ACKNOWLEDGEMENT

I would like to offer a personal expression of appreciation and respect to **Prof. Mohamed Abbas Mansour** Whose expertise and encouraging behaviour have laid a print on my surgical career which remains unforgetable. His targetful observations made this work more pleasant than it would have been.

I am deeply indebted to **prof. Nadia Mokhtar** for her patience , stimulating guidence, meticulous revision and remarks throughout the preparation of the work.

I wish to express my deep gratitude , utmost appreciation and respect to **Prof. Monir Abo El Alla** to whom I owe a lot in my career for his encouraging supervision , instructive observation and his unlimited help and promptness which have eased my task .

My greatest debt of appreciation is due to **Prof. Enas El Attar** - Head of department of epidemiology and statistices for her Patience, Meticulous revision and organizational skill as well as her understanding throughout the preparation of this work.

I stand as well in debt to **Prof. Osama El Malt.** Assistant professer of surgical oncology for his remarks and efforts during the supervision of this work.

My gratitude is extended to **Prof. Hassan Abdel Magid** for his continuous support and Care . To whom goes the credit of bringing the concept of this work to light.

Special thanks to my senior staff and friend **Dr. Salah El Shaz** Lecturer in surgical oncology for his support and encouragement as well his enthusiasim in this work as he carried out good deal of the practi work particularly the Nerve preserving technique.

My thanks are also extended to all the senior staff in t department of surgical oncology who were enthusiastic to adopt t technique and bore much effort and time in doing so with particul attention to **Drs. Sherif Naguib, Amr attiya , Allaa Younis , Sherfi M moon and Ahmed Morsi.**

Finally I wish to thank the Patients for their Co-operati and understanding.

A special thank is also due to Mr. Abd El Halim and Miss Eman f their help in processing and arranging this work in a fine and artistic way.

List of Topics

Subject	Page
* **Introduction**	1-4
* **Review of Literature:**	5
- Surgical anatomy of the Rectum	5-18
- Epidemiology	18-28
- Oetiology	29-44
- Risk Factors	45-46
- Detection and Diagnosis	47-51
- Surgical Pathology	52-73
- Gross Pathology	74-97
- Rational For Radical Abdomino-Pelvic Lymphadenectomy (RAPL)	98-109
- The Early trials and recent Experience of the Radical Abdomino-Pelvic Lymphadenectomy in Rectal Cancer.	110-123
- Surgical Technques of Systematic Radical Abdomino-Pelvic Lymphadenectomy (RAPL) for Rectal Cancer .	124-126
- Nerve-Preserving operation for Rectal Cancer.	127-132
- Anatomical basis of Autonomic nerve - Preservation and total mesorctal excision for rectal Cancer .	133-139
- Technique of Total Mesorectal excision with nerve preservation .	139-143
- An Analysis of voiding and sexual function after	144-159

wide Pelvic lymphadenectomy in Patients with Carcinoma of the rectum — Page

- Morbidity and Mortality of Radical Abdomino-Pelvic Lymphadenectomy — 160-161

* **Patients and Methods** — 162-169
* **Results** — 170-194
* **Discussion** — 195-222
* **Conclusion** — 223-225
* **Summary** — 226-227
* **Reference** — 228-238
* **Arabic Sumary .** — ----

Key Words

SRA	=	Superior Rectal Artery
IMA	=	Inferior Mesentric Artery
APC	=	Adenomatous Polyposis Coli
FAP	=	Familial Adenomatous Polyposis.
CRC	=	Colo Rectal Cancer
CEA	=	Carcinomebryonic Antigen.
RAPL	=	Radical Abdomino-Pelvic Lymphadenectomy.
LR	=	Local Recurrence
LAR	=	Low Anterior Resection
APR	=	Abdomino-Perineal Resection
GITSG	=	Gastro Intestinal Study Group
PANP	=	Pelvic Autonomic Nerve Preservation
TME	=	Total Meso Rectal Excision
SSP	=	Sphincter Saving Procedure.
ANP	=	Autonomic Nerve Preservation
