ أَنْتَ
الْعَلِيمُ الْكَبِيرُ

البقرة / ٣٢

SUPERVISOR'S COMMITTEE

Prof. Dr. Mahmoud Ismail Mohamed
Professor and head of Animal medicine
Fac. of Vet. Med., Alexandria University.

M. Ismail

Prof. Dr. Samy abd El-Salam Khalil
Professor of Microbiology,
Fac. of Vet. Med., Alexandria University.

S. A. Khalil

Relationship between bacteria isolated from uterine
discharge, faeces and milk in cattle

By
Horia Masry Abd Elaziz
To
Alexandria University
Faculty of Veterinary Medicine,
Department of Microbiology
For
The Degree of M.V.Sc.
Specilization
(Microbiology)

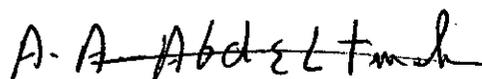

Members of Committee:

Prof. Dr. Helmy Ahmed Torky
Professor of Microbiology
Faculty of Veterinary Medicine,

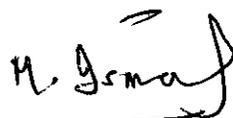

Approved

Prof. Dr. Ashraf Awad Abd El-twab
Professor of Microbiology
Faculty of Veterinary Medicine,
Banha University

Prof. Dr. Mahmoud Ismail Mohamed
Professor and head of animal medicine
Fac. of Vet. Med., Alexandria University.

Prof. Dr. Samy abd El-Salam Khalil
Professor of Microbiology,
Fac. of Vet. Med., Alexandria University.

List of Contents

Items	Contents	Page NO
1	Introduction	1
2	Review of literature	3
	2.1 Bacteria isolated from milk	3
	2.2 Bacteria isolated from uterine discharge	14
	2.3 Bacteria isolated from faeces	18
3	Material and methods	22
3.1	Material	22
	3.1.1 Samples	22
	3.1.2 Culture media used for Isolation and Identification	22
	3.1.3 Solutions and reagents	23
	3.1.4 Solution for extraction of plasmid DNA according to Sambrook et al., (1989)	23
3.2	Methods	27
	3.2.1 Collection of samples (Milk samples -Uterine discharge samples- Rectal swab)	27
	3.2.2 Bacteriological examination	27
	3.2.3 Identification of bacterial isolates	27
	3.2.3.1 Microscopical examination	27
	3.2.3.2 Biochemical reactions	29

Items	Contents		Page NO
	3.3	Extraction of the plasmid DNA from the bacterial isolates.	30
4	Results		33
	Bacteria isolated from milk and fecal matter		33
	Relationship between bacteria isolated from milk and faeces		35
	Bacteria isolated from Faeces and Uterine discharge		36
	Relationship between bacteria isolated from faeces and uterine discharge		38
	Bacteria isolated from milk and uterine discharge		39
	Relationship between bacteria isolated from milk and uterine discharge		41
	4.1	Bacteria isolated from bovine milk as single culture	42
	4.1	Bacteria isolated from bovine milk as mixed culture	43
	4.2	Bacteria isolated from bovine uterine discharge as single culture.	44
	4.2	Bacteria isolated from bovine uterine discharge as mixed culture	45
	4.3	Bacteria Isolated from bovine faeces as single culture	46
	4.3	Bacteria Isolated from bovine faeces as mixed culture	47
5	Discussion		51
6	Summary		57
7	References		59

ACKNOWLEDGEMENTS

ACKNOWLEDGMENT

First of all my prayerful gratitude should be submitted to the merciful Allah whose help I always seek and without his willing I achieve nothing.

I wish to express my sincere gratitude and sincere thanks to Prof. Dr. Mahmoud A. Ismail Prof of animal Medicine and head of animal Medicine Department, Faculty of Veterinary Medicine Alexandria University for his advice and encouragement through this work

I would to thanks Prof. Dr .Samy .A. Khalil prof of Microbiology Faculty of Veterinary Medicine.

Alexandria University for his supervision, ideal guidance, critisme ,encouragement and continuous help.

Also many thanks to Prof. Dr. Mohammed. A. Akela Prof of Microbiology and Head of Microbiology Department for his advise , encouragement and helpful support.

I would like to thanks all members of Microbiology Department in Faculty of Veterinary Medicine

Alexandria University
